

A photograph of ancient stone ruins in a jungle. The scene shows several stone walls and structures, some with rectangular openings, partially covered in moss and surrounded by dense tropical vegetation. Large trees with thick canopies are visible in the background, creating a sense of a hidden, overgrown site.

Constructing Mission History Stanley H. Skreslet, 2023-01-17 Three master narratives currently dominate the analysis of modern mission history One puts foreign missionaries at the heart of the story A second emphasizes the colonial aspect of modern missions Here missionaries are not heroes but villains who are implicated in

hegemonic schemes of imperial domination Thirdly mission history is subordinated to one of its outcomes the advent of World Christianity In this master narrative the concept of contextualization looms large bolstered by Sanneh's notion of translatability and emphasis on the agency of non Westerners who participate in and subtly shape the complex social processes of evangelization While all three of these master narratives are insightful none of them adequately balances concern for missionary initiative and indigenous agency Borrowing from speech act theory Skreslet offers a new analytical approach to the modern roots of World Christianity that differentiates between what a speaker might intend to communicate and the effects of what has been said or actions taken both in the moment and over time Corresponding to the concepts of illocution and perlocution as these technical terms are used in speech act theory the book is structured in two main sections Initially the focus is on expressed missionary motives Part two engages a representative set of modern era mission performances involving many more actors than just the foreign evangelizers whose stated or implied intentions are emphasized in part one

Cultural Memory Jeanette Rodriguez, Ted Fortier, 2007-06-01 *Sangre llama a sangre* Blood cries out to blood Latin American aphorism The common blood of a people that imperceptible flow that binds neighbor to neighbor and generation to generation derives much of its strength from cultural memory Cultural memories are those transformative historical experiences that define a culture even as time passes and it adapts to new influences For oppressed peoples cultural memory engenders the spirit of resistance not surprisingly

some of its most powerful incarnations are rooted in religion In this interdisciplinary examination Jeanette Rodriguez and Ted Fortier explore how four such forms of cultural memory have preserved the spirit of a particular people Cultural Memory is not a comparative work but it is a multicultural one with four distinct case studies the image of Our Lady of Guadalupe and the devotion it inspires among Mexican Americans the role of secrecy and ceremony among the Yaqui Indians of Arizona the evolving narrative of Archbishop Oscar Romero of San Salvador as transmitted through the church of the poor and the martyrs and the syncretism of Catholic Tzeltal Mayans of Chiapas Mexico In each case the authors religious credentials eased the resistance encountered by social scientists and other researchers The result is a landmark work in cultural studies a conversation between a liberation theologian and a cultural anthropologist on the religious nature of cultural memory and the power it brings to those who wield it

Natives and Newcomers Bruce Trigger, 1986-07-01 Natives and Newcomers discredits that myth In a spirited and critical re examination of relations between the French and the Iroquoian speaking inhabitants of the St Lawrence lowlands from the incursions of Jacques Cartier through the explorations of Samuel de Champlain and the Jesuit missions into the early years of the royal regime Natives and Newcomers argues that native people have played a significant role in shaping the development of Canada Trigger also shows that the largely ignored French traders and their employees established relations with native people that were indispensable for founding a viable European colony on the St Lawrence The brisk narrative of this period is complemented by a detailed survey of the stereotypes about native people that have influenced the development of Canadian history and anthropology

and by candid discussions of how historical ethnographical and archaeological approaches can and cannot be combined to produce a more rounded and accurate understanding of the past
