Sánchez,2022-07-12 The radical history of a dynamic multiracial American neighborhood When I think of the future of the United States and the history that matters in this country I often think of Boyle Heights George J S nchez The vision for America s cross cultural future lies beyond the multicultural myth of the great melting pot That idea of diversity often imagined ethnically distinct urban districts the Little Italys Koreatowns and Jewish quarters of American cities built up over generations and occupying spaces that excluded one another But the neighborhood of Boyle Heights shows us something altogether different a dynamic multiracial community that has forged solidarity through a history of social and political upheaval Boyle Heights is an in depth history of the Los Angeles neighborhood showcasing the potent experiences of its residents from early contact between Spanish colonizers and native Californians to the internment of Japanese Americans during World War II the hunt for hidden Communists among the Jewish population negotiating citizenship and belonging among Latino migrants and Mexican American residents and beyond Through each period and every struggle the residents of

Boyle Heights have maintained remarkable solidarity across racial and ethnic lines acting as a unified polyglot community even as their tribulations have become more explicitly racial in nature Boyle Heights is immigrant America embodied and it can serve as the true beacon on a hill toward which the country can strive in a time when racial solidarity and civic resistance have never been in greater need *The Re-Evolution of American Street Gangs* Dale L. supervised playground or hear about a school being renovated we seldom wonder about who mobilized the community resources to rebuild the school or staff the park Mexican American Women Activists tells the stories of Mexican American women from two Los Angeles neighborhoods and how they transformed the everyday problems they confronted into political concerns By placing these women s experiences at the center of her discussion of grassroots political activism Mary Pardo illuminates the gender race and class character of community networking She shows how citizens help to shape their local environment by creating resources for churches schools and community services and generates new questions and answers about collective action and the transformation of social networks into political networks By focusing on women in two contiguous but very different communities the working class inner city neighborhood of Boyle Heights in Eastside Los Angeles and the racially mixed middle class suburb of Monterey Park Pardo is able to bring class as well as gender and ethnic concerns to bear on her analysis in ways that shed light on the complexity of mobilizing for urban change Unlike many studies the stories told here focus on women s strengths rather than on their problems We follow the process by which these women empowered themselves by using their own definitions of social justice and their own convictions about the importance of traditional roles Rather than becoming political participants in spite of their family responsibilities women in both neighborhoods seem to have been more powerful because they had responsibilities social networks and daily routines separate from the men in their communities Pardo asserts that the decline of real wages and the growing income gap means that unfortunately most women will no longer be able to focus their energies on unpaid community work She reflects on the consequences of this change for women s political involvement as well as on the politics of writing about women and politics
