Roles of the Northern Goddess Dr Hilda Ellis Davidson, Hilda Ellis Davidson, 2002-01-04 While much work has been done on goddesses of the ancient world and the male gods of pre Christian Scandinavia the northern goddesses have been largely neglected

Roles of the Northern Goddess presents a highly readable study of the worship of these goddesses by men and women. With its use of evidence from early literature, popular tradition, legend, and archaeology, this book investigates the role of the early hunting goddess and the local goddesses who were involved in all aspects of the household and the farm. What emerges is that the goddess was both benevolent and destructive, a powerful figure closely concerned with birth and death and with the destiny of individuals.

Converting the Saxons Joshua M. Cragle, 2023-10-06 Utilizing a crusading ethos from 772 to 804 AD, Charlemagne, King of the Franks, waged war against the continental Saxons to integrate them within the growing Frankish Empire and facilitate their conversion to Christianity. While substantial research has been produced concerning various components of Carolingian history, this work offers a unique examination of Charlemagne's Saxon Wars as a case study for understanding methods of conversion used in the Christianization of Europe, as well as their significance for subsequent conversion strategies employed around the globe. *Converting the Saxons* builds on prior scholarly research, is grounded in primary sources, and is contextualized with a robust historical introduction. Throughout the text, particular emphasis is given to Christian encounters with paganism and the way paganism was interpreted, confronted, and transformed. Within those encounters, we observe myriad forces of coercion and incentivization used in societal religious conversion, demonstrating the need for a serious reconsideration of the standard narratives surrounding Christian missions. This book provides a scholarly and accessible resource for students and researchers interested in transhistorical methods of conversion, the history of Christianity, Early Medieval paganism, Colonial religious encounters, and the nature of religious conversion.

Old Norse Religion in Long-Term Perspectives Anders Andrén, Kristina Jennbert, 2006-01-12 Consisting of more than 70 papers written by scholars concerned with pre-Christian Norse religion, the articles discuss subjects such as archaeology, art history, historical archaeology, history, history of ideas, theological history, literature, onomastics, Scandinavian languages, and Scandinavian studies. The interdisciplinary aim of the book brings together text-based and material-based researchers to improve scholarly exchange and dialogue and provide a variety of contributions that elucidate topics such as worldview and cosmology, ritual and religious practice, myth and memory, as well as reception and present-day use of old Norse religion.

Women and Miracle Stories Anna Korte, 2018-11-13 This book contains a multidisciplinary collection of studies on women in miracle stories found in texts ranging from religious classics to contemporary literary fiction. Miracle stories are a genre of great importance for the study of women's religious inheritance and for the historical and cultural understanding of women as makers of faith. Miracle stories are very generally speaking more open to popular religion and culture than, for instance, doctrinal and official ecclesiastical texts, and as such they can be of special interest to the study of women's lives and religious aspirations. Remarkably up till now, this genre has not been looked at from this point of view. This book aims to open this field for further research by presenting case studies from diverse angles and disciplines. Some of the questions this book tries to answer are: What do miracle stories specifically tell us about women? Are there some types of miracles that are in

particular related to certain groups of women What do these stories tell us about women as performers and or subjects of miracles What can be said about the social function and religious meaning of miracles by specifically looking at the way certain groups of women are practising and experiencing miracles By including research on miracle stories in contemporary fiction written by women this book also wants to acknowledge and research the disputed status of miracles as well of women in our present society which is moving from modernity to post modernity Please note that Women and Miracle Stories is previously published by Brill in hardback ISBN 90 04 16681 8 still available **Pagan Portals - Odin** Morgan

Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams Stefanie Schult,2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader s acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader s immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams s and Terry Pratchett s fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the

cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett's Discworld retains a feeling of Britishness that is not to be found in Williams's Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author's Subcreation by collecting empirical data Apart from literary works this field of studies may also include other media
