Kelly, 2023-09-20 This volume contains a detailed study of the applicable international law relevant to peace operations in the context of collapsed states in the establishment of safe havens or in a general enforcement role It discusses the interaction and the often complex legal relationships between non government humanitarian actors relevant UN agencies the warring parties and international peace forces under international law and practice In particular the book deals with issues concerning the implications of contemporary peace operations for military forces in terms of force structure operating procedures and training The book focuses on the often overlooked but critical issues of the interim administration of law and order in complex operations and on the reconstruction of a local capability in this regard Many contemporary operational challenges are analysed including the Balkans and the Middle East In particular the book includes a detailed case study of Somalia based on the author s personal knowledge experience and access to information on the ground in his capacity as military legal adviser to the Australian Defence Force Contingent in Somalia US-UK Counter-Terrorism after 9/11 Edgar Tembo, 2014-01-10 This book provides a qualitative analysis of post 9 11 counter terrorism strategy undertaken by the United Kingdom and United States of America Since 9 11 both the UK and the U S have significantly revamped their counter terrorism approaches The approaches apply to varying degrees three key policy instruments intelligence law enforcement and military force However the success or failure of these counter terrorism strategies has never been satisfactorily validated Analysts and policymakers alike have assumed success due to the inability of terrorists to conduct 7 7 and 9 11 respectively scale attacks upon each state This assumption has existed despite the fact that it fundamentally underestimates the impact of transnational terrorism This volume provides an in depth qualitative assessment of the three primary policy instruments implemented to counter the transnational threat of terrorism during the period 2001 2011 an approach somewhat neglected by the current body of literature which focuses on a purely quantitative methodology Drawing upon previously unpublished data collected from interviews with policymakers specialists and academics the book fills this lacuna by ascertaining and analysing both the UK s and USA s counter terrorism strategies and developing a holistic approach to understanding these strategies This book will be of interest to students of terrorism and counter terrorism studies security studies and IR in general **Oman's Insurgencies** John

Peterson,2014-05-22 Oman today is a rapidly modernizing and peaceful country on the fringes of a region in turmoil It does however have a long history of internal strife In the twentieth century this strife took the form of two internal conflicts The Northern Oman or al Jabal al Akhdar War of the 1950s was a struggle between the forces of the old tribally based Imamate and the newer Sultanate in the northern part of the country In the Dhufar War of the 1960s 70s an anti Sultanate and later Marxist front sought secession in the south J E Peterson takes a detailed look at these two wars in the context of insurgency and counter insurgency warfare He surveys Oman s transition from a strictly traditional regime controlling only parts of the country to a modern inclusive state particularly in terms of security concerns Peterson analyses the development of the Sultanate s successful responses to security challenges especially in the creation and evolution of modern armed forces

International Military Operations in the 21st Century Per M. Norheim-Martinsen,Tore Nyhamar,2015-05-08 This book examines the challenges that military forces will face in multinational operations in the 21st century Expanding on Rupert Smith s *The Utility of Force* the volume assesses the changing parameters within which force as a political instrument is ultimately carried out By analysing nine carefully selected mission types the volume presents a comprehensive analysis of key trends and trajectories Building upon this analysis the contributors break the trends and parameters down into real and potential tasks and mission types in order to identify concrete implications for military forces in future multinational operations The context of military intervention in conflicts and crises around the world is rapidly evolving Western powers shrinking ability and desire to intervene makes it pertinent to analyse how the cost of operations can be reduced and how they can be executed more intelligently in the future New challenges to international military operations are arising and this book addresses these challenges by focusing on three key areas of change 1 An increasingly urbanised world 2 The changing nature of missions 3 The commercial availability of new technologies In answering these questions and embracing some of the insights of a growing field of future studies the volume presents an innovative perspective on future international military operations This book will be of much interest to students of international intervention military and strategic studies war and conflict studies security studies and IR in general

Insurgencies and Counterinsurgencies Beatrice Heuser,Eitan Shamir,2016-12-24 This book is a major new study of the extent to which national mentalities or ways of war are responsible for national styles of insurgency and counterinsurgency Leading scholars examine the ways of war of particular insurgent movements and the standard operational procedures of states and occupation forces to suppress them Through case studies ranging from British American and French counterinsurgency to the IRA and the Taliban they show how national styles evolve influenced by transnational trends ideas and practices They examine whether we can identify a tendency to resort to a particular pattern of fighting and if so whether this is dictated by constants such as geography and climate or by the available options or else whether there exists a particular strategic culture or national style Their findings show that national style is not eternal but can undergo fundamental transformations

Military Review ,1988 The Strategic Use of Force

in Counterinsurgency Miles Kitts, 2020-01-13 The Strategic Use of Force in Counterinsurgency Find Fix Fight focuses on how to understand the relationship between the use of force and the outcomes of such use Specifically there is debate as to how to evaluate counterinsurgency conflicts and what prescriptions flow from that evaluation The Neo Classicist school emphasises prescriptions which are either directly from or inspired by Cold War counterinsurgency efforts undertaken by anti communist states The Revisionist school focuses on how best to evaluate the political dimensions of such conflicts This book finds that a third approach Reflective Action is best as it combines Neo Classicism s strength of issuing practical prescriptions with Revisionism s strength for conceptually evaluating counterinsurgency conflicts This conceptual debate is expositied in three cases They are the British counterinsurgency during the Malayan Emergency of the 1940s and 1950s American counterinsurgency in South Vietnam during the 1960s and 1970s and the Coalition counterinsurgency in Iraq during the 2000s Professional Journal of the United States Army ,1988 Review of Current Military Literature ,1988

Out of One, Many Africas William G. Martin, Michael Oliver West, 1999 Even as symbols of Africa permeate Western culture in the 1990s centers for the academic study of Africa suffer from a steady erosion of institutional support and intellectual legitimacy Out of One Many Africas assesses the rising tide of discontent that has destabilized the conceptions institutions and communities dedicated to African studies In vibrant detail contributors from Africa Europe and North America lay out the multiple contending histories and perspectives that inform African studies They assess the reaction against the white dominated consensus that has marked African studies since its inception in the 1950s and note the emergence of alternative approaches energized in part by feminist and cultural studies They examine African scholars struggle against paradigms that have justified and covered up colonialism militarism and underdevelopment They also consider such issues as how to bring black scholars on the continent and in the diaspora closer together on questions of intellectual freedom accountability and the democratization of information and knowledge production By surveying the present predicament and the current grassroots impulse toward reconsidering the meaning of the continent Out of One Many Africas gives shape and momentum to a crucial dialogue aimed at transforming the study of Africa *In Pursuit of Conceptual Excellence* Markus Mäder, 2004 Originally presented as author s thesis doctoral Universiteat Zeurich 2003 04

Law of War: Can 20th-Century Standards Apply to the Global War on Terrorism? ,2005 This monograph is the ninth offering in the Combat Studies Institute s CSI Global War On Terrorism GWOT Occasional Papers series The author a retired Army lieutenant colonel and CSI historian has produced a study that examines the evolution and continued applicability of the corpus that constitutes the law of war As background he provides a theoretical framework and the development of the law within Western and specifically U S Army doctrine and regulation He then presents a case study of the British suppression of the Mau Mau insurgency between 1952 and 1960 in Kenya a conflict with particular resonance today Some of the more relevant characteristics of the conflict include the clash between Western and non Western cultures and an initially asymmetric fight between conventional security forces and loosely organized poorly equipped insurgents It makes no claim that every lesson learned by the British during that counterinsurgency operation can be directly applied by the United States to the challenges of the GWOT but this analysis does offer some insight about applying the law of war to an unfamiliar non Western environment The genesis of this study is the public discourse asserting the possibility that the GWOT may require new rules and new law of war prescripts This important discussion is fraught with complexities and long term implications the moral force in warfare is incredibly significant and any changes to the legal framework in place must be very carefully considered Do we follow the law of war to the letter do we remain consistent with the principles of Geneva or do we approach the conflict as a new challenge requiring fundamental revisions to the law According to the author law of war violations are neither necessary nor excusable for successful prosecution of military operations in any environment and because the law of war in its current form is more than adequate to face the new GWOT challenges it does not warrant revision
