Talk Nancy Ries, 1997 As one of the first Western ethnographers working in Moscow Nancy Ries became convinced that talk is one crucial way in which Russian identity is constructed and reproduced Listening to the grim stories people used to characterize their lives during perestroika and encountering the florid pessimism with which Muscovites described the unraveling of Soviet governance Ries realized that these dire tales played a crucial role in fabricating a sense of shared experience and destiny While many of the narratives aptly depicted the chaotic social and political events they also promoted key images of Russianness and presented Russian society as an inescapable realm of injustice absurdity and suffering At the height of perestroika in the early 1990s Moscow residents commonly used the phrase complete ruin to refer to the disintegration of Russian society encompassing in that phrase the escalation of crime the disappearance of goods from stores the fall of production ecological catastrophes ethnic violence in the Caucasus the degradation of the arts and the flood of pornography Ries argues that such stories became a genre of folklore consistent in their lamenting portentous tone and their dramatic culturally poignant details

Book News, 1891 **Russia, China and the Revisionist Assault on the Western Liberal International Order** Gerlinde Groitl, 2023-05-22 This book analyzes Russian and Chinese revisionism in the face of US and Western post Cold War liberal international order building and asks why both powers have turned revisionist in the late 2000s The study develops a neoclassical realist model of international order building and contestation and posits to view revisionism as a strategic choice States go revisionist if the status quo international order threatens their vital security needs broadly defined not only as territorial security but also political economic normative and ontological and if they have the means to challenge the undesirable status quo Russia and China were both unhappy with the post Cold War international order of American designs but had to opt for accommodation in the 1990s and early 2000s strategic accommodation in the Chinese case resentful accommodation in the Russian case before revisionism became even more of a necessity and a real policy option from the late 2000s onward constructive revisionism in the Chinese case destructive revisionism in the Russian case The author calls for a policy of neo containment to counter Moscow's and Beijing's efforts to game and erode the international order

Chechnya Anatol Lieven, 1999-01-01 The humiliation of Russia by separatist rebels in the Chechen War marked a key moment in Russian and perhaps world history In this new analysis Anatol Lieven offers a riveting account of the war as a means to explore the painful fate of the post Soviet state

Group , *LiveJournal and Russian Disinformation* J.J. Sylvia IV, 2025-11-13 In *LiveJournal and Russian Disinformation* J.J. Sylvia IV analyzes the role of blogging platform LiveJournal in Russia's information warfare strategy examining its evolution and co-optation as a case study Through rigorous analysis Sylvia demonstrates how epistemic sabotage became central to the Kremlin's efforts to manipulate truth and more broadly how the ever increasing reach of the internet and social media platforms can be weaponized by authoritarian regimes to disrupt knowledge systems and destabilize democracies While the growing ubiquity of the internet and its networks have ushered in countless opportunities and benefits on individual organizational and international levels Sylvia emphasizes the double edged sword of the new risks that must be considered in turn As fascism is on the rise worldwide and anti democratic governments wield social media as a tool to stoke division and spread disinformation among citizens worldwide democratic countries being no exception he contends that understanding this tactical shift is critically relevant not only to the Russian context but also to the challenges of navigating truth and democracy on a global scale in the 21st century *LiveJournal and Russian Disinformation* coherently identifies documents and interprets the logics and implications of this evolution in warfare leaving readers with a more nuanced understanding of the platform as an early battle in a new digital arena one which is not likely to be the last

fascination for all of us and not only because it affected our destiny our survival even the changing nature of our own society What happened there riveted our interest for a deeper reason It was a modern enactment of one of the archetypal stories of human existence that of the struggle from darkness to light from poverty toward prosperity from dictatorship toward democracy It represented an affirmation of the relentless human struggle to break free from the bonds of hierarchy and dogma to strive for a better life for stronger richer values It was an affirmation of the human capacity for change growth renewal The New Russians is about how that story of change began and what this change meant for the Russian people and for the rest of the world
