Russian Foreign Policy And The Cis Theories Debates And Actions:

Russian Foreign Policy and the CIS Nicole J. Jackson, 2003 Unlike under the Soviet Union there were open diverse and complex deliberations about whether and how Russia should react to these challenges Russian Foreign Policy and the CIS investigates the options the debates and the ensuing policies of the fledgling Russian government It examines the evolution of policy from the collapse of the Soviet Union in December 1991 up to the presidential elections in June 1996 *Russian Foreign Policy and the CIS* Nicole J. Jackson, 2003-09-04 This book provides a systematic study of Russian foreign policy and the separatist and civil military conflicts in the former Soviet republics following the collapse of the Soviet Union The

Sense of Mission in Russian Foreign Policy Alicja Curanović, 2021-03-04 This book explores how far messianism the conviction that Russia has a special historical destiny is present in and affects Russian foreign policy Based on extensive original research including analysis of public statements policy documents and opinion polls the book argues that a sense of mission is present in Russian foreign policy that it is very similar in its nature to thinking about Russia's mission in Tsarist times that the sense of mission matters more for Russia's elites than for Russia's masses and that Russia's special mission is emphasised more when there are questions about the regime's legitimacy as well as great power status Overall the book demonstrates that a sense of mission is an important factor in Russian foreign policy **Regional Powers and Security**

Orders Robert Stewart-Ingersoll, Derrick Frazier, 2012 This book presents a new theoretical framework through which to understand the role of regional powers in creating and maintaining regional security orders As a result of the retreat of the global powers since the end of the Cold War it has become clear that international security dynamics are less explicable without considering the regional level as a primary focus for most states The authors contend that these dynamics which include the identification management and prevention of security threats are heavily influenced by regional powers The regional level in this text is defined on the basis of regional sub systems more specifically Regional Security Complexes Within this context the authors utilize their framework to address how security orders are defined and how regional powers are identified The focus then turns to an analysis of how the roles and foreign policy orientations of regional powers conditioned by the presence of material capabilities affect the development of regional security orders The authors then present a comparative analysis of Russia Brazil and India within their own security complexes to demonstrate an application of the framework This book will be of interest to students of regional security international security foreign policy and International Relations in general *Putin's Wars* Marcel H. Van Herpen, 2015-07-01 This fully updated book offers the first systematic analysis of Putin's three wars placing the Second Chechen War the war with Georgia of 2008 and the war with Ukraine of 2014 2015 in their broader historical context Drawing on extensive original Russian sources Marcel H Van Herpen analyzes in detail how Putin's wars were prepared and conducted and why they led to allegations of war crimes and genocide He shows how the conflicts functioned to consolidate and legitimate Putin's regime and explores how they were

connected to a fourth hidden internal war waged by the Kremlin against the opposition The author convincingly argues that the Kremlin relying on the secret services the Orthodox Church the Kremlin youth Nashi and the rehabilitated Cossacks is preparing for an imperial revival most recently in the form of a Eurasian Union An essential book for understanding the dynamics of Putin s regime this study digs deep into the Kremlin s secret long term strategies Readable and clearly argued it makes a compelling case that Putin s regime emulates an established Russian paradigm in which empire building and despotic rule are mutually reinforcing As the first comprehensive exploration of the historical antecedents and political continuity of the Kremlin s contemporary policies Van Herpen s work will make a valuable contribution to the literature on post Soviet Russia and his arguments will stimulate a fascinating and vigorous debate

In the Name of the Nation M. Laruelle, 2009-10-26 This book deconstructs the equation of nationalism with the extreme right in Russia Nationalism now extends throughout all of the country and can not be seen as a phenomenon confined to the margins of society This study rejects the interpretation that understands Kremlin backed patriotism as simply part of a fascist trend in Russia and as a rapprochement between the political authorities and the extreme right A simplistic analysis of such a paradoxical phenomenon addresses neither the basic issue of social consensus nor that of the inherent relationship between national identity and citizenship

Globalizing Central Asia Marlene Laruelle, Sebastien Peyrouse, 2015-02-12 In this global era Central Asia must be understood in both geo economic and geopolitical terms The region s natural resources compel the attention of rivalrous great powers and ambitious internal factions The local regimes are caught between the need for international collaborations to valorize these riches and the need to maintain control over them in the interest of state sovereignty Russia and China dominate the horizon with other global players close behind meanwhile neighboring countries are fractious and unstable with real potential for contagion This pathbreaking introduction to Central Asia in contemporary international economic and political context answers the needs of both academic and professional audiences and is suitable for course adoption

Building Hegemonic Order Russia's Way Michael O. Slobodchikoff, 2025-09-04 As Russia challenges the US led Global Order Moscow had to create its own version of regional order From the ashes of the Soviet Union Moscow had to rebuild its relations with each of the former Soviet states To do so Russia had to overcome both mistrust and power asymmetry While some of the states have chosen not to cooperate with Russia other states have chosen to cooperate with Russia to create a regional architecture and order Many argue that Russia is a coercive power in the region that forces other states to act in only its own interests While recognizing Russia s power Michael O Slobodchikoff maintains that it is not able to simply force states to behave as it wants them to Instead Russia must use bilateral and multilateral cooperation for both Russia as the hegemon and the weaker powers in the region Russia has been successful at creating regional order While it has worked to achieve global multipolarity it has built regional unipolarity putting its global strategy at odds with its regional goals

Holding-Together Regionalism: Twenty Years of Post-Soviet Integration Alexander Libman, E.

Vinokurov,2012-09-27 An in depth analysis of one of the most important and complex issues of the post Soviet era namely the re integration of this highly interconnected region The book considers the evolution of holding together groups since the collapse of the Soviet Union in 1991 looking at intergovernmental interaction and informal economic and social ties

Russia and its Near Neighbours M. Freire,R. Kanet,2012-05-15 Russia has recently re emerged as the dominant political economic and military actor in former Soviet nations Kanet and Freire bring together a stellar cast of contributors to consider Russia s recent return as a major regional and international actor and its likely future policy toward its neighbours

Myth and Rhetoric of the Turkish Model Anita Sengupta,2014-05-02 The volume discusses what the Turkish Model or Turkish Development Alternative was and why it was promoted in the Central Asian republics immediately following the dissolution of the Soviet Union It argues that the Turkish Model was a myth that transferred the ideal of a secular democratic liberal society as a model for the post Soviet Turkic world and in the process encouraged a Turkic rhetoric that emphasized connection between the two regions based on a common ancestry The volume begins with an understanding of the reality of the Model from a Turkish perspective and then goes on to examine whether the Turkic world as a cultural civilizational alternative makes sense both from a historical as well as contemporary perspective It concludes by looking at the re emergence of the Model in the wake of the events in West Asia in early 2011 and examines how in the light of a search for options the Turkish Model is once again projected as viable

International Relations, Security and Jeremy Bentham Gunhild Hoogensen,Gunhild Hoogensen Gjørsv,2005 This is the first book to present and discuss Jeremy Bentham s contributions to international relations theory It introduces this brilliant thinker s insights and impact on world affairs with clarity and rigour A major new contribution

Apology and Reconciliation in International Relations Christopher Daase,Stefan Engert,Michel-André Horelt,Judith Renner,Renate Strassner,2015-08-27 This book looks into the role and effects of public apologies in international relations It focuses on two major questions why and when do states issue apologies for historic crimes and how and under what conditions are these apologies successful in remedying conflictive relationships In recent years we have witnessed an unseen popularity of apologies with numerous politicians managers and clergymen being eager to apologise and atone for the wrong doings of their countries or institutions Public apologies thus are a new and highly interesting while nevertheless still puzzling phenomenon the precise role and meaning of which in international politics remains to be explored This book sets out to do exactly this Focusing in particular on state apologies it assembles twelve detailed empirical case studies which deal with the two questions raised above In the first part the case studies reconstruct the processes in which state representatives react to calls for public atonement and in the second part the case studies explore the reactions to the apology and evaluate signs for its success or failure All case studies are based on a theoretical framework which is outlined in the introduction to the book and helps develop tentative assumptions about the emergence and the effects of state apologies drawing on different strands of literature such as political science

philosophy sociology or psychology This work will be of great interest to students and scholars of conflict reconciliation international relations and transitional justice **The EU's Neighbourhood Policy towards the South Caucasus** Licínia Simão, 2017-10-28 This book addresses the potential and limitations of the European Union Neighbourhood Policy in sustaining the expansion of the European security community towards the South Caucasus The Caucasus complex regional security dynamics are a hard test for regional security community building and showcase both the challenges of security provision through liberal reforms and integration and of the interaction between security communities and balance of power The author begins by conceptualizing security community expansion and then considers the ENP through this perspective before moving on to individual case studies on Armenia Azerbaijan and Georgia The book will appeal to both scholars and practitioners interested in European security the European Union external action and the post Soviet space The Role, Position and Agency of Cusp States in International Relations Marc Herzog, Philip Robins, 2014-06-20 This work seeks to develop a new concept with which to analyse the actions and activities of states that tend to be relatively ignored by the discipline of International Relations IR As a discipline IR has a tendency to lean towards the analytically safe Given the current and recent dynamism of the international system that is both surprising and undesirable Arranged around the concept of the idea of the Cusp State and cuspness more generally the book consists of empirical analysis of eight different countries Brazil Iran Israel Japan Mexico Taiwan Turkey and Ukraine defined as states that lie uneasily on the political and or normative edge of what is widely believed to be an established region By focusing on the importance of comparing groups of states like states with high degrees of cuspness this book argues that it is possible to categorise the world in a fresher and more original way and one which covers more of the globe than either a systemic or regionalist approach would do This work will be of great interest to students and scholars of Geopolitics International Security and Regionalism **Interpreting Global Security** Mark Bevir, Oliver Daddow, Ian Hall, 2013-08-15 This edited collection explores the fruitfulness of applying an interpretive approach to the study of global security The interpretive approach concentrates on unpacking the meanings and beliefs of various policy actors and crucially explains those beliefs by locating them in historical traditions and as responses to dilemmas Interpretivists thereby seek to highlight the contingency diversity and contestability of the narratives expertise and beliefs that inform political action The interpretive approach is widespread in the study of governance and public policy but arguably it has not yet had much impact on security studies The book therefore deploys the interpretive approach to explore contemporary issues in international security combining theoretical engagement with good empirical coverage through a novel set of case studies Bringing together a fresh mix of world renowned and up and coming scholars from across the fields of security studies political theory and international relations the chapters explore the beliefs traditions and dilemmas that have informed security practice on the one hand and the academic study of security on the other as well as the connections between them All contributors look to situate their work against a broader historical background and long

standing traditions allowing them to take a critical yet historically informed approach to the material Russia in the Changing International System Emel Parlar Dal, Emre Erşen, 2019-08-26 This volume seeks to explore Russia's perceptions of the changing international system in the twenty-first century and evaluate the determinants of Russian motives, roles and strategies towards a number of contemporary regional and global issues. The chapters of the volume discuss various aspects of Russian foreign policy with regard to key actors like the U.S., EU and China, international organizations such as the BRICS, Shanghai Cooperation Organization, Eurasian Economic Union and Collective Security Treaty Organization, and a number of regional conflicts including Ukraine and Syria. The contributors seek to understand how the discourses of anti-Westernism and post-Westernism are employed in the redefinition of Russia's relations with the other actors of the international system and how Russia perceives the concept of regional hegemony, particularly in the former Soviet space and the Middle East.

India in South Asia Sindherpal Singh, 2013-09-02 South Asia is one of the most volatile regions of the world and India's complex democratic political system impinges on its relations with its South Asian neighbours. Focusing on this relationship, this book explores the extent to which domestic politics affect a country's foreign policy. The book argues that particular continuities and disjunctures in Indian foreign policy are linked to the way in which Indian elites articulated Indian identity in response to the needs of domestic politics. The manner in which these state elites conceive India's region and regional role depends on their need to stay in tune with domestic identity politics. Such exigencies have important implications for Indian foreign policy in South Asia. Analysing India's foreign policy through the lens of competing domestic visions at three different historical eras in India's independent history, the book provides a framework for studying India's developing nationhood on the basis of these ideas of India. This approach allows for a deeper and a more nuanced interpretation of the motives for India's foreign policy choices than the traditional realist or neo-liberal framework and provides a useful contribution to South Asian Studies, Politics and International Studies. **Law and Legalization in Transnational Relations** Christian

of the complex impacts of the war in Ukraine on Russo Iranian relations and the resulting consequences for the international relations of the Middle East In contrast to dominant academic approaches which view Russo Iranian relations through the lens of an anti hegemonic agenda and confrontation with the US led international order this study presents an alternative angle stating that the war in Ukraine has sped up Moscow and Tehran s interdependency primarily because of the protective benefits that it brings to both states The book analyzes various debates about the impact of the war on Russo Iranian relations From the perspective of the emerging literature on authoritarian regionalism the book explores how domestic politics and common threat perceptions play a role in these states decisions to adjust to the systemic changes caused by the war Chapters address how changes in the strategic environment are affecting Moscow and Tehran s perception of each other what factors contribute the most to both states decision to pursue greater cooperation and how they manage the new conflicts of interest raised by the war The book also queries whether relations continue to be based on tactical partnership or whether a stronger alliance between Moscow and Tehran is unfolding and what the consequences of such a struggle for alliance will be for the wider region
