Potential History Ariella Aïsha Azoulay, 2019-11-19 In this theoretical tour de force renowned scholar Ariella Asha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasised the possibility of progress while trying to destroy what came before and voraciously sought out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practising what she calls potential history Azoulay argues that we can still refuse the imperial violence that shattered communities lives and worlds from native peoples in the Americas to the Congo ruled by Belgium s brutal King Lopold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In Potential History Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics

Absence / Presence Stephen C. Feinstein, 2005-08-11 Since the liberation of the Nazi concentration camps and recognition of the Holocaust as a watershed event of the twentieth century if not in Western Civilization itself the capacity of

art to represent this event adequately has been questioned As it analyzes a cross section of Holocaust art within the context of art history *Absence Presence* addresses the discussion head on and explores the interchange between media and horror The book s contributors include case studies from a broad spectrum of artists in North America Europe and Israel to examine some of the more dominant themes in these artists work In addition to standard readings of Holocaust art the essays help illuminate the issues of eugenics the importance of art for Hitler and the Nazis the immense pilfering of art that occurred during World War II and the length and degree of the destruction of European Jewry which forced artists to reinvent their work through their own fate This selection of essays also provides alternative views to more typical readings on the Holocaust specifically to the story of the Shoah as a relevant art subject and to those who have a right to create art about the Holocaust These issues were the subject of an intense international debate based on an exhibition at New York s Jewish Museum titled *Mirroring Evil* The retrospective brought to art a series of contemporary perspectives that represented both the outer edges as well as mainstream postmodern thinking concerning representations of the Holocaust This book which covers the art from the late 1980s through 2002 includes the work of an array of scholars curators and artists from many countries It will be of great interest to art historians Jewish scholars and anyone interested in learning more about the art and artists of the Holocaust

these objects in Britain to repatriate them to their points of origin and even to destroy them altogether Bailkin explores these disputes in order to investigate the vexed status of property within modern British politics as well as the often surprising origins of ongoing institutional practices Bailkin's detailed account of these struggles illuminates the relationship between property and citizenship which has constituted the heart of liberal politics as well as its greatest weakness Drawing on court transcripts gallery archives exhibition reviews private correspondence and a striking series of cartoons and photographs *The Culture of Property* traverses the history of gender material culture urban life colonialism Irish and Scottish nationalism and British citizenship This fascinating book challenges recent scholarship in museum studies in light of ongoing culture wars It should be required reading for cultural policy makers museum professionals and anyone interested in the history of art and Britain
