Finkbeiner, 2012-12-11 For a parent losing a child is the most devastating event that can occur Most books on the subject focus on grieving and recovery but as most parents agree there is no recovery from such a loss This book examines the continued love parents feel for their child and the many poignant and ingenious ways they devise to preserve the bond Through detailed profiles of parents Ann Finkbeiner shows how new activities and changed relationships with their spouse friends and other children can all help parents preserve a bond with the lost child Based on extensive interviews and grief research Finkbeiner explains how parents have changed five to twenty five years after the deaths of their children The first half of the book discusses the short and long term effects of the child's death on the parent's relationships with the outside world that is with their spouses other children friends and relatives The second half of the book details the effect on the parents internal world their continuing sense of guilt their need to place the death in some larger context and their inability sometimes to consistently do so their new set of priorities the nature of their bond with the lost child and the subtle and creative ways they have of continuing that bond Finkbeiner's central point is not so much how parents grieve for their children but how they love them Refusing to fall back on pop jargon about recovery or to offer easy solutions or standardized timelines Finkbeiner's is a genuine and moving search to come to terms with loss Her complex profiles of parents resonate with the honesty and authenticity of uncomfortable emotions expressed and most importantly shared with others experiencing a similar loss Finally each profile exemplifies the many heroic ways parents learn to live with their pain and by so doing honor the lives their children should have lived *How to Survive the Loss of a Child* Catherine Sanders, 2011-08-17 Thank you Catherine Sanders for giving us a book that few others could have written Every page speaks both the depth of your compassion and the breadth of your knowledge This book will be a wise companion on the difficult journey from loss to recovery Robert Kastenbaum Ph D author of *The Psychology of Death* *How to Survive the Loss of a Child* is a godsend to those in the field as well as to those of us in need of such a resource for our own mourning Eugene Knott Ph D University of Rhode Island Dr Sanders insights are profound and poignant Patricia Geiger M D pediatrician Boone North Carolina Thank you so much for all that you do for bereaved parents but especially for writing *How to Survive the Loss of a Child* I know that it has changed lives It changed mine Nancy Ulmer bereaved parent Kindermourn Charlotte North Carolina It is only through experiencing grief that bereaved parents ultimately heal Moving through the phases of grief the bereaved person works toward restoration Understanding these phases knowing what to expect and learning what they can do to help
