Soviet/Russian Armor and Artillery Design Practices, 1995 **The New Russian Book** Birgitte Beck Pristed, 2017-08-01

This book takes up the obtrusive problem of visual representation of fiction in contemporary Russian book design. By analyzing a broad variety of book covers, the study offers an absolutely unique material that illustrates a radically changing notion of literature in the transformation of Soviet print culture to a post-Soviet book market. It delivers a profound and critical exploration of Russian visual imaginary of classic popular and contemporary prose. Among all the carelessly bungled covers of mass published post-Soviet series, the study identifies gems from experimental designers. By taking a comparative approach to the clash of two formerly separate book cultures, the Western and the Soviet, that results both in a mixture of highbrow and lowbrow forms and in ideological re-interpretations of the literary works, this book contributes to opening an East-West dialogue between the fields of Russian studies, contemporary book and media history, art design, and visual studies.

Visualizing Russia Cynthia Hyla Whittaker, 2010-07-14. The Romantic search for a national past was a European preoccupation in the first half of the nineteenth century. In Russia, this process led to the formation of the Russian style that has to this day so captivated the world's imagination. While the manifestations of this style are easily recognizable in gleaming gilt, vibrant colors, onion domes, peasant costume, and tsarist regalia, hardly anyone has realized the pioneering and defining role that Fedor Solntsev (1801-1892) played in the development of a Russian national aesthetic. This book rescues Solntsev from obscurity and celebrates his major contributions to the arts, archaeology, architecture, ethnography, icon painting, restoration work, and Russian nationalist ideology, as well as places his work in a general European context. Contributors include Marc Raeff, Wendy Salmon, Richard Wortman, Anne Odom, Irina Bogatskaia, Marina Evtushenko, Olenka Pevny, Irina Reyfman, Nathaniel Knight, Lauren M. O'Connell, and J. Robert Wright.

Defence from the Skies: 80 Years of the Indian Air Force ,2013-08-15 Indian Air Force now completes 80 years since it was formed as an independent component of India s armed forces Time and again the air force has performed magnificently even against severe odds and built up a professional reputation that is the envy of leading air forces of the world This volume as the Second Edition of the earlier volume

published in 2007 has been extensively revised and updated Air Forces are unique in the sense that they are the only national military institution exclusively devoted to military operations in the aerospace continuum The Indian Air Force is no different But their dominant role in modern warfare the high costs of aerospace power and a host of other factors demand closer attention to their role in modern defence and the protection of national interests Air Forces don't win wars by themselves and no one in the Indian Air Force has ever claimed it But no war can be won without them We learnt that seminal lesson the hard way when we did not use the potent force of the IAF's combat fleet in the Sino Indian War of 1962 It is from this perspective that this study or rather an interpretative essay reflecting on the significant issues and events of the past 80 years approaches the challenges the Indian Air Force faces in the coming decades IAF combat force levels have slumped while its commitments are rapidly growing in consonance with our expanding economic and political interests well beyond our territorial boundaries
