Sacha Runa Ethnicity And Adaptation Of Ecuadorian Jungle Quichua:

Sacha Runa Norman E. Whitten,1976 **Sacha Runa** Norman E. Whitten,Marcelo F. Naranjo,1976 **Ethnicity in Ancient Amazonia** Alf Hornborg,Jonathan D. Hill,2011-10-31 A transdisciplinary collaboration among ethnologists linguists and archaeologists Ethnicity in Ancient Amazonia traces the emergence expansion and decline of cultural identities in indigenous Amazonia Hornborg and Hill argue that the tendency to link language culture and biology essentialist notions of ethnic identities is a Eurocentric bias that has characterized largely inaccurate explanations of the distribution of ethnic groups and languages in Amazonia The evidence however suggests a much more fluid relationship among geography language use ethnic identity and genetics In Ethnicity in Ancient Amazonia leading linguists ethnographers ethnohistorians and archaeologists interpret their research from a unique nonessentialist perspective to form a more accurate picture of the ethnolinguistic diversity in this area Revealing how ethnic identity construction is constantly in flux contributors show how such processes can be traced through different ethnic markers such as pottery styles and languages Scholars and students studying lowland South America will be especially interested as will anthropologists intrigued by its cutting edge interdisciplinary approach *Handbook of South American Archaeology* Helaine Silverman,William Isbell,2008-04-06 Perhaps the contributions of South American archaeology to the larger field of world archaeology have been inadequately recognized If so this is probably because there have been relatively few archaeologists working in South America outside of Peru and recent advances in knowledge in other parts of the continent are only beginning to enter larger archaeological discourse Many ideas of and about South American archaeology held by scholars from outside the area are going to change irrevocably with the appearance of the present volume Not only does the Handbook of South American Archaeology HSAA provide immense and broad information about ancient South America the volume also showcases the contributions made by South Americans to social theory Moreover one of the merits of this volume is that about half the authors 30 are South Americans and the bibliographies in their chapters will be especially useful guides to Spanish and Portuguese literature as well as to the latest research It is inevitable that the HSAA will be compared with the multi volume Handbook of South American Indians HSAI with its detailed descriptions of indigenous peoples of South America that was organized and edited by Julian Steward Although there are heroic archaeological essays in the HSAI by the likes of Junius Bird Gordon Willey John Rowe and John Murra Steward states frankly in his introduction to Volume Two that arch ology is included by way of background to the ethnographic chapters *Weaving the Past* Susan Kellogg,2005-09-02 Weaving the Past is the first comprehensive history of Latin America s indigenous women While concentrating mainly on native women in Mesoamerica and the Andes it also covers indigenous peoples in a variety of areas of South and Central America Drawing on primary and secondary sources it argues that change not continuity has been the norm for indigenous peoples whose resilience in the face of complex and long term patterns of cultural change is due in no small part to the roles actions and agency of women

Remaking Kichwa Michael Wroblewski, 2021-01-28 Investigating the efforts of the Kichwa of Tena Ecuador to reverse language shift to Spanish this book examines the ways in which Indigenous language can be revitalized and how creative bilingual forms of discourse can reshape the identities and futures of local populations Based on deep ethnographic fieldwork among urban periurban and rural indigenous Kichwa communities Michael Wroblewski explores adaptations to culture contact language revitalization and political mobilization through discourse Expanding the ethnographic picture of native Amazonians and their traditional discourse practices this book focuses attention on Kichwas diverse engagements with rural and urban ways of living local and global ways of speaking and Indigenous and dominant intellectual traditions Wroblewski reveals the composite nature of indigenous words and worlds through conversational interviews oral history narratives political speechmaking and urban performance media showing how discourse is a critical focal point for studying cultural adaptation Highlighting how Kichwas assert autonomy through creative forms of self representation Remaking Kichwa moves the study of Indigenous language into the globalized era and offers innovative reconsiderations of Indigeneity discourse and identity

Editing Eden Frank Hutchins, Patrick C. Wilson, 2010-04-01 Recent scholarship on the Amazon has challenged depictions of the region that emphasize its natural exuberance or represent its residents as historically isolated peoples stoically resisting challenges from powerful global forces The contributors to this volume follow this lead by situating the discussion of the Amazon and its inhabitants at the intersections of identity politics debates about socioeconomic sovereignty and processes of place making Editing Eden focuses on case studies from Amazonian Brazil Colombia and Ecuador regarding the themes of indigeneity community making development politics and the transcendence of indigenous nonindigenous divides Portraits of the Amazon emerge through an analysis of indigenous identity as a product of multiple sources including state policies toward Amazonian populations the views of foreign ecotourists the agendas of nongovernmental organizations NGOs and accounts of journalists At the same time indigenous and nonindigenous Amazonians challenge the representations constructed for and about them by integrating anthropologists and other nonlocals into their reciprocal systems of gift giving or by utilizing NGO or ecotourist dollars to support their own cultural agendas Editing Eden offers insights from leading anthropologists of the region providing perspectives on the Amazon beyond the counterfeit paradise but short of El Dorado

Hagan,2011-05-12 Tazzunt presents a group of Berbers Imazighen the Ait Arbaa who live in the Tessawt Valley of the High Atlas of Morocco eking out a meager existence from the eroded soil of their rugged environment by harvesting turnips millet and maize and one cash crop of walnuts They depend also on a simple form of summer pasture Tazzunt means limit and it refers to an annual ritual which gathers around the shrine of a local Saint Sidi Asdal several villages of the Valley for its celebration A ceremony a feast songs and dances accompany the rite The book is based on a French ethnographic description recorded by a member of that group Hassan Jouad and a Frenchman Bernard Lortat Jacob during the celebration of the opening of the Summer Season Festivities the Tazzunt ceremony in 1978 The original English analysis based on this description was a spring paper written in 1982 at the Department of Anthropology of Stanford University Because such material is so lacking in the anthropological literature of Morocco and given the fact that American universities are beginning to become more interested in Amazigh studies North African Berbers and Tuaregs this small book might be appreciated by a number of people entering that field Hopefully it will also be of interest to anyone else interested in ritual and religious practice in Africa The document opens with an introduction to the Berbers of the High Atlas of Morocco who speak Tamazight a form of a Berber language which has a number of different dialects through North Africa A whole section is devoted to the analysis of their segmentary type of tribal organization and what has been discussed in the

past by anthropologists interested in segmentary structures of social organization in past anthropological literature The various mechanisms of affiliations and alliances recognized by Berbers Imazighen in this part of the world about the middle of the twentieth century are also examined and assessed as to their function and place in the tapestry of relations not just among the Ait Arbaa but more generally among the Berbers of that region The presence of marabouts saintly men such as Sidi Asdal the local saint of the upper Tessawt Valley and a maraboutic complex which antedates the arrival of Islam and has been incorporated into religious practice in Moorcco are also introduced and discussed in a separate section of the book The concept of Baraka blessing and power of blessing is introduced and analyzed Social order and the segmentary structure of social organization are singularly modified by the presence of these powerful saintly men with Baraka as opposed to the rule of elected temporal chiefs or amghars A model of equilibrium fluidity and flexibility emerges from such a factor at the core of a structured hierarchical society The ritual of Tazzunt itself is presented explained and analyzed An anthropological reflection on the importance of ritual song and dance rounds up the presentation All aspects of the presentation of the ritual of Tazzunt and its meaning for the villagers and mountain people of the Tessawt Valley are backed by a series of poems and songs which were translated from their original Tamazight composition into French by Hassan Jouad and subsequently translated from the French into English by the author of the book Helene Hagan The poetry is essential to the actual substance and meaning of the actions described In addition to the importance of the poetry which accompanies the prose of the explanatory text the author had the extraordinary luck to come across a set of photographs taken in that valley around the very time that this document was being written These photographs were taken by two architects Anne and Olivier Fougerat who were kind enough to share their beautiful photography taken in May of 1984 in the Upper Tessawt Valley of the High Atlas of Moroc
