Russia The Caucasus And Central Asia:

Russia, the Caucasus, and Central Asia Rajan Menon, Yuri E. Fedorov, Ghia Nodia, East West Institute, 2016-07-01 This comprehensive exploration of the international environment examines not only traditional political military concerns but also economic ethnic and environmental issues and the role of crime terrorism the drug trade and migration in the security environment of Russia and its neighbours to the south This approach takes account of both the internal and external aspects of security problems and their interplay The participation of international authors facilitates the consideration of each problem from all relevant points of view

Development in Central Asia and the Caucasus Sophie Hohmann, Claire Mouradian, Silvia Serrano, 2014-06-25 After the final collapse of the Soviet Union the so called last empire in 1991 the countries of Central Asia Kazakhstan Kyrgyzstan Uzbekistan Tajikistan Turkmenistan and of the Caucasus Armenia Azerbaijan Georgia became independent nations These countries previously production centres under the socialist planning system of the Soviet Union have made enormous economic adjustments in order to develop or attempt to develop along capitalist lines As this study will show however inequality in Central Asia and the Caucasus is widening as the Soviet systems of healthcare and state provisions disappear Rejecting the Cold War era East West paradigm often used to analyse the development of these nations this study analyses development along the North South lines which characterise the migration patterns and poverty levels of much of the rest of the developed world This opens up new avenues of research and helps us understand why it is for instance that this region is better characterised as a new South as skilled workers flood out of the territories and into Russia and Western Europe Development in Central Asia and the Caucasus draws together detailed analyses of the development of migration economics as the region's oil wealth further enhances its strategic and economic importance to Russia the US the Middle East and to the EU

Challenges and Options in the Caucasus and Central Asia Pavel Baev, 1997 That Russia has vital strategic interests in the Caucasus and Central Asia can be taken as an established political fact What is remarkable about this fact is that the nature of these interests as well as the nature and intensity of challenges to them have changed quite drastically during Russia's 5 years of existence as a post Soviet state It is no wonder that Russian policymakers are permanently agonizing over reassessment of these interests and are now nowhere close to producing a coherent strategy of their advancement This monograph will argue that Russia's ability to meet the challenges from the South is a major factor in determining its future as a world power

1 There is no doubt that the Caucasus and Central Asia are two separate regions in the turbulent post Soviet geopolitical space with different political dynamics and plenty of internal diversities and conflicts Even looking from Moscow it is obvious that these differences are of such a scale that no single integrated strategy could possibly embrace both regions two essentially different policies are required and were in fact pursued Still the author

attempts to take these two regions together seeking to trace interplay among Russia's economic political and strategic interests and to discover parallels in Moscow's past current and possible future activities This paper will first take a brief look at the evolution of Russia's policies in the Caucasus and Central Asia in 1992-94 then the impact of the Chechen War will be evaluated This is followed by the analysis of the growth of the economic interests first of all related to oil and the increase in influence of the regional processes in Russia itself Finally an attempt to distinguish between the real and misperceived security challenges for the near future will be undertaken

Identity and Politics in Central Asia and the Caucasus Mohammed Ayoob, Murad

Ismayilov, 2015-02-20 The multicultural region of Central Eurasia is living through its early post independence years and as such serves as an ideal case to study and analyse theories of identity and foreign policy in a non European context Looking to re introduce identity as a multidimensional factor informing state behaviour this book analyses the experiences of the different Central Eurasian states in their post independence pursuits The book is structured into two broadly defined sections with the first half examining the different ways in which the combination of domestic regional international and trans national forces worked to advance one national identity over the others in the states that comprise the region of post Soviet Central Eurasia In the second half chapters analyse the many ways in which identity once shaped affected foreign policy behaviours of the regional states as well as the overall security dynamics in the region The book also looks at the ways in which identity by doing so enjoys an intricate mutually constitutive relationship with the strategic context in which it bears its effects on the state and the region Finally given the special role Russia has historically played in defining the evolutionary trajectory of the regional states the book discusses the ways in which Russia itself and its post cold war policies towards its former colonies have been conditioned by factors associated with Russia's evolving post Soviet identity Placing the region firmly within existing theories of identity and state practices the book will be of interest to students and scholars of Central Asian Politics Security Studies Foreign Policy and International Relations

The Fight for Influence Alexey

Malashenko, 2013-12-10 Russian influence in Central Asia is waning Since attaining independence Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan have forged their own paths building relationships with outside powers and throwing off the last vestiges of Soviet domination But in many ways Moscow still sees Central Asia through the lens of the Soviet Union and it struggles to redefine Russian relations with the region In *The Fight for Influence* Alexey Malashenko offers a comprehensive analysis of Russian policies and prospects in Central Asia It is clear that Russian policy in the formerly Soviet controlled region is entering uncharted territory But does Moscow understand the fundamental shifts under way Malashenko argues that it is time for Russia to rethink its approach to Central Asia Contents 1 Wasted Opportunities 2
