Many people refer to the book *The Gulag Archipelago* 1974 by Solzenitsyn I as the book on the GULAG partly from his experience and research thereof. The author started with a simple expression written about John W. Adkins. He left home at an early age and never returned home. There was literally no information about him. Most people familiar with my work have been totally amazed at the amount of the information/documents obtained by the author from the archives on one individual. After many years of work, the author did not want to leave this material to just a research project sitting on the bookshelf.
