## **Lucknow City Of Illusion:**

**Lucknow** Sepia International Inc. and the Alkazi Collection of Photography, 2006 The north Indian city of Lucknow extends along the banks of the river Gomti Once the centre of a distinctive and highly sophisticated culture it embraced several religious communities and disparate ethnic types Lucknow was also the site of some of the most violent encounters of the revolt of 1857 As a result many of its flamboyant and culturally diverse buildings were remorselessly razed to the ground In this publication many striking photographs from the Alkazi collection trace the life and death of many of Lucknow's impressive building and architectural complexes Back cover Lucknow Rosie Llewellyn-Jones, 2004 **Lucknow : City of Illusion : the Alkazi Collection of Photography** Rosie Llewellyn-Jones, Sepia International Inc. and the Alkazi Collection of Photography, Historic Cities of the Islamic World Clifford Edmund Bosworth, 2007-01-01 This book contains articles on historic cities of the Islamic world ranging from West Africa to Malaysia which over the centuries have been centres of culture and learning and of economic and commercial life and which have contributed much to the consolidation of Islam as a faith and as a social and political institution The articles have been taken from the second edition of the Encyclopaedia of Islam completed in 2004 but in many cases expanded and rewritten All have been updated to include fresh historical information with note of contemporary social developments and population statistics The book thus delineates the urban background of Islam as it has evolved up to the present day highlighting the role of such great cities as Cairo Istanbul Baghdad and Delhi in Islamic history and also brings them together in a rich panorama illustrating one of mankind's greatest achievements the living organism of the city *Urban Archaeology, Municipal Government and Local Planning* Sherene Baugher, Douglas R. Appler, William Moss, 2017-07-28 Improving the relationship between archaeology and local government represents one of the next great challenges facing archaeology specifically archaeology done in urban settings Not only does local government have access to powerful legal tools and policy mechanisms that can offer protection for privately owned archaeological sites but because local government exists at the grassroots level it is also often closer to people who have deep knowledge about the community itself about its values and about the local meaning of the sites most in need of protection This partnership between archaeology and local government can also provide visibility and public programming for heritage sites This book will explore the experiences both positive and negative of small and large cities globally We have examined programs in the Commonwealth of Nations formerly known as the British Commonwealth and in the United States These countries share similar perspectives on preservation and heritage although the approaches these cities have taken to address municipal archaeology reveals considerable diversity The case studies highlight how these innovative partnerships have developed and explain how they function within local government Engaging with the political sphere to advocate for and conduct archaeology requires creativity flexibility and the ability to develop collaborative partnerships How these archaeological partnerships benefit the community is a vital part of the equation Heritage and tourist benefits are discussed

Economic challenges during downturns in the economy are analyzed The book also examines public outreach programs and the grassroots efforts to protect and preserve a community's archaeological heritage

**Cosmopolitan Dreams** Jennifer Dubrow, 2018-10-31 In late nineteenth century South Asia the arrival of print fostered a dynamic and interactive literary culture There within the pages of Urdu language periodicals and newspapers readers found a public sphere that not only catered to their interests but encouraged their reactions to featured content *Cosmopolitan Dreams* brings this culture to light showing how literature became a site in which modern daily life could be portrayed and satirized the protocols of modernity challenged and new futures imagined Drawing on never before translated Urdu fiction and prose and focusing on the novel

and satire Jennifer Dubrow shows that modern Urdu literature was defined by its practice of self critique and parody Urdu writers resisted the cultural models offered by colonialism creating instead a global community of imagination in which literary models could freely circulate and be readapted mixed and drawn upon to develop alternative lines of thinking Highlighting the participation of readers and writers from diverse social and religious backgrounds the book reveals an Urdu cosmopolis where lively debates thrived in newspapers literary journals and letters to the editor shedding fresh light on the role of readers in shaping vernacular literary culture Arguing against current understandings of Urdu as an exclusively Muslim language Dubrow demonstrates that in the late nineteenth century Urdu was a cosmopolitan language spoken by a transregional transnational community that eschewed identities of religion caste and class The Urdu cosmopolis pictured here was soon fractured by the forces of nationalism and communalism Even so Dubrow is able to establish the persistence of Urdu cosmopolitanism into the present and shows that Urdu's strong tradition as a language of secular critical modernity did not end in the late nineteenth century but continues to flourish in film television and on line In lucid prose Dubrow makes the dynamic world of colonial Urdu print culture come to life in a way that will interest scholars of modern Asian literatures South Asian literature and history cosmopolitanism and the history of print culture Banished potentates Robert Aldrich, 2017-12-27 Though the overthrow and exile of Napoleon in 1815 is a familiar episode in modern history it is not well known that just a few months later British colonisers toppled and banished the last king in Ceylon Beginning with that case this volume examines the deposition and exile of indigenous monarchs by the British and French with examples in India Burma Malaysia Vietnam Madagascar Tunisia and Morocco from the early nineteenth century down to the eve of decolonisation It argues that removal of native sovereigns and sometimes abolition of dynasties provided a powerful strategy used by colonisers though European overlords were seldom capable of quelling resistance in the conquered countries or of effacing the memory of local monarchies and the legacies they left behind **The African Diaspora in India** Purnima Mehta Bhatt, 2017-09-05 This book explores the understudied and often overlooked subject of African presence in India It focuses on the so called Sidis Siddis or Habshis who occupy a unique place in Indian history The Sidis comprise scattered communities of people of African descent who travelled and settled along the western coast of India mainly in Gujarat but also in Goa Karnataka Andhra Pradesh Sri Lanka and in Sindh Pakistan as a result of the Indian Ocean trade from the thirteenth to nineteenth centuries The work draws from extant scholarly research and documentary sources to provide a comprehensive study of people of African descent in India and sheds new light on their experiences By employing an interdisciplinary approach across fields of history art anthropology religion literature and oral history it provides an analysis of their negotiations with cultural resistance survivals and collective memory The author examines how the Sidi communities strived to construct a distinct identity in a new homeland in a polyglot Indian society their present status as well as their future prospects The book will interest those working in the fields of history sociology and social anthropology cultural

Herbert, 2012-01-31 Like their penchant for clubs cricket and hunting the planting of English gardens by the British in India reflected an understandable need on the part of expatriates to replicate home as much as possible in an alien environment In *Flora's Empire* Eugenia W Herbert argues that more than simple nostalgia or homesickness lay at the root of this garden imperialism however Drawing on a wealth of period illustrations and personal accounts many of them little known she traces the significance of gardens in the long history of British relations with the subcontinent To British eyes she demonstrates India was an untamed land that needed the visible stamp of civilization that gardens in their many guises could convey Colonial gardens changed over time from the garden houses of eighteenth century nabobs modeled on English country estates to the herbaceous borders gravel walks and well trimmed lawns of Victorian civil servants As the British extended their rule they found that hill stations like Simla offered an ideal retreat from the unbearable heat of the plains and a place to coax English flowers into bloom Furthermore India was part of the global network of botanical exploration and collecting that gathered up the world's plants for transport to great imperial centers such as Kew And it is through colonial gardens that one may track the evolution of imperial ideas of governance Every Government House and Residency was carefully landscaped to reflect current ideals of an ordered society At Independence in 1947 the British left behind a lasting legacy in their gardens one still reflected in the design of parks and information technology campuses and in the horticultural practices of home gardeners who continue to send away to England for seeds      **Painting by Numbers** Diana Seave Greenwald, 2021-02-16 A
