Nutka: Captain Cook and the Spanish explorers on the Coast Barbara S. Efrat, W. J. Langlois, 1978 **Nu·tka·** The Royal British Columbia Museum, Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America Robin Inglis, 2008-04-02 The Northwest Coast of America ranging from northern California through Oregon Washington and British Columbia all the way up to Alaska was the last temperate coastline to be placed on the world map First visited by Russians in 1741 and thought to contain a navigable passage between the Pacific and the Atlantic it was systematically revealed during an intense period of exploratory and commercial activity from the 1770s to the 1790s Subsequently the imperial ambitions of Russia Spain and Britain and an assumption of manifest destiny by the United States led to further exploration and ensured that the region would become disputed territory before national boundaries were determined in the mid 19th century The Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America tells of the heroic endeavors and remarkable achievements the endless speculation about a northwest passage and the fighting and manipulation for commercial advantage that surrounded this terrain This is done through an introductory essay a detailed chronology an extensive bibliography modern maps and selected historical maps and drawings and over 400 cross referenced dictionary entries Entries cover the native people encountered the scientists and artists who left an invaluable documentary and visual record of people places flora and fauna the numerous voyages taken by men such as Vitus Bering James Cook Juan Francisco de la Bodega y Quadra and George Vancouver overland expeditions like those of Alexander Mackenzie Simon Fraser Meriwether Lewis and William Clark and David Thompson and maritime fur traders including George Dixon Grigori Shelikhov Robert Gray and William Sturgis No other dictionary exists that is dedicated solely to the coverage of this region **Captain Cook** Frank McLynn, 2011-06-07 This thoroughly researched and sharply opinionated biography presents a nuanced portrait of the renowned 18th century navigator The Wall Street Journal The age of discovery was at its peak in the eighteenth century with bold adventurers charting the furthest reaches of the globe Foremost among these explorers was Captain James Cook of the British Royal Navy Recent writers have viewed Cook through the lens of colonial exploitation regarding him as a villain While they raise important issues many of these critical accounts overlook his major contributions to science navigation and cartography In Captain Cook Frank McLynn re creates the voyages that took the famous navigator from his native England to the outer reaches of the Pacific Ocean Although Cook died in a senseless avoidable conflict with the people of Hawaii McLynn illustrates that to the men with whom he served Cook was master of the seas and nothing less than a titan McLynn reveals Cook's place in history as a brave and brilliant yet tragically flawed man *At the Far Reaches of Empire* Freeman M. Tovell, 2009-01-01 Capit n de Nav o Juan Francisco de la Bodega y Quadra was the most important Spanish naval officer on the Northwest Coast in the eighteenth century Serving from 1774 to 1794 he participated in the search for the Northwest Passage and with George Vancouver endeavoured to forge

a diplomatic resolution to the Nootka Sound controversy between Spain and Britain Freeman Tovell's thorough and nuanced study presents this officer of Spain's Enlightened Navy as a key figure in the history of the region Intelligent observant and literate Bodega received high praise from the viceroys of New Spain under whom he served His enlightened policy toward the Nuuchahmuls and his close association with Chief Maquinna are a matter of record Bodega was not without his imperfections when his overarching ambition to make a name for himself exceeded his financial reach he incurred ruinous debts As a Peruvian creole he also struggled against the glass ceiling imposed by having been born outside Spain Despite constant efforts for promotions he never gained the full recognition from naval and political superiors that his achievements deserved Bodega's accomplishments place him in the company of Bering Cook Vancouver La Prouse and Malaspina those who advanced a better understanding of the geography ethnography and natural history of the area The most complete study of Bodega and his epoch yet written At the Far Reaches of Empire is an absorbing narrative of eighteenth century empire building The Captain Cook Encyclopaedia John Robson, 2004 The ultimate reference work on Britain's greatest navigator and explorer The book aims to provide answers on all aspects of the life and voyages of Captain James Cook and the people places events and ships associated with the great explorer Hiking the West Coast of Vancouver Island Tim Leadem, 2015 The rugged west coast of Vancouver Island offers some of the most spectacular and storied hiking in the Pacific Northwest Home to the world famous West Coast Trail once a lifeline for marooned sailors and still among the most breath taking yet demanding hikes on the continent the island's western shores also feature lesser known coastal trails for all abilities From the tidal pools and pocket beaches of the Juan de Fuca Marine Trail to the craggy surf swept shores of Shushartie Bay and the North Coast Trail the ten areas covered in this volume will give you a taste of the region's best hiking terrain This third fully updated and expanded edition delivers the detailed trail descriptions insider tips and clear two colour maps that hikers have come to rely on plus two entirely new sections on the wild and challenging North Coast Trail extension from Cape Scott and the remote and rarely visited Tatchu coastal hike on the Rugged Peninsula Less experienced hikers may enjoy the Juan de Fuca Trail a southern extension of the West Coast Trail from Port Renfrew to Jordan River or the trails through the stunning old growth forest of Carmanah Walbran Provincial Park For day trippers there's the Wild Pacific Trail a northern extension of the West Coast Trail that begins in Ucluelet and heads north over headlands and white sand beaches toward Long Beach and Tofino And for those who prefer more remote hiking the northern part of the island offers the rugged Nootka Trail described by Backpacker magazine as a wild historic and beautiful trail or the boardwalk at Cape Scott where black bears share the windswept beaches with kayakers and the ghosts of shipwrecked crews From planning the trip to getting to and from the trailheads to choosing the most scenic campsites this is an indispensable guide for the thousands of hikers who use the West Coast Trail each year and for those who will want to use its alternatives

Captain Cook Glyndwr Williams, 2004 *Essays* reassess Cook's standing as a leading figure in eighteenth century history exploration and the advancement of science

The Chinook Indians Robert H. Ruby, John A. Brown, 1976 *The Chinook Indians* who originally lived at the mouth of the

Columbia River in present day Oregon and Washington were experienced traders long before the arrival of white men to that area. When Captain Robert Gray in the ship *Columbia Rediviva* for which the river was named entered the Columbia in 1792 he found the Chinooks in an important position in the trade system between inland Indians and those of the Northwest Coast. The system was based on a small seashell the dentalium as the principal medium of exchange. The Chinooks traded in such items as sea otter furs, elk skin armor which could withstand arrows, seagoing canoes hollowed from the trunks of giant trees and slaves captured from other tribes. Chinook women held equal status with the men in the trade and in fact the women were preferred as traders by many later ships' captains who often feared and distrusted the Indian men. The Chinooks welcomed white men not only for the new trade goods they brought but also for the new outlets they provided. Chinook goods which reached Vancouver Island and as far north as Alaska. The trade was advantageous for the white men too for British and American ships that carried sea otter furs from the Northwest Coast to China often realized enormous profits. Although the first white men in the trade were seamen, land based traders set up posts on the Columbia not long after American explorers Lewis and Clark blazed the trail from the United States to the Pacific Northwest in 1805. John Jacob Astor's men founded the first successful white trading post at Fort Astoria, the site of today's Astoria, Oregon, and the North West Company and the Hudson's Bay Company soon followed into the territory. As more white men moved into the area the Chinooks began to lose their favored position as middlemen in the trade. Alcohol, new diseases such as smallpox, influenza and venereal disease, intertribal warfare and the growing number of white settlers soon led to the near extinction of the Chinooks. By 1851 when the first treaty was made between them and the United States government they were living in small fragmented bands scattered throughout the territory. Today the Chinook Indians are working to revive their tribal traditions and history and to establish a new tribal economy within the white man's system.

The Voyage of George Vancouver, 1791-1795 W. Kaye Lamb, 2017-05-15

Four of the greatest maritime exploring expeditions were crammed into two decades late in the 18th century: Cook's third voyage, the French expedition commanded by La Perouse, the Malaspina expedition sent out by Spain, and George Vancouver's Voyage of Discovery. All four visited the northwest coast of North America but weather and circumstances prevented Cook from making more than what Beaglehole calls a magnificent and epoch making reconnaissance. La Perouse only touched the coast in a significant way at Yakutat Bay and Lituya Bay and Malaspina's memorable visits were to Yakutat Bay and Nootka Sound. Vancouver by contrast surveyed the enormous extent of coast from Lower California to Cook Inlet and his meticulous survey literally set out on the map of the world the intricacies of Puget Sound and the western coast of mainland Canada. It was an achievement that places him with his mentor Cook in the first rank of marine surveyors. As a midshipman Vancouver had been with Cook when he discovered the Sandwich Hawaiian Islands in 1778. They attracted his interest and the attention he devoted to the islands, their inhabitants and their political future when he twice later wintered there will surprise many. This is the first annotated edition of Vancouver's journal as he revised it for publication in 1798. The

original manuscript has disappeared but fortunately no fewer than 25 partial or complete logs or journals by other members of the expedition have survived These supplement Vancouver's narrative at many points It has been possible to identify virtually all the host of islands channels and inlets that Vancouver encountered and the provenance of most of the approximately 400 place names he bestowed nine out of ten of which are still in use is indicated Book 1 of a new and annotated edition of *A Voyage of Discovery* London 1798 The main pagination of this and the following three volumes is continuous The voyage to Australia and Tahiti

Nootka Sound and the Surrounding Waters of Maquinna Heather Harbord, 1996 British Columbia's history started with one word Nutka On James Cook's earliest maps it was the sole port of entry to a whole new world Nootka was the home base of avarice and slaughter as the sea otter was rendered extinct in local waters by American and English traders It gained further infamy with the enslavement of John Jewitt in 1803 Always it has been the Land of Maquinna after the legendary chief of the Mowachahts historically called the Nootkas Fifteen years ago it became the discovery of Heather Harbord The waters of Nootka Sound and the surrounding inlets lured her to their endless coves and hideaways First Nations villages abandoned logging camps Spanish outposts and an ever changing mosaic of pioneers

King, 1999 From the Big Game Hunters who appeared on the continent as far back as 12 000 years ago to the Inuits plying the Alaskan waters today the Native peoples of North America produced a culture remarkable for its vibrancy breadth and diversity and for its survival in the face of almost inconceivable trials This book is at once a history of that culture and a celebration of its splendid variety Rich in historical testimony and anecdotes and lavishly illustrated it weaves a magnificent tapestry of Native American life reaching back to the earliest human records A recognized expert in North American studies Jonathan King interweaves his account with Native histories from the arrival of the first Native Americans by way of what is now Alaska to their later encounters with Europeans on the continent's opposite coast from their exchanges with fur traders to their confrontations with settlers and an ever more voracious American government To illustrate this history King draws on the extensive collections of the British Museum artwork clothing tools and artifacts that demonstrate the wealth of ancient traditions as well as the vitality of contemporary Native culture These illustrations all described in detail form a pictorial document of

relations between Europeans and Native American peoples as profoundly different and as deeply related as the Algonquians and the Iroquois the Chumash of California and the Inupiat of Alaska the Cree and the Cherokee from their first contact to their complicated coexistence today North American Exploration John Logan Allen, 1997-01-01 The three volumes of North American Exploration appraise the full scope of the exploration of the North American continent and its oceanic margins from prior to the arrival of Columbus until the end of the nineteenth century More than an assessment of historical events these volumes portray the process of exploration Without forgetting the romance of discovery the authors recognize that exploration encompasses a great deal more than the adventures themselves All explorers are conditioned by the time place and circumstances of their efforts these determine objectives the behavior of explorers and the consequences of their discoveries The second volume includes the exploration of North America from the Spanish entrada of the sixteenth century to the British and Russian explorations of the Pacific coastal regions at the end of the eighteenth century a time during which North America was largely defined and understood in terms of advancing scientific viewpoints during the European Enlightenment Discovery gave way to Exploration and supposition to understanding
