Sacred Warriors:

Celebrate! Arlyn J Macdonald, 2020-10-14 What is missing in modern life is the recognition of the sacred in life Celebrate is a resource book for individuals families and communities to integrate the sacred back into ordinary life through blessing ceremonies and rituals Sacred ceremonies are the bridge between the material and spiritual worlds reconnecting us to wholeness The ceremonies included in the book can be used by all cultures and all faiths marking important life events for children and adults as well as holidays Some are familiar ceremonies and some are new especially created for times that give meaning to life in the modern world The section on Creating Your Own Ceremonies assists readers to create personal ceremonies to mark their own life journeys This is Our Legend Jamie Gandy, 2020-02-06 In a land full of magic and consumed by secrets a young Prince is put to the ultimate test when he is captured by ruthless outlaws However he will soon see that these villains are the least of his worries as an ancient demonic Sword calls to him from the abyss With the help of his friends and a legendary mythical creature Prince Kage must learn how to contain the imminent evil in order to face the secrets revealed to him Amidst the chaos will Kage be able to evade the impending darkness or will he sacrifice everything he holds dear Warriors of the Rising Sun Robert B. Edgerton, 1997 Throughout the Pacific theater of World War II Allied prisoners were often starved tortured beheaded even cannibalized by Japanese soldiers Yet during the Boxer Rebellion in China and the savage Russo Japanese War of 1904 5 the Western press lauded the Japanese for their kindness to the enemy wounded and imprisoned Warriors of the Rising Sun chronicles the Japanese military's transformation from honorable knights of Bushido into men of historic cruelty Photos **Military Review**, 2010-07 **Creating Military Power** Risa Brooks, 2007-04-09 Creating Military Power examines how societies cultures political structures and the global environment affect countries military organizations Unlike most analyses of countries military power which focus on material and basic resources such as the size of populations technological and industrial base and GNP this volume takes a more expansive view The study's overarching argument is that states global environments and the particularities of their cultures social structures and political institutions often affect how they organize and prepare for war and ultimately impact their effectiveness in battle The creation of military power is only partially dependent on states basic material and human assets Wealth technology and human capital certainly matter for a country's ability to create military power but equally important are the ways a state uses those resources and this often depends on the political and social environment in which military activity takes place *Quarterly Review of Military Literature*, 1983 **Japanese Military Strategy in the Pacific War** James B Wood, 2023-06-14 In this provocative history James B Wood challenges the received wisdom that Japan's defeat in the Pacific was historically inevitable He argues instead that it was only when the Japanese military prematurely abandoned its original sound strategic plan to secure the resources Japan needed and establish a viable defensible perimeter for the Empire that the Allies were able to regain the initiative and lock Japanese forces into a war of attrition they were not prepared to fight The

book persuasively shows how the Japanese army and navy had both the opportunity and the capability to have fought a different and more successful war in the Pacific that could have influenced the course and outcome of World War II It is therefore a study both of Japanese defeat and of what was needed to achieve a potential Japanese victory or at the very least to avoid total ruin Wood s argument does not depend on signal individual historical events or dramatic accidents Instead it examines how familiar events could have b Professional Journal of the United States Army ,1983 *Military planning in the twentieth century : proceedings of the Eleventh Military History Symposium 10-12 October 1984* Harry R.
