The author's thoughts and approaches not only provide a missiological insight which contribute to the repertoire of expanding fresh ideas in the missiological studies but also serves the purpose of highlighting the active participation of Africans in the missionary mandate of Jesus Christ. In other words, the scope of missiology needs a contextualized interpretation. Thus he proposes a proactive language for missiology in Africa, thereby underlining Africans as normal and full members of the human family. In the light of the Vatican II mission theology, the new language should be based on the fact that Africans will grow and do better in admiration and not in sympathy. Interestingly, the arguments in this volume open the space for the on-going discussions in the mission of the church in the era of secularization and post-modernity. Consequently, a new language for missiology in Africa will come from the retrieval and modernization of our African cultural matrix pursued from the point of view of the daily struggles of the Africans themselves for survival, which also addresses Africans in the spirit of cooperation.

Scott Appleby, David Little, 2015-03-02 The book provides a comprehensive overview of the literature on religion, conflict and peacebuilding. With a focus on structural and cultural violence, the volume also offers a cutting-edge interdisciplinary reframing of the scope of scholarship in the field.      The Crucifixion of the Warrior God Gregory A. Boyd, 2017-04-17 *The Crucifixion of the Warrior*

God in an epic constructive investigation takes up the set of dramatic tensions between depictions of divinely sanctioned violence in Scripture and the message and life of peace of Jesus centering the New Testament Over two volumes author Gregory A Boyd argues that we must take seriously the full range of Scripture as inspired and the centrality of the crucified and risen Christ as the supreme revelation of God *Constructing Religious Martyrdom* John Soboslai,2024-06-27

Martyrdom is a phenomenon common to many of the world s religious traditions But why In this study John Soboslai offers insights into the practices of self sacrifice within specific sociopolitical contexts Providing a new understanding of martyrdom through the lens of political theology he analyzes discourses and performances in four religious traditions during social and political crises beginning with second century Christianity in Asia Minor where the term martyr first took its meaning He also analyzes Shi a Islam in the 1980s when suicide bombing first appeared as a strategy in West Asia global Sikhism during World War I where martyrs stood for and against the British Raj and twenty first century Tibetan Buddhism where self immolators used their bodies in opposition to the programs of the People s Republic of China Presenting a new theory of martyrdom linked to constructions of sovereign authority Soboslai reveals common features of self sacrifice and demonstrates how bodily performances buttress conceptions of authority Religion and Violence Jeffrey Ian

Firestone,2012-07-12 Holy war sanctioned or even commanded by God is a common and recurring theme in the Hebrew Bible Rabbinic Judaism however largely avoided discussion of holy war in the Talmud and related literatures for the simple reason that it became dangerous and self destructive Reuven Firestone s *Holy War in Judaism* is the first book to consider how the concept of holy war disappeared from Jewish thought for almost 2000 years only to reemerge with renewed vigor in modern times The revival of the holy war idea occurred with the rise of Zionism As the necessity of organized Jewish engagement in military actions developed Orthodox Jews faced a dilemma There was great need for all to engage in combat

for the survival of the infant state of Israel but the Talmudic rabbis had virtually eliminated divine authorization for Jews to fight in Jewish armies. Once the notion of divinely sanctioned warring was revived it became available to Jews who considered that the historical context justified more aggressive forms of warring. Among some Jews divinely authorized war became associated not only with defense but also with a renewed *kibbush* or conquest, a term that became central to the discourse regarding war and peace and the lands conquered by the state of Israel in 1967. By the early 1980s the rhetoric of holy war had entered the general political discourse of modern Israel. In *Holy War in Judaism*, Firestone identifies, analyzes, and explains the historical, conceptual, and intellectual processes that revived holy war ideas in modern Judaism.
