Sacred Images And Sacred Power In Byzantium Variorum Collected Studies Series 778:

Sacred Images and Sacred Power in Byzantium Gary Vikan, 2003 In these studies Gary Vikan has opened new perspectives on the daily life and material culture of Late Antiquity more specifically on icons and relics and on objects revealing of the world of pilgrimage the early cult of saints and marriage He contextualizes these familiar categories of object in the patterns of belief and ritual extracted from contemporary texts and the objects themselves in order to understand their meaning within the everyday lives of those by whom and for whom they were made The studies give a nuanced delineation of the inherently ambiguous boundary between conventional religion and magic noting repeatedly those instances wherein the two are invoked in the same breath and by way of the same art object toward the same end From this historically constructed matrix of art belief and ritual the author derives an anthropologically defined paradigm of charisma and pilgrimage applied in one essay as an intriguing parallel to deconstructing the world of a contemporary secular saint Elvis Presley **Sacred**

Hunter, 2008-09-04 Provides an introduction to the academic study of early Christianity c 100 600 AD and examines the vast geographical area impacted by the early church in Western and Eastern late antiquity from publisher description **Scenting Salvation** Susan Ashbrook Harvey, 2015-08-25

This book explores the role of bodily sensory experience in early Christianity first seventh centuries AD by focusing on the importance of smell in ancient Mediterranean culture Following its legalization in the fourth century Roman Empire Christianity cultivated a dramatically flourishing devotional piety in which the bodily senses were utilized as crucial instruments of human divine interaction Rich olfactory practices developed as part of this shift with lavish uses of incense holy oils and other sacred scents At the same time Christians showed profound interest in what smells could mean How could the experience of smell be construed in revelatory terms What specifically could it convey How and what could be known through smell *Scenting Salvation* argues that ancient Christians used olfactory experience for purposes of a distinctive religious epistemology formulating knowledge of the divine in order to yield in turn a particular human identity Using a wide

array of Pagan Jewish and Christian sources Susan Ashbrook Harvey examines the ancient understanding of smell through religious rituals liturgical practices mystagogical commentaries literary imagery homiletic conventions scientific medical and cosmological models ascetic disciplines theological discourse and eschatological expectations In the process she argues for a richer appreciation of ancient notions of embodiment and of the roles the body might serve in religion Ecclesiasticus II George Dion Dragas, 2005 Ecclesiasticus Prayer brings together essays which were delivered on various occasions and are arranged into four general topics hence the subtitle The first section on Icons offers an introductory lecture on the iconoclastic dispute with a select updated bibliography and a fresh exposition on the basis of the original text of St John of Damascus Defense of the Icons The second section on Saints represents an introduction to Orthodox Hagiography which was prepared for the Orthodox Reformed Dialogue and offers an extensive bibliography on the subject The third section on Feasts is a general presentation of the major movable and immovable feasts of the Orthodox liturgical years and dovetails with the section on the Saints Finally the fourth section on Prayer offers two expositions of the Lord's Prayer one by St Maximos the Confessor and another by St Macarios of Corinth which are representative of the patristic understanding of this Prayer that constitutes the basis of Orthodox spirituality

Image and Imagination in Byzantine Art Henry Maguire, 2007 The twelve studies contained in this second collection by Henry Maguire are linked together by a common theme namely the relationship of Byzantine art to the imaginary They show how art enabled the Byzantines not only to imagine the sacred events of the past but also to visualize the invisible present by manifesting the spiritual world that they could not see Particular topics are the depiction of nature the social functions and theological significance of classical artistic forms in Byzantine art after iconoclasm the association between rhetoric and the visual arts the relationship of the visual arts to concepts of justice and the law and portrayals of the imperial court on earth and the imagined court in heaven

Perceptions of the Body and Sacred Space in Late Antiquity and Byzantium Jelena Bogdanovic, 2018-04-09 Perceptions of the Body and Sacred Space in Late Antiquity and Byzantium seeks to reveal Christian understanding of the body and sacred space in the medieval Mediterranean Case studies examine encounters with the holy through the perspective of the human body and sensory dimensions of sacred space and discuss the dynamics of perception when experiencing what was constructed represented and understood as sacred The comparative analysis investigates viewers recognitions of the sacred in specific locations or segments of space with an emphasis on the experiential and conceptual relationships between sacred spaces and human bodies This volume thus reassesses the empowering aspects of

space time and human agency in religious contexts By focusing on investigations of human endeavors towards experiential and visual expressions that shape perceptions of holiness this study ultimately aims to present a better understanding of the corporeality of sacred art and architecture The research points to how early Christians and Byzantines teleologically viewed the divine source of the sacred in terms of its ability to bring together but never fully dissolve the distinctions between the human and divine realms The revealed mechanisms of iconic perception and noetic contemplation have the potential to shape knowledge of the meanings of the sacred as well as to improve our understanding of the liminality of the profane and the sacred

Sacred Shock: Framing Visual Experience in Byzantium Glenn Peers,2004 Sacred Shock attempts to lay bare the inner workings of Byzantine art by looking closely at the marginal or subsidiary areas in works of art

The Celebration of the Saints in Byzantine Art and Liturgy NANCY P. SEVCENKO,2020-06-30 The studies in this volume all deal with images and texts that relate to the veneration of the saints in Byzantium after the 9th century Some papers are devoted to the church calendar and the annual commemorations of hundreds of saints through liturgical poetry and sequences of isolated images in fresco icon painting and illuminated manuscripts Others are concerned with the longer and rarer narrative cycles devoted to the life of a single saint cycles found mainly in fresco and on the so called vita icons that first appear in the East in the late 12th century Additional studies deal with the developing role of icons in liturgical ceremonies and with images of a saint being approached by a supplicant or patron A final section is devoted to places made holy by the saints and to their holy relics Publisher's website

Mosaics, Empresses and Other Things in Byzantium Liz James,2024-08-01 This volume consists of 15 articles published between 1991 and 2018 It falls into three sections reflecting different areas of Liz James's interests The first section deals with light and colour and mosaics four articles considering light and colour in mosaics and the making of mosaics as well as the question of what it means to define mosaics as Byzantine are reprinted The second brings together four pieces on empresses their relationships with female personifications and the Mother of God their roles in founding and refounding buildings and their employment as ciphers by some authors Finally seven papers cover a range of topics what monumental images of saints in churches might have been for what the differences between relics and icons might have been how captions to images can be misleading why touch was an important sense how words can sometimes just be decorative rather than for reading why the materiality of objects makes a difference There is also a brief section of additional notes and comments which add to update and reflect on each piece now in 2024 Mosaics Empresses and Other Things in Byzantium will be of interest to scholars and students alike interested in material culture the depiction of regal women and the use of relics and icons in the Byzantine Empire
