Lucan The Civil War Loeb Classical Library:

Poetry and Civil War in Lucan's *Bellum Civile* Jamie Masters, 1992-03-12 Lucan is the wild maverick among Latin epic poets. Sneered at for over a century for failing to conform to humanist canons of taste and propriety, in recent years his work has been gaining in reputation. This 1992 book is founded on a genuine admiration for Lucan's unique, perverse and spellbinding masterpiece. Above all, Dr Masters argues the poem is obsessed with civil war, not only as the subject of the story it tells but as a metaphor which determines the way that story is told. In these pages he discusses in detail a number of selected episodes from the poem which illustrate this principle and on this basis offers a challenging perspective on most of the important issues in Lucanian studies, such as Lucan's political stance, his attitude to Caesar, his iconoclastic relation to Virgil and the epic tradition, and his distortion of history and geography. This book is a major re-evaluation, provocative and persuasive of a central figure in the history of Latin epic.

De Bello Civili Lucan, 1928. Epic history. Lucan M. Annaeus Lucanus AD 39-65, son of wealthy M. Annaeus Mela and nephew of Seneca, was born at Corduba (Cordova) in Spain and was brought as a baby to Rome. In AD 60, at a festival in Emperor Nero's honor, Lucan praised him in a panegyric and was promoted to one or two minor offices. But having defeated Nero in a poetry contest, he was interdicted from further recitals or publication, so that three books of his epic *The Civil War* were probably not issued in 61 when they were finished. By 65 he was composing the tenth book but then became involved in the unsuccessful plot of Piso against Nero and, aged only twenty-six, by order took his own life. Quintilian called Lucan a poet full of fire and energy and a master of brilliant phrases. His epic stood next after Virgil's in the estimation of antiquity. Julius Caesar looms as a sinister hero in his stormy chronicle in verse of the war between Caesar and the Republic's forces under Pompey and later under Cato in Africa, a chronicle of dramatic events carrying us from Caesar's fateful crossing of the Rubicon through the Battle of Pharsalus and death of Pompey to Caesar victorious in Egypt. The poem is also called *Pharsalia*.

Dissidence and Literature Under Nero Vasily Rudich, 2013-05-13. This work inquires into the impact of dissident sensibilities on the writings of the major Neronian authors. It offers a detailed and innovative analysis of essays, poetry and fiction written by Seneca, Lucan and Petronius and illuminates their psychological and moral anguish. The study is intended as a companion volume to Vasily Rudich's earlier work *Political Dissidence under Nero: The Price of Dissimulation*, where he discussed the ways in which dissident sensibilities of the Neronians affected their actual behaviour. *Dissidence and Literature under Nero* extends this analysis to show how the same sensibilities became manifest in the texts written by the Neronian authors. It explores the pressures on authors under a repressive regime who strive to maintain their artistic integrity. Thus the argument of this book can be seen as a comparison between the predicament of a Neronian dissident and the situation of the postmodern intellectual. It will interest professional classicists and the wider audience concerned with the ongoing debate on the benefits and perils of rhetorical discourse.

Abdo,2022-01-20 Alexandria Antiqua aims to catalogue the archaeological sites of Alexandria from the records of the French Expedition 1798 99 to the present day and to infer the urban layout and cityscape at the time of its foundation 4th century BC and then through the successive changes which took place up to the Arab conquest 7th century AD **On the Wings of Eagles** Christopher Anthony Matthew,2009-12-14 Gaius Marius 157 86B was one of the most innovative and influential commanders of antiquity With Marius in command of its legions Rome prevailed on the battlefields of North Africa and defeated a two pronged invasion of the Italian peninsula by 300 000 migrating Germanic tribesmen The reason for this success was a series of five ground breaking reforms through which Marius dramatically altered the demographics recruitment training and operation of the Roman army In effect Marius reforms changed the Roman military from a service of short term militia into a professional standing army This allowed Rome to use the military as an effective tool for military expansion and internal security and laid the foundations for the role of the Roman army for centuries to come Many of these reforms however came at a cost to the stability of the state This book charts the military implications of Marius reforms what they were why they were made how they were made and how they altered the functionality of the Roman military The Roman Gladius and the Ancient Fighting Techniques Fabrizio Casprini,Marco Saliola,2023-01-06 The backbone of the Roman army was the infantry armed with a javelin or pilum and sword or gladius This study investigates not just the weapon itself and its design and manufacture but how the sword was originally conceived and how it was employed on the battlefield as an expression of the Roman state The authors start examining the early swords employed across the Italian Peninsula during the Bronze Age and how these evolved into the gladius which itself changed in the period of Monarchy with the introduction of the cross hilt During Rome s Consular period the gladius changed again and over time both the length of the blade and its width were altered Relying exclusively on historical and archaeological evidence The Roman Gladius and the Ancient Fighting Techniques shows how the Roman army developed into a highly disciplined body and how fundamental the gladius was to its method of fighting It also shows how the combat techniques of the Romans evolved as did those of their enemies The training methods and tactics of the Roman infantry are fully explored and its performance at some of the great battles of the monarchical and consular periods are examined as the area under Roman rule fluctuated with victory or defeat For the Roman people the gladius was the object that better than any other showed their identity since it was a weapon that accompanied the history of the Roman people from its earliest days changing in shape and design as it was adapted to the varying social political and military needs The Roman Gladius and the Ancient Fighting Techniques is the most comprehensive study of this hugely important weapon which also provides the reader with a complete overview of Roman society which in this first volume is treated until the end of the Consular period The book is richly illustrated throughout with drawings and photographs of original weapons and equipment *Pompey in Cicero's "Correspondence" and Lucan's "Civil war"* Vivian L.
