Sweet! Love! Vanessa Vanney Thompson, 2014-02-12 Thank you for the opportunity to read your book I found it refreshing Here is my

review Word of Expressions on a Page is a true love story seen through the eyes of one woman Here these are expressed in the form of poetry and short stories I was thoroughly surprised at how completely Ms Thompson covered the subjects she chose to address love marriage and life Ironically as a poet I often find the views of others on these particular topics more than interesting The style of writing in this volume is brisk There is very little flowery wordplay Ms Thompson is quick and to the point with her word imagery contained within more than 150 pages to enchant you This is refreshing to me Two of my favorite poems are I and A Mixture I have many others I certainly recommend this book to anyone who wants a fresh perspective on relationships both the good and the bad It doesn't get any clearer than this LJ Thomas Asoral Publishing P S I love the candid picture of you sprinkled throughout the volume nice touch Photo by Vanessa Vanney Thompson

[Approaches to Teaching the Romance of the Rose](#) Daisy Delogu, Anne-Hélène Miller, 2023-03-21 One of the most influential texts of its time the Romance of the Rose offers readers a window into the world view of the late Middle Ages in Europe including notions of moral philosophy and courtly love Yet the Rose also explores topics that remain relevant to readers today such as gender desire and the power of speech Students however can find the work challenging because of its dual authorship by Guillaume de Lorris and Jean de Meun its structure as an allegorical dream vision and its encyclopedic length and scope The essays in this volume offer strategies for teaching the poem with confidence and enjoyment Part 1 Materials suggests helpful background resources Part 2 Approaches presents contexts critical approaches and strategies for teaching the work and its classical and medieval sources illustrations and adaptations as well as the intellectual debates that surrounded it

**The Embers and the Stars** Erazim Kohák, 2015-07-10 It is hard to put this profound book into a category Despite the author's criticisms of Thoreau it is more like Walden than any other book I have read The book makes great strides toward bringing the best insights from medieval philosophy and from contemporary environmental ethics together Anyone interested in both of these areas must read this book Daniel A Dombrowski The Thomist Those who share Kohák's concern to understand nature as other than a mere resource or matter in motion will find his temporally oriented interpretation of nature instructive It is here in particular that Kohák turns moments of experience to account philosophically turning what we habitually overlook or avoid into an opportunity and basis for self knowledge This is an impassioned attempt to see the vital order of nature and the moral order of our humanity as one

**Ethics Reclaim Your Sexuality** Cathy Chapman, Sexuality is integral to who you are and when someone damages that it damages your energy field In this book we will work at strengthening and healing your energy field so that you become comfortable with how you choose to express your sexuality We will show you how to dismantle the energies of non acceptance for who you are because of who you choose to love or your confusion about the gender you feel internally versus what you display externally We will also discuss how your sexuality influences every part of your life how you sit how you stand and what you see when you look out your window The key is to accept how you are and how others are Lack of acceptance brings great shame especially when you're first discovering yourself as a sexual being No parts of your body are shameful That shame has been projected on to you by others In this book we will work specifically with areas related to gender identification sexual attraction sexual trauma and confusion related to sexuality foisted on you by others

*Soul Search* Swarn Bains,2016-07-14

This book is a translation of my Punjabi poetry excluding few English poems in the beginning

God came into existence first

God worshipped inner source of knowledge

guru to come into existence

A teacher who teaches English is called English teacher

Teacher who teaches math is called math teacher

Same way the teacher who teaches spirituality is called guru

Worldly teachers teach from the brain to brain

The guru teaches the soul from soul

Guru is a mentor as well

It is telepathic transformation

Make your own judgment

When God felt lonely he created the creation

He started caring for it

Doing so he got attached to it and fell in love

God set love as prerequisite to realize him

The Creation is a testament to it

Mind is a thought processing system

Spirituality is a study of the mind

Divinity is a state of mind

Spirituality is a rehearsal of the mind to miss God and it straightens following gurus teaching

Sometimes it helps to follow the teachings of prophets or saints

But they have died long ago

So it has very little effect because the spirituality is learned telepathically from mind to mind from a living guru

The mind does not tune to spirituality without the gurus blessing

It can only be learnt by self surrendering

It cannot be forced into the devotees mind

It can be learned from a spiritual teacher through love humility and dedication

God is great

Everything created by God is also great

So everything in the world is flawless and beautiful

To stay abreast with Creation

God assimilated himself in everything

That is why God is called omnipresent

God created his creations including human beings

God abides in everything

So God has mothers love and motherly relation with his subjects

The subjects also have motherly relation with God

God wants us to realize him and we also want to merge with him to end separation

I do not know much about other species but man has instinct to go back and merge with the entity he separated from

So it is a mother child relationship

There are many types of faiths procedures and processes people use to find a way to go back to him

We assume that God is one

Therefore the final process to realize him also must be one only

Finally all processes merge and end up in one

that is to learn from a learned master the guru

The world is a terrifying world ocean

The being is on one side of it and godliness or to merge with God is on the other side of the ocean

Gurus teaching is the process to take the being across the terrifying world ocean

It is a lot easier to learn from a teacher than your own

I was fortunate to meet my guru and become his devotee and follow his teaching and advice

At the same time I

started to read and contemplate the Sikh religious scripture Siree Guru Granth Sahib It is a spiritual book only It has no stories that a person has to learn from Writing in SGGS is by living saints and it emphasizes that guru is God One will have to console with guru to console with God Other important criteria to realize God is selfless love humility and dedication mentioned in SGGS Most harmful events from becoming divine are duality and slander I learned from my guru and from reading SGGS I decided my path and I follow it under my gurus guidance and following the teachings of SGGS Both have same message and advice God is the highest power in the universe In order to miss him recitation and repetition are necessary So there is lot of repetition about praising God in this book To understand this book the reader has to tune his mind to soul searching Some people follow other systems I have no opinion or knowledge about it It is a lifelong process Life is too short to learn on your own He who puts his feet on two boats does not cross the water doing so As they say a guest at many homes at the same time remains hungry It is my humble request to follow one path whatever pleases you

**Extraordinary Space** Stan Burns, 2005-08 Extraordinary Space is a work of science fiction that blends romance and adventure with a newly postulated scientific thesis In the novel a new direction of travel available to humans is discovered mathematically and later brought to reality by the main character Lyte Donner Lyte with the help of his female assistant Jaseta Zee makes use of his newly developed technology in a variety of ways including erradicating drug rings dissolving street gangs busting international terrorist organizations and many others Due to ordinary forces of Earth gravity this new direction of travel has gone unrealized until Lyte neutralizes gravity in a realistic way consistent with current cutting edge technology Lyte then balances all other forces that could cause movement in every heretofore known direction and this in turn causes movement in the path of least resistance which is in the new direction The novel refers to this new direction as the fourth dimension but hold on to your hats because this is not the usual concept of the fourth dimension Much theory and fiction have already been advanced about the fourth dimension time space continuum but this novel deals with none of that New science is proposed in the novel and the new direction of movement is the result of extending the rules of 3 dimensional Euclidean space to 4 dimensional space It is Euclidean Four Space Before arguing the point the question is who can prove that this space doesnt exist Caution is called for here Proceed with an open mind Lyte uses a device called the INTEGRAL to move into the new space which fully encompasses every point in the old ordinary space A person reading the novel for the first time will likely make judgments based of his her circle of knowledge and frame of reference and could refer to the INTEGRAL as a Teleportation device This is new science It would be a mistake to call the INTEGRAL a Teleportation device The characters simply move into a new space They are not teleported anywhere Teleportation was probably a term new to many of us and introduced by the entertainment industry during the 1960s We have advanced far beyond that and few if any of the old cliches are adequately able to describe the new science axiomated by the novel It took several years to develop and complete the novel The novel was completed prior to the events of 9 11 01 Ironically Lyte Donner s first lead to terrorists in

the book was centered around a pair of Middle Easterners traveling from London to Paris The subject of terrorism is a major part of the book The novel culminates on a complication of terrorism which is resolved nicely The book is alive with patriotism again written even before the events of 9 11 01 Patriotism is now alive and well again in our country It is a popular thing at present and throughout the novel patriotism is thrust to the forefront The book even explains how and why patriotism was subdued for such a long period of time from Lyte s point of view of course In the book the term Ground Zero is used in its original sense The term has now become a well recognized and repeated term The book is appropriate for the time The events described in the book are purely fictitious Any resemblances to real events is strictly coincidental Although the events in the book are fictional some but not all of the events in the book carry an underlying theme that should be the concern of every American citizen
