

RUSSIA UNDER YELTSIN AND PUTIN

Boris Kagarlitsky

Russia Under Yeltsin And Putin Neo Liberal Autocracy

Boris Kagarlitsky

Russia Under Yeltsin And Putin Neo Liberal Autocracy:

Russia Under Yeltsin And Putin Boris Kagarlitsky, 2002-01-20 Leading Marxist thinkers re evaluate Trotsky's key theories an ideal introduction for students

Russia Under Yeltsin and Putin Boris Kagarlitsky, 2002-01-20 Russia has undergone more seismic changes over the last 100 years than almost any other country The 1917 Revolution the rapid industrialisation of the 1930s the following devastation of the Second World War and the present return to Capitalism has seen the deep impoverishment of the entire population Kagarlitsky shows how to understand these changes and how to characterise the complex process of reform revolution and counter revolution Looking in detail at the nature of Russian society and politics since 1990 Kagarlitsky offers an introductory political analysis of the major political and economic developments that have taken place under President Yeltsin and the legacy he bequeathed so unexpectedly to his successor Putin He focuses on the role of the media in post Soviet Russia corporate structures and their influence on social conflict the formation of the oligarchy and the role of the left in modern Russia

Market Civilizations Quinn Slobodian, Dieter Plehwe, Esra Elif Nartok, Aditya Balasubramanian, Tobias Rupperecht, Isabella M. Weber, Antina von Schnitzler, Jeremy Walker, Paulo Chamon, Karin Fischer, Mila Jonjic, Nenad Pantelic, Lars Mjøset, Reto Hofmann, Jimmy Casas Klausen, 2022-05-24 A deep investigation of neoliberalism's proselytizers in Eastern Europe and the Global South Where does free market ideology come from Recent work on the neoliberal intellectual movement around the Mont Pelerin Society has allowed for closer study of the relationship between ideas interests and institutions Yet even as this literature brought neoliberalism down to earth it tended to reproduce a European and American perspective on the world With the notable exception of Augusto Pinochet's Chile long seen as a laboratory of neoliberalism the new literature followed a story of diffusion as ideas migrated outward from the Global North Even in the most innovative work the cast of characters remains surprisingly limited clustering around famous intellectuals like Milton Friedman and Friedrich Hayek *Market Civilizations* redresses this absence by introducing a range of characters and voices active in the transnational neoliberal movement from the Global South and Eastern Europe This includes B R Shenoy an early member of the Mont Pelerin Society from India who has been canonized in some circles since the Singh reforms Manuel Ayau another MPS president and founder of the Marroqu n University an underappreciated Latin American node in the neoliberal network Chinese intellectuals who read Hayek and Mises through local circumstances and many others Seeing neoliberalism from beyond the industrial core helps us understand what made radical capitalism attractive to diverse populations and how often disruptive policy ideas went local

Good Governance in the Era of Global Neoliberalism Jolle Demmers, Alex E. Fernández Jilberto, Barbara Hogenboom, 2004-08-02 This new collection critically examines the new global policy of good governance This catchphrase of aid policy and development thinking has been the subject of too little analysis to date This book redresses the balance It places the prefix good and exactly what that means under the microscope and examines the impact of neoliberal governance in a wide range of countries and territories

including Chile Russia Argentina and Indonesia *Historical Dictionary of the Russian Federation* Robert A. Saunders, 2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of *Historical Dictionary of the Russian Federation* provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985 1991 and contemporary Russia 1991 present This second edition of *Historical Dictionary of the Russian Federation* contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Russia

Russian Leaders Alexander Dragomiroff, 2002 *Russian Leaders A Bibliography With Indexes* **The State and Big Business in Russia** Tina Jennings, 2021-12-28 This book presents a study of the complex relationship between the Russian state and big business during Vladimir Putin s first two presidential terms 2000 2008 Based on extensive original research it focuses on the interaction of Russia s political executive with the oligarchs It shows how Putin s crackdown on this elite group led big business to accept new rules of the game and how this was accompanied by the involvement of big business in policy formulation particularly through the organisational vehicle of the Russian Union of Industrialists and Entrepreneurs RSPF It goes on to discuss why Yukos and its CEO Mikhail Khodorkovsky were targeted by Russia s political authorities and the resultant consequences namely the end of the relatively successful framework via which state business relations had been managed and its replacement by fear and mutual distrust along with a vastly expanded role for the state and state related actors in the Russian corporate sector The book explores all these developments in detail and sets them against the context of continued trends towards greater authoritarianism in Russia **Russia in the Twentieth Century** David R.

Marples, 2014-01-14 The history of Russia as the natural successor to the Soviet Union is of crucial importance to understanding why communism ultimately lost out to Western democracy and the free market system David Marples presents a balanced overview of 20th century Russian history and shows that although contemporary Russia has retained many of the practices and memories of the Soviet period it is not about to revert back to the Soviet example Creating Russophobia Guy Mettan, 2017-06-29 Why do the USA UK and Europe so hate Russia How is it that Western antipathy once thought due to anti Communism could be so easily revived over a crisis in distant Ukraine against a Russia no longer communist Why does the West accuse Russia of empire building when 15 states once part of the defunct Warsaw Pact are now part of NATO and NATO troops now flank the Russian border These are only some of the questions *Creating Russophobia* investigates Mettan begins by showing the strength of the prejudice against Russia through the Western response to a series of events the Uberlingen mid air collision the Beslan hostage taking the Ossetia War the Sochi Olympics

and the crisis in Ukraine He then delves into the historical religious ideological and geopolitical roots of the detestation of Russia in various European nations over thirteen centuries since Charlemagne competed with Byzantium for the title of heir to the Roman Empire Mettan examines the geopolitical machinations expressed in those times through the medium of religion leading to the great Christian schism between Germanic Rome and Byzantium and the European Crusades against Russian Orthodoxy This history of taboos prejudices and propaganda directed against the Orthodox Church provides the mythic foundations that shaped Western disdain for contemporary Russia From the religious and imperial rivalry created by Charlemagne and the papacy to the genesis of French English German and then American Russophobia the West has been engaged in more or less violent hostilities against Russia for a thousand years Contemporary Russophobia is manufactured through the construction of an anti Russian discourse in the media and the diplomatic world and the fabrication and demonization of The Bad Guy now personified by Vladimir Putin Both feature in the meta narrative the mythical framework of the ferocious Russian bear ruled with a rod of iron by a vicious president A synthetic reading of all these elements is presented in the light of recent events and in particular of the Ukrainian crisis and the recent American elections showing how all the resources of the West's soft power have been mobilized to impose the tale of bad Russia dreaming of global conquest

Protest in Putin's Russia Mischa Gabowitsch, 2016-12-27 The Russian protests sparked by the 2011 Duma election have been widely portrayed as a colourful but inconsequential middle class rebellion confined to Moscow and organized by an unpopular opposition In this sweeping new account of the protests Mischa Gabowitsch challenges these journalistic clichés showing that they stem from wishful thinking and media bias rather than from accurate empirical analysis Drawing on a rich body of material he analyses the biggest wave of demonstrations since the end of the Soviet Union situating them in the context of protest and social movements across Russia as a whole He also explores the legacy of the protests in the new era after Ukraine's much larger Maidan protests the crises in Crimea and the Donbass and Putin's ultra conservative turn As the first full length study of the Russian protests this book will be of great value to students and scholars of Russia and to anyone interested in contemporary social movements and political protest

Getting the books **Russia Under Yeltsin And Putin Neo Liberal Autocracy** now is not type of inspiring means. You could not abandoned going similar to book store or library or borrowing from your contacts to get into them. This is an certainly easy means to specifically acquire lead by on-line.
