Rwanda Genocide:

Who Must Die in Rwanda's Genocide? Kyrsten Sinema, 2015-09-11 This book provides a juridical sociopolitical history of the evolution of the 1994 Rwandan genocide. Over one million citizens were massacred in less than 100 days via a highly organized efficiently executed genocide throughout the tiny country of Rwanda. While genocide is not a unique phenomenon in modern times, a genocide like Rwanda's is unique. Unlike most genocides wherein a government plans and executes mass murder of a targeted portion of its population asking merely that the majority population look the other way or at most provide no harbor to the targeted population, ex Germany, the Rwandan government relied heavily on the civilian population to not only politically support but actively engage in the acts of genocide committed over the 100 days throughout the spring of 1994. This book seeks to understand why and how the Rwandan genocide occurred. It analyzes the colonial roots of modern Rwandan government and the development of the political state of exception created in Rwanda that ultimately allowed the sovereign to dehumanize the minority Tutsi population and execute the most efficient genocide in modern history.

The Media and the Rwanda Genocide Allan Thompson, 2007-01-20 Explores the role of the media in the Rwandan genocide within the country and beyond.

One Hundred Days of Silence Jared A. Cohen, 2006-12-28 One Hundred Days of Silence is an important investigation into the 1994 Rwandan genocide and American foreign policy. During one hundred days of spring, eight hundred thousand Rwandan Tutsis and sympathetic Hutus were slaughtered in one of the most atrocious events of the twentieth century. Drawing on declassified documents and testimony of policy makers, Jared Cohen critically reconstructs the historical account of tacit policy that led to nonintervention. His analysis examines the questions of what the United States knew about the genocide and how the world's most powerful nation turned a blind eye. The study reveals the ease at which an administration can not only fail to intervene but also silence discussion of the crisis. The book argues that despite the extent of the genocide, the American government was not motivated to act due to a lack of economic interest. With precision and passion, One Hundred Days of Silence frames the debate surrounding this controversial history.

The Order of Genocide Scott Straus, 2013-01-14 The Rwandan genocide has become a touchstone for debates about the causes of mass violence and the responsibilities of the international community. Yet a number of key questions about this tragedy remain unanswered. How did the violence spread from community to community and so rapidly engulf the nation? Why did individuals make decisions that

led them to take up machetes against their neighbors And what was the logic that drove the campaign of extermination According to Scott Straus a social scientist and former journalist in East Africa for several years who received a Pulitzer Prize nomination for his reporting for the Houston Chronicle many of the widely held beliefs about the causes and course of genocide in Rwanda are incomplete They focus largely on the actions of the ruling elite or the inaction of the international community Considerably less is known about how and why elite decisions became widespread exterminatory violence Challenging the prevailing wisdom Straus provides substantial new evidence about local patterns of violence using original research including the most comprehensive surveys yet undertaken among convicted perpetrators to assess competing theories about the causes and dynamics of the genocide Current interpretations stress three main causes for the genocide ethnic identity ideology and mass media indoctrination in particular the influence of hate radio Straus s research does not deny the importance of ethnicity but he finds that it operated more as a background condition Instead Straus emphasizes fear and intra ethnic intimidation as the primary drivers of the violence A defensive civil war and the assassination of a president created a feeling of acute insecurity Rwanda s unusually effective state was also central as was the country s geography and population density which limited the number of exit options for both victims and perpetrators In conclusion Straus steps back from the particulars of the Rwandan genocide to offer a new dynamic model for understanding other instances of genocide in recent history the Holocaust Armenia Cambodia the Balkans and assessing the future likelihood of such events

Becoming Human Again Donald E. Miller, 2020-03-31 Genocide involves significant death and trauma Yet the enormous scope of genocide comes into view when one looks at the factors that lead to mass killing the struggle for survival during genocide and the ways survivors reconstruct their lives after the violence ends Over a one hundred day period in 1994 the country of Rwanda saw the genocidal slaughter of at least 800 000 Tutsi at the hands of members of the Hutu majority government This book is a powerful oral history of the tragedy and its aftermath from the perspective of its survivors Based on in depth interviews conducted over the course of fifteen years the authors take a holistic approach by tracing how victims experienced the horrific events as well as how they have coped with the aftermath as they struggled to resume their lives The Rwanda genocide deserves study and documentation not only because of the failure of the Western world to intervene but also because it raises profound questions about the ways survivors create a new life out of the ashes of all that was destroyed How do they deal with the all encompassing traumas of genocide Is forgiveness possible And what does the process of rebuilding teach us about genocide trauma and human life

The Path to Genocide in Rwanda Omar Shahabudin McDoom, 2021-03-11 The shocking characteristics of Rwanda s genocide in 1994 have etched themselves indelibly on the global conscience The Path to Genocide in Rwanda combines extensive original field data with some of the best existing evidence to evaluate the myriad theories behind the genocide and to offer a rigorous and comprehensive explanation of how and why it occurred and why so many Rwandans participated in it Drawing on interviews with over three

hundred Rwandans Omar Shahabudin McDoom systematically compares those who participated in the violence against those who did not He contrasts communities that experienced violence early with communities where violence began late as well as communities where violence was limited with communities where it was massive His findings offer new perspectives on some of the most troubling questions concerning the genocide while also providing a broader engagement with key theoretical debates in the study of genocides and ethnic conflict

Rwanda After Genocide Caroline Williamson Sinalo, 2018-10-04 In the 1994 Rwanda genocide around 1 million people were brutally murdered in just thirteen weeks This book offers an in depth study of posttraumatic growth in the testimonies of the men and women who survived highlighting the ways in which they were able to build a new and often enhanced way of life In so doing Caroline Williamson Sinalo advocates a new reading of trauma one that recognises not just the negative but also the positive responses to traumatic experiences Through an analysis of testimonies recorded in Kinyarwanda by the Genocide Archive of Rwanda the book focuses particularly on the relationship between posttraumatic growth and gender and examines it within the wider frames of colonialism and traditional cultural practices Offering a striking alternative to dominant paradigms on trauma the book reveals that notwithstanding the countless tales of horror pain and loss in Rwanda there are also stories of strength recovery and growth

The Marginalised in Genocide Narratives Giorgia Donà, 2019-05-23 This year marks the twenty fifth anniversary of the Rwanda genocide This volume the product of over 20 years of engagement with Rwanda and its diaspora offers a timely reminder of the necessity of rethinking the genocide s social history Examining a range of marginal stories and using Rwanda as a case study The Marginalised in Genocide Narratives analysis of the transformation of genocide into a powerful narrative of a nation establishes an innovative means of understanding the lived spaces of violence and its enduring legacy In a distinctive approach to the social history of genocide this book engages with the marginalised foregrounds genocide s untold stories and uses the conceptual framework of the constellation of genocide narratives to create connections among multiple social actors and identify narrative themes that address the unequal power and interdependence of narratives Adopting a multi level narrative methodology that addresses the value of multiple narrative framings for understanding genocides The Marginalised in Genocide Narratives will appeal to students and researchers interested in sociology conflict and peace studies history African studies and narrative research It may also appeal to policy makers interested in genocide studies and contemporary social history

Moghalu, 2005-11-18 In Rwanda s Genocide Kingsley Moghalu provides an engrossing account and analysis of the international political brinkmanship embedded in the quest for international justice for Rwanda s genocide He takes us behind the scenes to the political and strategic factors that shaped a path breaking war crimes tribunal and demonstrates why the trials at Arusha like Nuremberg Tokyo and the Hague are more than just prosecutions of culprits but also politics by other means This is the first serious book on the politics of justice for Rwanda s genocide Moghalu tells this gripping story with the authority of an insider elegant and engaging writing and

news promulgated and phoney science given credence Intent to Deceive tells the story of this campaign of genocide denial from its origins with those who planned the massacres With unprecedented access to government archives including in Rwanda Linda Melvern explains how from the moment the killers seized the power of the state they determined to distort reality of events Disinformation was an integral part of their genocidal conspiracy The g nocidaires and their supporters continue to peddle falsehoods These masters of deceit have found new and receptive audiences have fooled gullible journalists and unwary academics With their seemingly sound research methods the Rwandan g nocidaires continue to pose a threat especially to those who might not be aware of the true nature of their crime The book is a testament to the survivors who still live the horrors of the past Denial causes them the gravest offence and ensures that the crime continues This is a call for justice that remains perpetually delayed

Media and Mass Atrocity Allan Thompson, 2019-04-05 When human beings are at their worst as they most certainly were in Rwanda during the 1994 genocide the world needs the institutions of journalism and the media to be at their best Sadly in Rwanda the media fell short Media and Mass Atrocity revisits the case of Rwanda but also examines how the nexus between media and mass atrocity has been shaped by the dramatic rise of social media It has been twenty five years since Rwanda slid into the abyss The killings happened in broad daylight but many of us turned away A quarter century later there is still much to learn about the relationship between the media and genocide an issue laid bare by the Rwanda tragedy Media and Mass Atrocity revisits the debate over the role of traditional news media in Rwanda where confronted by the horrors taking place international news media for the most part turned away and at times muddled the story when they did pay attention Hate media outlets in Rwanda played a role in laying the groundwork for genocide and then actively encouraged the extermination campaign The news media not only failed to fully grasp and communicate the genocide but mostly overlooked the war crimes committed during the genocide and in its aftermath by the Rwandan Patriotic Front The global media landscape has been transformed since Rwanda We are now saturated with social media generated as often as not by non journalists Mobile phones are everywhere And in many quarters the traditional news media business model continues to recede Against that backdrop it is more important than ever to examine the nexus between media and mass atrocity The book includes an extensive section on the echoes of Rwanda which looks at the cases of Darfur the Central African Republic Myanmar and South Sudan while the impact of social media as a new actor is examined through chapters on social media use by the Islamic State and in Syria and in other contexts across the developing world It also looks at the aftermath of the genocide the shifting narrative of the genocide itself the evolving debate over the role and impact of hate media in Rwanda the challenge of digitizing archival records of the genocide and the fostering of free and independent media in atrocity s wake The volume also probes how journalists themselves confront mass atrocity and examines the preventive function of media through the use of advanced digital technology as well as radio programming in the Lake Chad Basin and the Democratic Republic of Congo Media and Mass Atrocity questions what the lessons of Rwanda

mean now in an age of communications so dramatically influenced by social media and the relative decline of traditional news media

The Courts of Genocide Nicholas Jones, 2009-09-10 The Courts of Genocide focuses on the judicial response to the genocide in Rwanda in order to address the search for justice following mass atrocities The central concern of the book is how the politics of justice can get in the way of its administration Considering both the ICTR International Criminal Tribunal for Rwanda and all of the politics surrounding its work and the Rwandan approach the Gacaca courts and the national judiciary and the politics that surround it The Courts of Genocide addresses the relationship between these three courts which whilst oriented by similar concerns stand in stark opposition to each other In this respect the book addresses a series of questions including What aspects of the Rwandan genocide itself played a role in directing the judicial response that has been adopted On what basis did the government of Rwanda decide to address the genocide in a legalistic manner Around what goals has each judicial response been organized What are the specific procedures and processes of this response And finally what challenges does its multifaceted character create for those involved in its operation well as for Rwandan society Addressing conceptual issues of restorative and retributive justice liberal legalism and cosmopolitan law The Courts of Genocide constitutes a substantially grounded reflection upon the problem of doing justice after genocide When Victims Become Killers Mahmood Mamdani, 2002-09 Rejecting easy explanations of the genocide as a mysterious evil force that was bizarrely unleashed one of Africa's best known intellectuals situates the tragedy in its proper context He coaxes to the surface the historical geographical and political forces that made it possible for so many Hutu to turn so brutally on their neighbors He finds answers in the nature of political identities generated during colonialism in the failures of the nationalist revolution to transcend these identities and in regional demographic and political currents that reach well beyond Rwanda In so doing Mahmood Mamdani broadens understanding of citizenship and political identity in postcolonial Africa Mamdani's analysis provides a foundation for future studies of the massacre His answers point a way out of crisis a direction for reforming political identity in central Africa and preventing future tragedies

The Media and the Rwanda Genocide Allan Thompson, 2007-01-20 The news media played a crucial role in the 1994 Rwanda genocide local media fuelled the killings while the international media either ignored or seriously misconstrued what was happening This is the first book to explore both sides of that media equation The book examines how local radio and print media were used as a tool of hate by encouraging neighbours to turn against each other It also presents a critique of international media coverage of the cataclysmic events in Rwanda Bringing together local reporters and commentators from Rwanda high profile Western journalists and leading media theorists this is the only book to identify and probe the extent of the media's accountability It also examines deliberations by the International Criminal Tribunal for Rwanda on the role of the media in the genocide In writing this startling record of the dangerous negative influence that the media can have when used as a political tool or when news organisations and journalists fail to live up to their responsibilities the authors put forward suggestions for the

future outlining how we can avoid censorship and propaganda and arguing for a new responsibility in media reporting
