Treaties and Other International Acts Series, 1946 United States Treaties and Other International Agreements United States,1959 **United States Treaties and Other International Agreements**, 1960 Java for

Students Doug Bell, Mike Parr, 2001. Aware that many students need a careful introduction to programming and that they respond well to graphical illustration this concise book adopts a visual approach to programming. Throughout the text programs that use graphical images are emphasized to clearly demonstrate all the important programming principles. The authors use a spiral approach to programming concepts introducing concepts simply early on then in a more sophisticated way later. e.g. objects are integrated throughout five chapters. Java for Students emphasizes the use of applets but also shows how to program free standing applications. The authors have been careful to put together a text that covers the powerful features of Java and presents the language to students as both a fun and useful tool.

Antiviral Agents S. Ren, 2001-06. The unfortunate appearance of AIDS, the manifold problems with herpesviruses and other viruses attacking humans have led to an enormous dynamism of worldwide research and to an immense increase in the corresponding literature. With this first Special Topic of the monograph series Progress in Drug Research the editor and the publishers undertake an effort to supply concise reviews on virus research especially on the development of new and future antiviral agents in some important and widespread viral diseases. Latest Progress in Drug Research articles dealing with new chemotherapeutics for the treatment of the most threatening viral diseases are presented. These very well received articles were upgraded and supplemented with new chapters to form this actual overview of the achievements in the respective fields of virus research. This special volume contains six review articles covering the latest studies on the HIV and hepatitis C and B viruses.
