Gilkeson, 2010-09-20 This book examines the intersection of cultural anthropology and American cultural nationalism from 1886 when Franz Boas left Germany for the United States until 1965 when the National Endowment for the Humanities was established Five chapters trace the development within academic anthropology of the concepts of culture social class national character value and civilization and their dissemination to non anthropologists As Americans came to think of culture anthropologically as a complex whole far broader and more inclusive than Matthew Arnold's the best which has been thought and said so too did they come to see American communities as stratified into social classes distinguished by their subcultures to attribute the making of the American character to socialization rather than birth to locate the distinctiveness of American culture in its unconscious canons of choice and to view American culture and civilization in a global perspective

A World Made Safe for Differences Christopher Shannon, 2001 In *A World Made Safe for Differences* Christopher Shannon examines how an anthropological definition of culture shaped the central political and social narratives of the Cold War era In the middle decades of the twentieth century American intellectuals understood culture as a whole way of life and a pattern of values in order to account for and accommodate differences between America and other countries and within America itself Shannon locates the ideological origins of current debates about multiculturalism in the pluralist thought of consensus liberalism The emphasis on individualism in contemporary identity politics Shannon suggests must be understood as a legacy of the Cold War liberalism of the 1950s rather than the counter culture radicalism of the 1960s *A World Made Safe for Differences* is a highly original and controversial book that will be of great interest to students and scholars of twentieth century American history

Jacobs, 1999-01-01 In this interdisciplinary study of gender cross cultural encounters and federal Indian policy Margaret D

Jacobs explores the changing relationship between Anglo American women and Pueblo Indians before and after the turn of the century During the late nineteenth century the Pueblos were often characterized by women reformers as barbaric and needing to be uplifted into civilization By the 1920s however the Pueblos were widely admired by activist Anglo American women who challenged assimilation policies and worked hard to protect the Pueblos traditional way of life Deftly weaving together an analysis of changes in gender roles attitudes toward sexuality public conceptions of Native peoples and federal Indian policy Jacobs argues that the impetus for this transformation in perception rests less with a progressively tolerant view of Native peoples and more with fundamental shifts in the ways Anglo American women saw their own sexuality and social responsibilities
