Paperback* Ed Geoffrey (ed.) CROSSICK, 1977 **The lower middle class i Britain**

Geoffrey Crossick, 1977 **Woman's Weekly and Lower Middle-Class Domestic Culture in Britain, 1918-1958** Eleanor Reed, 2022-03-23 A unique intersection between periodical and literary scholarship and class and gender history this book showcases a brand new approach to surveying a popular domestic magazine Reading Woman s Weekly alongside titles including Good Housekeeping My Weekly Peg s Paper and Woman s Own and works by authors including Dot Allan E M Delafield George Orwell and J B Priestley it positions the publication within both the contemporary magazine market and the field of literature more broadly redrawing the parameters of that field as it approaches the domestic magazine as a literary genre in its own right Between 1918 and 1958 Woman s Weekly targeted a lower middle class readership broadly housewives and unmarried clerical workers on low incomes who viewed or aspired to view themselves as middle class Examining the magazine s distinctively lower middle class treatment of issues including the First World War s impact on gender the status of housewives and working women women s contribution to the Second World War effort and Britain s post war economic and social recovery this book supplies fresh and challenging insights into lower middle class culture during a period in which Britain s lower middle classes were gaining prominence and middle class lifestyles were undergoing rapid and radical change

Late Victorian Britain 1875-1901 J.F.C. Harrison, 2013-06-17 Drawing heavily on the recollections and literature of the people themselves Harrison places late Victorian Britain firmly in its social and political context **A Social History of England 1851-1990** Francois Bedarida, 2013-06-17 In this the second edition of A Social History of England Francois B darida has added a new final chapter on the last fifteen years The book now traces the evolution of English society from the height of the British Empire to the dawn of the single European market Making full use of the Annales school of French historiography B darida takes his inquiry beyond conventional views to penetrate the attitudes behaviour and psychology of the British people Victorian London's Middle-Class Housewife Yaffa C. Draznin, 2000-11-30 Through a detailed description of the life and activities of the middle class married woman of London between 1875 and 1900 this study reveals how housewives unwittingly became engines for change as the new century neared In marked contrast to the stereotypical

depictions of Victorian women in literature and on television Draznin reveals a woman seldom seen the stay at home housewife whose activities were not much different than those of her counterparts today By exploring her daily activities how she cleaned her home disciplined her children managed her servants stretched a limited budget and began to indulge herself one discovers the human dimension of women who lived more than a century ago While most studies of this period consider values aspirations and attitudes this book concentrates on actions what these women did all day to provide readers with a new perspective on Victorian life Late Victorian London was a surprisingly modern city with a public face of well lit streets an excellent underground railway system and extended municipal services In the home gas stoves were replacing coal ranges and household appliances were becoming more common Having both money to spend and a strong incentive to buy the new laborsaving devices ready to wear clothing and other manufactured products the middle class matron s resistance to change gave way to a rising consumer culture Despite her nearly exclusive preoccupation with home and family these urban women became agents for the modernization of Britain

The Rise and Fall of Class in Britain David Cannadine,1999 Although politicians in Britain are now calling for a classless society can one conclude as do many scholars that class does not matter anymore Cannadine uncovers the meanings of class for such disparate figures as Adam Smith Karl Marx and Margaret Thatcher and identifies the moments when opinion shifted such as the aftermath of the French Revolution and the rise of the Labour Party in the early twentieth century

The Poverty of Planning Benno Engels,2021-01-15 Using a neo Marxian perspective Benno Engels examines the absence of urban planning in nineteenth century England In his analysis of urbanization in England Engels considers the influences of property owners inheritance laws local government structures fiscal crises of the local and central state shifts in voter sentiments fluctuating economic conditions and class based pressure group activity

The Intellectuals and the Masses John Carey,2012-12-20 Professor John Carey shows how early twentieth century intellectuals imagined the masses as semi human swarms drugged by popular newspapers and cinema and ripe for extermination Exposing the revulsion from common humanity in George Bernard Shaw Ezra Pound D H Lawrence E M Forster Virginia Woolf H G Wells Aldous Huxley W B Yeats and other canonized writers he relates this to the cult of the Nietzschean Superman which found its ultimate exponent in Hitler Carey s assault on the founders of modern culture caused consternation throughout the artistic and academic establishments when it was first published in 1992

White-Collar Crime in Late Nineteenth and Early Twentieth-Century Britain John Benson, 2019-12-06 This book throws new light on white collar crime criminals and criminality in late nineteenth and early twentieth century Britain It does so by considering the life of one man Jesse Varley 1869 1929 who embezzled more than 80 000 from Wolverhampton Corporation and for a decade and more enjoyed an ostentatiously extravagant lifestyle He was discovered and despite serving a period of penal servitude he turned again to white collar crime this time in Sheffield Sentenced again to penal servitude he died a few years later in Liverpool in what were said to be very poor circumstances

The Cambridge Social History of Britain, 1750-1950 F. M. L. Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians have had no difficulty in finding their subject The difficulty rather is that the advance has occurred through such an

outpouring of research and writing that it is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of recent monographic research and presented an interpretation of the development of modern British society since 1750 from three complementary perspectives those of regional communities of the working and living environment and of social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change

The Rise of Respectable Society Francis Michael Longstreth Thompson,1988 The Rise of Respectable Society offers a new map of this territory as revealed by close empirical studies of marriage the family domestic life work leisure and entertainment in 19th century Britain

Capitalism, Class Conflict and the New Middle Class (RLE Social Theory) Bob Carter,2014-08-21 Non manual workers are fast becoming the largest occupational category in Western capitalist countries This is the first book to present a detailed socialist analysis of this much discussed change in the class structure of contemporary capitalism Focusing on the class position of managerial and supervisory workers Robert Carter takes as his starting point the inadequacy of both orthodox Marxist and Weberian models of class relations Rather he concurs with recent structuralist theorists of class who maintain that there exists between capital and labour in the process of producing a new middle class He parts company from the work of these theorists however in his insistence that the organisation and consciousness of the new middle class have also to be examined because of the practical consequences these have on class relations The book therefore examines the historical rise of the middle class both in the private and the state sector together with the tendency of the class to respond to its changing relations with capital and labour by unionising It is sharply critical of the dominant models of the causes and nature of white collar unionism both industrial relations and Weberian ones and indeed rejects these models in favour of a perspective which views the extent and nature of middle class unionism within the dynamics of class relations
