By Harriet Linton Barr, Robert J. Langs,
and Robert R. Holt, Leo Goldberger, George S. Klein

A volume in the Wiley Series on Personality Processes,
edited by Irving B. Weiner

Lsd Personality And Experience

**J. Harold Ellens, Thomas B. Roberts
Ph.D.**

Lsd Personality And Experience:

LSD: Personality and Experience Harriet Linton Barr, 1972 **Fifty Years of LSD: Current Status and Perspectives of Hallucinogens** D. Ladewig, A. Pletscher, 1994-08-15 This volume is the proceedings of the Symposium of the Swiss Academy of Medical Sciences held in Lugano Agno in Switzerland in September 1993 It includes chapters in pharmacological psychopathological and clinical aspects of LSD and hallucinogenic drug use in medicine in addition to a personal historical account of the discovery of LSD by Professor Albert Hofmann as well as social and cultural aspects of LSD *Dimensions of Mystical Experiences* Ralph W. Hood Jr., 2021-10-25 **10 Years of Neuropharmacology** Nicholas Barnes, 2020-07-08 I am delighted to write a preface for this Celebratory eBook published in the Specialty Section Neuropharmacology within the journal *Frontiers in Pharmacology* The eBook delivers a compendium of high impact papers published previously in the journal over the last ten years at the time of writing this collection of 20 papers has been viewed 700k times with over 75k downloads Clearly this Section is delivering a useful resource to the scientific and medical research community The scope of the Specialty Section Neuropharmacology is deliberately broad We encourage submission of high quality and impactful papers in the field of neuropharmacology along the full length of the translational escalator from cellular and molecular investigations to clinical trials I believe this is a real strength of the Section and helps attract a diverse readership that builds the stakeholder network to promote further engagement of the Section with the research community I have no doubt that this has contributed to the growth of the Section with submissions and accepted papers displaying 10 year 2009 2019 compound annual growth rates CAGRs of 58% and 78% respectively Vitaly high quality scientific rigour and impact are fundamental to a paper being accepted and this inevitably leads to a relatively high level of rejection but the transparency of the review process means a fair decision is reached Essential for the handling and considered review of submitted papers the Specialty Section Neuropharmacology has a dynamic cohort of Associate Editors that have been selected carefully 81 at the time of writing that represent the full spectrum of neuropharmacology as well as being widespread geographically around the globe The Associate Editors are supported by nearly 500 Review Editors that ensures informed review indeed the relatively open and interactive review process often adds considerably to the accepted version of the paper As we celebrate the success of *Frontiers in Pharmacology* and the Specialty Section Neuropharmacology with this eBook we must also recognise and be thankful for the hard work and dedication of those in the Editorial Office their enthusiasm and willingness to help is outstanding and they form an integral component of the overall team that delivers the success I look forward to further success for the Specialty Section Neuropharmacology Happy reading Professor Nicholas M Barnes FBPhS Specialty Chief Editor Neuropharmacology *The Ecstatic Imagination* Daniel Merkur, 1998-01-01 Presents the first comprehensive survey of the varieties of psychedelic experience since 1975 *Psychopharmacology Abstracts*, 1973 **Psychedelics** Erika Dyck, 2024-04-16 A gorgeously illustrated journey through psychedelics and their global history that explores how

psychedelic visions have inspired and given meaning to humans throughout time Interest in psychedelics has grown considerably in recent years one might even say psychedelics are experiencing a renaissance But these mind altering plants have always been with us They have a rich and controversial history in fact plumbed from the depths of ancient Greek culture infused with Christian symbols of sacrament enriched by Buddhist philosophies protected through Indigenous ceremonies and by the latter part of the twentieth century catapulted into cultural consciousness through science music posters blotter art and fashion In *Psychedelics A Visual Odyssey* Erika Dyck takes readers on an epic visual trip through some of the diverse ways that our fascination with psychedelics have been imagined throughout history Blending academic rigor with rich imagery from around the globe *Psychedelics* goes beyond the expected terrain of describing hallucinations It reveals not only how psychedelic plants have been illustrated and understood but also how these plants and chemical synthetics have inspired visual representations of health fear peace colonial resistance creativity and more A stunningly beautiful and comprehensive deep dive into the world of psychedelics *Psychedelics A Visual Odyssey* will inspire everyone from the curious general reader to the seasoned psychonaut

The Psychedelic Policy Quagmire J. Harold Ellens, Thomas B. Roberts Ph.D., 2015-08-18 Edited by two preeminent scholars this book provides coverage of the policy issues related to the increasingly diverse treatments practices and applications of psychedelics Hallucinogenic substances like LSD mescaline peyote MDMA and ayahuasca have a reputation as harmful substances that are enjoyed only by recreational users committing criminal acts But leading international researchers and scholars who contributed to this book hold that the use of psychedelic substances for health religious intellectual and artistic purposes is a Constitutional right and a human right Based on that conclusion these scholars focus on policy issues that regulate the use of psychedelic drugs in medicine religion personal life and higher education arguing that existing regulations should match current and anticipated future uses This volume has two parts The first surveys research on the use of psychedelic drugs in medicine religion and truth seeking following these topics through history and contemporary practice The second section treats government policies that regulate the psychological physiological biochemical and spiritual aspects of research and experience in these fields *The Psychedelic Policy Quagmire* Health Law Freedom and Society challenges medical and legal policy experts ethicists scientists and scholars with the question How can we formulate policies that reduce the dangers of psychedelics misuse and at the same time maximize the emerging diverse benefits

Psychopharmacology Abstracts ,1981 **Experimentation with Human Beings** Jay Katz, Alexander Morgan Capron, Eleanor Swift Glass, 1972-07-24 In recent years increasing concern has been voiced about the nature and extent of human experimentation and its impact on the investigator subject science and society This casebook represents the first attempt to provide comprehensive materials for studying the human experimentation process Through case studies from medicine biology psychology sociology and law as well as evaluative materials from many other disciplines Dr Katz examines the problems raised by human experimentation from the vantage points of each of its major participants

investigator subject professions and state He analyzes what kinds of authority should be delegated to these participants in the formulation administration and review of the human experimentation process Alternative proposals from allowing investigators a completely free hand to imposing centralized governmental control are examined from both theoretical and practical perspectives The conceptual framework of Experimentation with Human Beings is designed to facilitate not only the analysis of such concepts as harm benefit and informed consent but also the exploration of the problems raised by man s quest for knowledge and mastery his willingness to risk human life and his readiness to delegate authority to professionals and rely on their judgment

Psychedelic Experience Aidan Lyon,2024-01-18 The first philosophical study of the nature of psychedelic experience which argues that to have a psychedelic experience is to have a part of one s mind that is normally hidden or inaccessible revealed or made accessible to one s consciousness

Exploring the Paranormal George K. Zollschan,John F. Schumaker,Greg F. Walsh,1989 This important anthology brings together the work of leading authorities on paranormal belief and experience Includes chapters on mind expanding drugs near death experiences mysticism and meditation

Miracles J. Harold Ellens,2008-07-30 Can science psychology and biology explain miracles This three volume set attempts to answer that question presenting the latest as well as classic thinking and research regarding miracles from fields that include psychology psychiatry theology biology and history We have all heard of what seem miraculous events which have surfaced across history They range from stigmata and bleeding icons to deadly tumors that disappear and healers who succeed just by laying hands on the afflicted from people who can predict unexpected events to so called mediums and those who can allegedly see and speak with the dead These books led by an eminent scholar who serves as series editor for the Praeger series Psychology Religion and Spirituality examine miracles of body mind and spirit presenting the most recent research and writing on these uncommon events aiming to bring hard science to some of the most persistent and peculiar phenomena associated with the human race Can science psychology and biology explain miracles This three volume set attempts to answer that question presenting the latest as well as classic thinking and research regarding miracles from fields that include psychology psychiatry theology biology and history From news of a crippled woman who left her wheelchair and walked after an evangelist prayed over her to stories of people who died on the operating table only to be revived to tell of bright lights and the pathway to the afterlife we ve all heard of what seem miraculous events They have surfaced across history They range from stigmata and bleeding icons to deadly tumors that disappear and healers who succeed just by laying hands on the afflicted from people who can predict unexpected events to so called mediums and those who can allegedly see and speak with the dead Some miracles are intricately tied to religious beliefs but there are millions of people who ascribe to no particular religion yet still believe that things happen that defy all laws of nature and thus defy scientific explanation In these books eminent scholar J Harold Ellens and his team of expert contributors examine miracles of body mind and spirit presenting the most recent research and writing on these uncommon events as they aim to bring hard science to some of the

most persistent and peculiar phenomena associated with the human race

Design, User Experience, and Usability: Novel User Experiences Aaron Marcus, 2016-07-04 The three volume set LNCS 9746 9747 and 9748 constitutes the proceedings of the 5th International Conference on Design User Experience and Usability DUXU 2016 held as part of the 18th International Conference on Human Computer Interaction HCII 2016 in Toronto Canada in July 2016 jointly with 13 other thematically similar conferences The total of 1287 papers presented at the HCII 2016 conferences were carefully reviewed and selected from 4354 submissions These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems The papers accepted for presentation thoroughly cover the entire field of Human Computer Interaction addressing major advances in knowledge and effective use of computers in a variety of application areas The total of 157 contributions included in the DUXU proceedings were carefully reviewed and selected for inclusion in this three volume set The 67 papers included in this volume are organized in topical sections on emotion motivation and persuasion design DUXU in learning and education games and gamification culture language and DUXU DUXU for social innovation and sustainability usability and user experience studies

Plant Intelligence and the Imaginal Realm Stephen Harrod Buhner, 2014-05-14 A manual for opening the doors of perception and directly engaging the intelligence of the Natural World Provides exercises to directly perceive and interact with the complex living self organizing being that is Gaia Reveals that every life form on Earth is highly intelligent and communicative Examines the ecological function of invasive plants bacterial resistance to antibiotics psychotropic plants and fungi and the human species In *Plant Intelligence and the Imaginal Realm* Stephen Harrod Buhner reveals that all life forms on Earth possess intelligence language a sense of I and not I and the capacity to dream He shows that by consciously opening the doors of perception we can reconnect with the living intelligences in Nature as kindred beings become again wild scientists nondomesticated explorers of a Gaian world just as Goethe Barbara McClintock James Lovelock and others have done For as Einstein commented We cannot solve the problems facing us by using the same kind of thinking that created them Buhner explains how to use analogical thinking and imaginal perception to directly experience the inherent meanings that flow through the world that are expressed from each living form that surrounds us and to directly initiate communication in return He delves deeply into the ecological function of invasive plants bacterial resistance to antibiotics psychotropic plants and fungi and most importantly the human species itself He shows that human beings are not a plague on the planet they have a specific ecological function as important to Gaia as that of plants and bacteria Buhner shows that the capacity for depth connection and meaning filled communication with the living world is inherent in every human being It is as natural as breathing as the beating of our own hearts as our own desire for intimacy and love We can change how we think and in so doing begin to address the difficulties of our times

Feeling Good and Doing Better Thomas H. Murray, Willard Gaylin, Ruth Macklin, 2012-12-06 The place of drugs in American society is a problem more apt to evoke diatribe than dialog With the support of the National Science Foundation's program on Ethics

and Values in Science and Technology and the National Endowment for the Humanities program on Science Technology and Human Values The Hastings Center was able to sponsor such dialog as part of a major research into the ethics of drug use that spanned two years We assembled a Research Group from leaders in the scientific medical legal and policy communities leavened with experts in applied ethics and brought them together several times a year to discuss the moral legal and social issues posed by nontherapeutic drug use At times we also called on other experts when we needed certain issues clarified We did not try to reach a consensus yet several broad areas of agreement emerged That our society's response to nontherapeutic drug use has been irrational and inconsistent that our attempts at control have been clumsy and ill informed that many complex moral values are entwined in the debate and cannot be reduced to a simple conflict between individual liberty and state paternalism Of course each paper should be read as the statement of that particular author or authors The views expressed in this book do not necessarily represent the views of The Hastings Center the National Science Foundation or the National Endowment for the Humanities

Organization and Coordination of Federal Drug Research and Regulatory Programs: LSD United States. Congress. Senate. Government Operations, 1966 Research Issues ,1975 Research Issues National Institute on Drug Abuse, 1974

Organization and Coordination of Federal Drug Research and Regulatory Programs: LSD. United States. Congress. Senate. Committee on Government Operations. Subcommittee on Executive Reorganization, 1966 Examines coordination of Federal LSD research programs Focuses on LSD's alleged potential therapeutic effects
