Gardiner,2009-01-30 Is there life after death Is there a world outside our own WHAT IF ANCIENT PEOPLE ALREADY KNEW THE ANSWERS TO THESE QUESTIONS Acclaimed author Philip Gardiner proves that our ancestors were far more advanced scientifically and spiritually than previously believed Through a special technique ancient Egyptians and others were able to journey to other realities within themselves in short to the Otherworld The author undergoes his own experiments to prove the point Gardiner also shows that ancient people knew more about their place in the universe than previously thought They placed buildings and objects in specific places around the globe because these points had a distinct relation to the universal and human wave resonance of electromagnetism When the ancients journeyed to these places they were joining with God and visualizing the effect The remarkable conclusions and discoveries in this book not only dispel some age old myths but also address questions such as Is there a universal frequency that allows the mind to travel into other realms Does the Great Pyramid hold a real secret to the quantum realm What are those mysterious round towers found scattered around our planet Is ESP real What Gateways to the Otherworld uncovers are not just tales of ancient trips to other realms nor theories on why stone circles were built in specific locations but real answers based on thorough research and science *The Tibetan Book*

of the Dead Graham Coleman,Thupten Jinpa,2008-11-06 The acclaimed English translation of this masterpiece of world literature prepared with the participation of the Dalai Lama One of the greatest works created by any culture and one of the most influential of all Tibetan Buddhist texts in the West The Tibetan Book of the Dead has had a number of distinguished translations but strangely all of these have been partial abridgements Now the entire text has not only been made available in English but in a translation of quite remarkable clarity and beauty A comprehensive guide to living and dying The Tibetan Book of the Dead contains exquisitely written guidance and practices related to transforming our experience in daily life on the processes of dying and the after death state and on how to help those who are dying As originally intended this is as much a work for the living as it is for those who wish to think beyond a mere conventional lifetime to a vastly greater and grander cycle Extraordinary this work will be a source of inspiration and support to many His Holiness the Dalai Lama

Sacred Passage Margaret Coberly, Ph.D, RN,2003-02-11 Working as an emergency room nurse Margaret Coberly came in contact with death on a daily basis However it wasn't until her own brother was diagnosed with terminal cancer that she realized she understood very little about the emotional and spiritual aspects of caring for the terminally ill To fill this gap she turned to the unique wisdom on death and dying found in Tibetan Buddhism In this book Coberly offers sound practical advice on meeting the essential needs of the dying integrating stories from her long career in nursing with useful insights from the Tibetan Buddhist teachings In the West death is viewed as a tragic and horrible event Coberly shows us how this view generates fear and denial which harm the dying by adding unnecessary loneliness confusion and mental anguish to the dying process Tibetan Buddhism focuses on the nature of death and how to face it with honesty openness and courage In this view death is not a failure but a natural part of life that if properly understood and appreciated can offer the dying and their

loved ones an opportunity to gain valuable insight and wisdom Coberly argues that the Tibetan Buddhist outlook can be a useful antidote to the culture of fear and denial that surrounds death in the West and can help caregivers become more fully present fearless honest and compassionate Sacred Passage highlights two very practical teachings on death and dying from the Tibetan Buddhist tradition and presents them in clear nontechnical language Readers learn about the eight stages of dissolution leading to death a detailed roadmap of the dying process that describes the sequence of physical psychological and spiritual changes that occur as we die Coberly also presents the death meditation a contemplative exercise for developing a new relationship to death and life The book also includes a lengthy annotated list of recommended readings for added guidance and inspiration Topics include How the terminally ill can experience emotional and spiritual healing even when they can't be cured Why Western medicine's relentless focus on curing disease has led to inadequate care for the dying What to expect during the dying process How our fear and denial of death harm the dying Techniques to help caregivers promote a peaceful environment for the dying and their loved ones How to meet the changing physical and emotional needs of the dying Helpful advice on what to say and how to behave around the terminally ill

Unearthing Bon Treasures Dan Martin, 2021-07-26 The subject for this study the Tibetan treasure revealer

Gshen chen Klu dga is a crucial figure in the development of Bon as an organised religion after the eleventh century Here for the first time he is situated in the context of what was happening in Buddhism at the time By scrutinizing his life and gter ma treasures that were to be of much controversy in later ages Dan Martin sheds light on the mechanism of Tibetan polemical tradition and the ways in which sectarianism accords itself legitimacy by resurrecting ancient arguments in a subtly distorted manner The exhaustive annotated bibliography of previous works about Bon forming the second part of the work can rightly be seen as a legacy of Gshen chen Both parts taken together make this an indispensable guide to any student of Bon

Travels in the Netherworld Bryan J. Cuevas,2008-04-02 In Travels in the Netherworld Bryan J Cuevas examines a fascinating but little known genre of Tibetan narrative literature about the d lok ordinary men and women who claim to have died traveled through hell and then returned from the afterlife These narratives enjoy audiences ranging from the most sophisticated monastic scholars to pious townsfolk villagers and nomads Their accounts emphasize the universal Buddhist principles of impermanence and worldly suffering the fluctuations of karma and the feasibility of obtaining a favorable rebirth through virtue and merit Providing a clear detailed analysis of four vivid return from death tales including the stories of a Tibetan housewife a lama a young noble woman and a Buddhist monk Cuevas argues that these narratives express ideas about death and the afterlife that held wide currency among all classes of faithful Buddhists in Tibet Relying on a diversity of traditional

Tibetan sources Buddhist canonical scriptures scholastic textbooks ritual and meditation manuals and medical treatises in addition to the d lok works themselves Cuevas surveys a broad range of popular Tibetan Buddhist ideas about death and dying He explores beliefs about the vulnerability of the soul and its journey beyond death karmic retribution and the terrors of hell the nature of demons and demonic possession ghosts and reanimated corpses Cuevas argues that these extraordinary accounts exhibit flexibility between social and religious categories that are conventionally polarized and concludes that contrary to the accepted wisdom such rigid divisions as elite and folk monastic and lay religion are not sufficiently representative of traditional Tibetan Buddhism on the ground This study offers innovative perspectives on popular religion in Tibet and fills a gap in an important field of Tibetan literature
