Russian Conversation Cards 1991:

Russian Conversation Cards - 1991 Henry M. Nebel, Visual Education, Visual Education Association, 1997-04-01

Rusistika, 1998 **The Sources Of Russian Foreign Policy After The Cold War** Celeste A Wallander, Anne

Wildermuth, 2019-07-11 In this timely and pathbreaking volume scholars in comparative politics and international relations build upon earlier theoretical work on the interaction of domestic and international systems applying it innovatively to the study of post Soviet Russian policy and conduct Individual chapters focus on regime type leadership politics interest group politics nationalism as ideology international conflict and threat and international economic opportunities and constraints The complex interplay between domestic and international factors is highlighted Exploring both the origins and the outcomes of Russian policy and behavior this book provides a telling measure of the direction and significance of political change since 1991 *A History of Russian Literature* Andrew Kahn, Mark Lipovetsky, Irina Reyfman, Stephanie Sandler, 2018-04-13 Russia possesses one of the richest and most admired literatures of Europe reaching back to the eleventh century A History of Russian Literature provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day still rife with the creative experiments of post Soviet literary life The volume proceeds chronologically in five parts extending from Kievan Rus in the 11th century to the present day The coverage strikes a balance between extensive overview and in depth thematic focus Parts are organized thematically in chapters which a number of keywords that are important literary concepts that can serve as connecting motifs and case studies in depth discussions of writers institutions and texts that take the reader up close and personal Visual material also underscores the interrelation of the word and image at a number of points particularly significant in the medieval period and twentieth century The History addresses major continuities and discontinuities in the history of Russian literature across all periods and in particular brings out trans historical features that contribute to the notion of a national literature The volume s time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries space Holy Russia and the charismatic king that offers culturally relevant material to later writers This volume delivers a fresh view on a series of key questions about Russia s literary history by providing new mappings of literary history and a narrative that pursues key concepts rather more than individual authorial careers This holistic narrative underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures historical events and literary politics literary theory and literary innovation Russian Postmodernism Mikhail Epstein, Aleksandr Genis, Slobodanka Vladiv-Glover, 1999 The last ten years were decisive for Russia not only in the political sphere but also culturally as this period saw the rise and crystallization of Russian postmodernism The essays manifestos and articles gathered here investigate various manifestations of this crucial cultural trend Exploring Russian fiction poetry art and

spirituality they provide a point of departure and a valuable guide to an area of contemporary literary cultural studies which is currently insufficiently represented in English language scholarship A brief but useful Who's Who in Russian Postmodernism as an appendix introduces many authors who have never before appeared in a reference work of this kind and renders this book essential reading for those interested in the latest trends in Russian intellectual life **Encyclopedia of Contemporary Russian Culture** Tatiana Smorodinskaya, Karen Evans-Romaine, Helena Goscilo, 2013-10-28 This addition to the highly successful Contemporary Cultures series covers the period from period 1953 with the death of Stalin to the present day Both Russian and Culture are defined broadly Russian refers to the Soviet Union until 1991 and the Russian Federation after 1991 Given the diversity of the Federation in its ethnic composition and regional characteristics questions of national regional and ethnic identity are given special attention There is also coverage of Russian speaking immigrant communities Culture embraces all aspects of culture and lifestyle high and popular artistic and material art fashion literature music cooking transport politics and economics film crime all and much else are covered in order to give a full picture of the Russian way of life and experience throughout the extraordinary changes undergone since the middle of the twentieth century The Encyclopedia of Contemporary Russian Culture is an unbeatable resource on recent and contemporary Russian culture and history for students teachers and researchers across the disciplines Apart from academic libraries the book will also be a valuable acquisition for public libraries Entries include cross references and the larger ones carry short bibliographies There is a full index The Old Faith and the Russian Land Douglas Rogers, 2016-02-04 The Old Faith and the Russian Land is a historical ethnography that charts the ebbs and flows of ethical practice in a small Russian town over three centuries The town of Sepych was settled in the late seventeenth century by religious dissenters who fled to the forests of the Urals to escape a world they believed to be in the clutches of the Antichrist Factions of Old Believers as these dissenters later came to be known have maintained a presence in the town ever since The townspeople of Sepych have also been serfs free peasants collective farmers and now shareholders in a post Soviet cooperative Douglas Rogers traces connections between the town and some of the major transformations of Russian history showing how townspeople have responded to a long series of attempts to change them and their communities tsarist era efforts to regulate family life and stamp out Old Belief on the Stroganov estates Soviet collectivization drives and antireligious campaigns and the marketization religious revival and ongoing political transformations of post Soviet times Drawing on long term ethnographic fieldwork and extensive archival and manuscript sources Rogers argues that religious political and economic practice are overlapping arenas in which the people of Sepych have striven to be ethical in relation to labor and money food and drink prayers and rituals religious books and manuscripts and the surrounding material landscape He tracks the ways in which ethical sensibilities about work and prayer hierarchy and inequality gender and generation have shifted and recombined over time Rogers concludes that certain expectations about how to be an ethical person have continued to orient townspeople in Sepych over the course of nearly

three centuries for specific identifiable and often unexpected reasons Throughout he demonstrates what a historical and ethnographic study of ethics might look like and uses this approach to ask new questions of Russian Soviet and post Soviet history *Words on Cassette* ,1997 **Conversations on Russia** Padma Desai,2006-04-13 Much of the discussion of Russia s recent post Communist history has amounted both in Russia and the West to a series of monologues by strong minded people with starkly divergent views In contrast Padma Desai s conversations with influential intelligent participants and observers provide the reader with a broad nuanced view of what has and has not happened in the last fourteen years and why Conversations from Russia will thus serve as a much needed reference volume both for academics who study Russia and for laypeople who only have vague perceptions of what has occurred in Russia since the collapse of Communism In conversations with important figures like Boris Yeltsin George Soros Anatoly Chubais and Yegar Gaidar Desai considers questions like why the Soviet Union fell apart under Gorbachev what went wrong with economic reforms after Gorbachev whether the privatization of Russian assets could have been managed differently and what the prospects are for the Russian economy in the near future Desai a recognized expert in the field of Soviet studies ties the interviews together with an introduction ultimately reaching her own judgment on each issue considered in the conversations This book will appeal to researchers and students in developmental economics political economy and Soviet studies and educated laypeople interested in Russia [American 25-Years Life of the Russian Engineer](#) Anatoly Rozenblat,2016-11-21 *American 25 Years Life of the Russian Engineer* by Anatoly Rozenblat This book is written about of the Soviet Jewish immigration of 1989 and advantageously recommended for the social workers and of some official structures of America who has interest to the immigration processes And content of this book includes such important topics as Problems of selection and humiliation of former Soviet Jews in Italian transit camp immigration in 1989 about of definition the status of Refugee Shown the real statistics of emigrant s survival process advantageously the professional people and of their unclaimed in this American immigration
