Lost In Austin:

Lost in Austin Alex Hannaford, 2024-10-01 A long time Austinite and journalist's exploration of the profound movements that have shaped Austin Texas charting the shifts within its vibrant music scene the impact of rapid urbanization and the challenges of gentrification ultimately questioning what this city's transformation signals for American urban identity Austin isn't what it used to be This is a common sentiment amongst locals offered with the same confused and often disappointed tone familiar to residents of Seattle Portland or San Francisco where rapid growth and expansion have led to an urban identity crisis Like those cities Austin is known for its unique qualities a thriving live music scene and housing affordability that historically made it a compelling home for creatives and self-described weirdos to roost But now as Big Tech infiltrates and climate change looms Austin has become less familiar and far less affordable An exploration of the beloved city's evolution *Lost in Austin* also serves as a critical exploration of the transformation that has befallen one of America's most beloved cities and serves as a warning for what the homogenization of cities means for American urban identity With a journalist's perspective and the heart of an Austinite Alex Hannaford delves into the consequences of the city's rapid growth in chapters that chronicle the major movements permanently altering the city a vanishing music scene soaring property values and the encroachment of major industry Through keen reportage and extensive interviews *Lost in Austin* unveils the toll of unchecked growth and the city's shift from its rebellious spirit to commercialization Through those stories vibrant colorful and clearly full of love for this city Hannaford raises a crucial question How do American cities once celebrated for their unique values become casualties of their own rapid growth and success And can they ever return to what they once were

These collected stories are a true delight John Barth I was born in a land of bayous raised between rivers Glenn Blake writes There is a place in Southeast Texas where two rivers meet and become one There is a long bridge over these waters and as you drive across you can look to the south and see where the Old River and the Lost River become the Old and the Lost You can look out as far as you can see and watch this wide water become the bay These fourteen stories are set in the swamps bayous and sloughs of Southeast Texas a region that is subsiding sinking inches every year The characters who inhabit Blake's haunting landscape awash in their own worlds adrift in their own lives struggle to salvage what they can of their hopes and dreams from the encroaching tides When he writes about it you can feel it smell it taste it hear it see it that strange lost unknown corner of Texas It is a whole other country and Blake gives it to you with all its oddity and mystery as it is Molly Ivins

Distant Publics Jennifer Rice,2012-08-19 Urban sprawl is omnipresent in America and has left many citizens questioning their ability to stop it In *Distant Publics* Jenny Rice examines patterns of public discourse that have evolved in response to development in urban and suburban environments Centering her study on Austin Texas Rice finds a city that has simultaneously celebrated and despised development Rice outlines three distinct ways that the rhetoric of publics counteracts development through injury claims memory claims and equivalence claims In injury claims rhetors frame themselves as victims in a dispute Memory claims allow rhetors to anchor themselves to an older deliberative space rather than to a newly evolving one Equivalence claims see the benefits on both sides of an issue and here rhetors effectively become nonactors Rice provides case studies of development disputes that place the reader in the middle of real life controversies and evidence her theories of claims based public rhetorics She finds that these methods comprise the most common though not exclusive vernacular surrounding development and shows how each is often counterproductive to its own goals Rice further demonstrates that these claims create a particular role or public subjectivity grounded in one s own feelings which serves to distance publics from each other and the issues at hand Rice argues that rhetoricians have a duty to transform current patterns of public development discourse so that all individuals may engage in matters of crisis She articulates its sustainability as both a goal and future disciplinary challenge of rhetorical studies and offers tools and methodologies toward that end
