Russian Civil Society:

Russian Civil Society Alfred B. Evans, Jr., Laura A. Henry, Lisa McIntosh Sundstrom, 2005-10-28 A vibrant civil society characterized by the independently organized activity of people as citizens undirected by state authority is an essential support for the development of freedom democracy and prosperity Thus it has been one important indicator of the success of post communist transitions This volume undertakes a systematic analysis of the development of civil society in post Soviet Russia An introduction and two historical chapters provide background followed by chapters that analyze the Russian context and consider the roles of the media business organized crime the church the village and the Putin administration in shaping the terrain of public life Eight case studies then illustrate the range and depth of actual citizen organizations in various national and local community settings and a concluding chapter weighs the findings and distills comparisons and conclusions

Civil Society in Putin's Russia Elena A. Chebankova, 2013 1 Methodology Theoretical Considerations and the Structure of the Study 2 Public and Private Cycles of Socio Political Life in Russia 3 The Public Sphere and the State in Russia 4 A Kind of Society The Nature of Political Radicalism in Modern Russia 5 State Sponsored Civic Associations in Russia Systemic Integration or a War of Position 6 Foreign Sponsored Associations in Russia Themes and Problems 7 Grassroots Movements in Modern Russia A Cause for Optimism Conclusion **Civil Society and the Search for Justice in Russia** Christopher Marsh, Nikolas K. Gvosdev, 2002-01-01 More than a decade has passed since path breaking policies aimed at liberalizing post Soviet society were first introduced in Russia Today these promises of freedom equality and justice remain largely unfulfilled and Russia's political system continues to exhibit signs of the deep rooted problems that may well retard if not completely derail any possibility of future reform Against this stark background *Civil Society and the Search for Justice in Russia* explores the various dimensions of Russia's civil society the meaning of and search for justice the role of the Orthodox church as a principal unifier in civil society the need for new freedoms for women and ethnic minorities and the role of mass education and the free press in inculcating and articulating new civic values Expertly blending the historical with the theoretical the recent with the empirical this work offers new insight and analysis into the ability of a nascent Russian civil society to engage effectively with the twenty first century Russian state to ensure social religious and political justice

Funding Civil Society Lisa McIntosh Sundstrom, 2006 This book investigates the impact of Western democracy assistance programs on the development of Russian women's and soldiers rights NGOs in Russia It argues that the normative content of assistance programs as well as the character of regional political environments fundamentally shape the influence of such programs **Systemic and Non-Systemic Opposition in the Russian Federation** Dr Cameron Ross, 2015-09-28 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian Capital and engulfed scores of cities and regions Civil society it appeared had at last woken up This fascinating book examines the rise and fall of the non systemic opposition and the role of the systemic political opposition during this turbulent period Leading experts in

the field from Russia along with scholars from the UK and the US reflect on the conditions that have made large scale protests possible the types of people who have taken part and the goals of the opposition movement at both the national and regional levels Contributors discuss what steps the regime has taken in response to this challenge and examine the relationship between the systemic and non systemic opposition and what potential exists for the creation of a broad based opposition coalition The role of the expanding Russian middle class is discussed along with contemporary developments among the Russian left against the backdrop of the global economic crisis The political social and ethnic dimensions of the protest movement are also examined at both the national and regional levels in this truly comprehensive study of the rebirth of civil society in modern Russia

Russia and Development Charles Buxton, 2014-12-11 Unique and insightful this book takes a look at Russia's development through the Tsarist and Soviet periods Rather than make the more familiar comparisons between Russia and the West Russia and Development focuses on political and social mobilization in adjacent Central Asia It examines the role of local government and civil society in development as well as popular responses to the policies of Putin and Medvedev aimed at modernizing Russia and forging a new Eurasia alliance in Russia's development neighbourhood The book uses local sources and case studies to pose important questions about the role of empire revolution nationalism and democratization in the twenty first century With unique insider knowledge Charles Buxton ultimately places Russia's current development model in an international context where Russia is increasingly becoming a competitor to Western led development practices Essential reading for anyone interested in the region or development thought and practice

Post-Soviet Civil Society Anders Uhlin, 2006-03-20 The development of civil society has varied greatly across the former Soviet Union The Baltic states have achieved a high level of integration with the West and European Union membership while some regions in Russia lag far behind Now for the first time there is a comparative study of civil society and democratization across post Soviet national borders Acknowledging the enormous variation throughout the region the book offers unique data on developments in Russia Estonia Latvia and Lithuania Applying an innovative analytical framework derived from theories of democratization civil society social movements and transnational relations the researchers have formulated broader comparisons and generalisations without neglecting the specific post Soviet context The book provides a systematic comparison across sectors as well as nations and includes chapters on NGOs the state and conflict and transnationalisation Quantitative survey data is combined with qualitative interviews and case study research to both confirm previous findings about the weakness of post communist civil society and to qualify previous research

State against Civil Society Cameron Ross, 2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end

of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of Europe Asia Studies

Moscow in Movement Samuel A. Greene, 2014-08-20 Moscow in Movement is the first exhaustive study of social movements protest and the state society relationship in Vladimir Putin s Russia Beginning in 2005 and running through the summer of 2013 the book traces the evolution of the relationship between citizens and their state through a series of in depth case studies explaining how Russians mobilized to defend human and civil rights the environment and individual and group interests a process that culminated in the dramatic election protests of 2011 2012 and their aftermath To understand where this surprising mobilization came from and what it might mean for Russia s political future the author looks beyond blanket arguments about the impact of low levels of trust the weight of the Soviet legacy or authoritarian repression and finds an active and boisterous citizenry that nevertheless struggles to gain traction against a ruling elite that would prefer to ignore them On a broader level the core argument of this volume is that political elites by structuring the political arena exert a decisive influence on the patterns of collective behavior that make up civil society and the author seeks to test this theory by applying it to observable facts in historical and comparative perspective Moscow in Movement will be of interest to anyone looking for a bottom up citizens eye view of recent Russian history and especially to scholars and students of contemporary Russian politics and society comparative politics and sociology

Imagining Russian Regions Susan Smith-Peter, 2018 In *Imagining Russian Regions Subnational Identity and Civil Society in Nineteenth Century Russia* Susan Smith Peter shows how ideas of civil society encouraged the growth of subnational identity in Russia before 1861 Adam Smith and G W F Hegel s ideas of civil society influenced Russians and the resulting plans to stimulate the growth of civil society also formed subnational identities It challenges the view of the provinces as empty space held by Nikolai Gogol who rejected the new non noble provincial identity and welcomed a noble only district identity By 1861 these non noble and noble publics would come together to form a multi estate provincial civil society whose promise was not fulfilled due to the decision of the government to keep the peasant estate institutionally separate
