Lost Fathers The Politics Of Fatherlessness:

Lost Fathers Cynthia R. Daniels, 2000-04 This book brings together the voices of a highly diverse group of scholars to reflect on the culturally and politically charged concept of fatherlessness in contemporary American politics **The Myth of the Missing Black Father** Roberta L. Coles, Charles St. Clair Green, 2010 Common stereotypes portray black fathers as being largely absent from their families Yet while black fathers are less likely than white and Hispanic fathers to marry their child's mother many continue to parent through cohabitation and visitation providing caretaking financial and other in kind support This volume captures the meaning and practice of black fatherhood in its many manifestations exploring two parent families cohabitation single custodial fathering stepfathering noncustodial visitation and parenting by extended family members and friends Contributors examine ways that black men perceive and decipher their parenting responsibilities paying careful attention to psychosocial economic and political factors that affect the ability to parent Chapters compare the diversity of African American fatherhood with negative portrayals in politics academia and literature and through qualitative analysis and original profiles illustrate the struggle and intent of many black fathers to be responsible caregivers This collection also includes interviews with daughters of absent fathers and concludes with the effects of certain policy decisions on responsible parenting **Fatherhood Politics in the United States** Anna Gavanas, 2010-10-01 Are fathers being marginalized in the contemporary family Responding to fears that they are the self proclaimed fatherhood responsibility movement FRM has worked since the mid 1990s to put fatherhood at the center of U S national politics Anna Gavanas's Fatherhood Politics in the United States analyzes the processes reveals the internal struggles and traces the myths that drive this powerful movement Unlike previous investigations that rely on literary or other secondary sources Fatherhood Politics works from primary ethnographic material to represent a wider range of voices and actors Interacting with and interviewing members of the most powerful and well known national fatherhood organizations Gavanas observed Promise Keeper rallies men's workshops and conferences on masculinity fatherhood and marriage Providing a detailed overview of the different organizations involved and their various rhetorical strategies Gavanas breaks down the FRM into two major wings The pro marriage wing sees marriage as the key to solving all social problems while the fragile family organizations worry about unemployment racism and discrimination Gavanas uses her extensive anthropological fieldwork as the basis for discussions of gender sexuality and race in her analysis of these competing voices Taking us inside the internal struggles tensions and political machinations of the FRM Gavanas offers a behind the scenes look at a movement having real impact on current social policy Fatherhood Politics is an essential work for anyone interested in the politics of masculinity parenthood marriage race and sexuality Essential Dads Jennifer M. Randles, 2020-10-13 In Essential Dads sociologist Jennifer Randles shares the stories of more than 60 marginalized men as they sought to become more engaged parents through a government supported responsible fatherhood program Dads experiences serve as a unique window into long standing controversies

about the importance of fathering its connection to inequality and the state's role in shaping men's parenting. With a compassionate and hopeful voice Randles proposes a more equitable political agenda for fatherhood one that carefully considers the social and economic factors shaping men's abilities to be involved in their children's lives and the ideologies that rationalize the necessity of that involvement.

New Family Values Karen Struening, 2002-06-25 How many different kinds of families are there? New Family Values provides a critical analysis of scholars and authors who argue that law and policy should be used to foster one model of the family: the intact two-parent heterosexual family. Karen Struening argues that this position does not adequately address the problem it supposedly solves: family dissolution and unnecessarily constrains personal liberty. Healthy families may be necessary for civic unity and individual stability but there can be many different kinds of families.

Nurturing Dads William Marsiglio, Kevin Roy, 2012-01-01 American fathers are a highly diverse group but the breadwinning live-in biological dad prevails as the fatherhood ideal. Consequently policymakers continue to emphasize marriage and residency over initiatives that might help foster healthy father-child relationships and creative co-parenting regardless of marital or residential status. In *Nurturing Dads* William Marsiglio and Kevin Roy explore the ways new initiatives can address the social, cultural, and economic challenges men face in contemporary families and foster more meaningful engagement between many different kinds of fathers and their children. What makes a good father? The firsthand accounts in *Nurturing Dads* show that the answer to this question varies widely and in ways that counter the mainstream provide-and-reside model of fatherhood. Marsiglio and Roy document the personal experiences of more than 300 men from a wide range of socioeconomic backgrounds and diverse settings including fathers-to-be, young adult fathers, middle-class dads, stepfathers, men with multiple children in separate families, and fathers in correctional facilities. They find that most dads express the desire to have strong, close relationships with their children and to develop the nurturing skills to maintain these bonds. But they also find that disadvantaged fathers, including young dads and those in constrained financial and personal circumstances, confront myriad structural obstacles such as poverty, inadequate education, and poor job opportunities. *Nurturing Dads* asserts that society should help fathers become more committed and attentive caregivers and that federal and state agencies, worksites, grassroots advocacy groups, and the media all have roles to play. Recent efforts to introduce state-initiated paternity leave should be coupled with social programs that encourage fathers to develop unconditional commitments to children, to co-parent with mothers, to establish partnerships with their children's other caregivers, and to develop parenting skills and resources before becoming fathers via activities like volunteering and mentoring kids. Ultimately Marsiglio and Roy argue such combined strategies would not only change the policy landscape to promote engaged fathering but also change the cultural landscape to view nurturance as a fundamental aspect of good fathering. Care is a human experience, not just a woman's responsibility, and this core idea behind *Nurturing Dads* holds important implications for how society supports its families and defines manhood. The book promotes the progressive notion that fathers should provide

more than financial support and in the process bring about a better start in life for their children A Volume in the American Sociological Association's Rose Series in Sociology Male Femininities Dana Berkowitz, Elroi J. Catholic Culture Ryan Nathan Scott Topping, Ryan Topping, 2013-01-18 Rarely does a book come along that so succinctly explains the decline of modern culture articulates a defense of the Church's teachings and offers a hope filled path for building a civilization grounded in Catholic truth In these pages Dr Ryan Topping does all three pulling back the curtain on the false philosophies of the secularists and showing that in the West today the most formidable threat to freedom is not failing economies or Islam but secularism Our best defense he claims is a vibrant Catholic culture and our best hope for creating it lies in the principles found in the Catechism of the Catholic Church In *Rebuilding Catholic Culture* you'll discover sensible ways to begin restoring Catholic culture right now in your own life and family and in our larger communities as well in the theater in the classroom in our hospitals and even in the public square This profoundly accessible book will renew your confidence in the world transforming character of our Creed and in the potency of our Faith to shape and redefine the culture of the West Book jacket
