The Sacred Books of the East, Vol. 5, 1880 **Seeking the Lord of Middle Earth** Jeffrey L. Morrow, 2017-06-07 J R R Tolkien the beloved author of *The Hobbit* and *The Lord of the Rings* brings to his work a great treasure his Christian faith Tolkien's literary works are so popular in part because in some sense they pertain to the real world This present volume is an attempt to understand better the deep Christian influences on his work but also to explore the relevance of Tolkien's work for theology today After examining Tolkien's fiction in order better to appreciate Christian influences this volume takes a closer look at Tolkien's theology of fantasy his response to the more skeptical origins of religion research and applies his work to contemporary questions about method in biblical studies Tolkien's Christianity informed all he wrote Moreover his own theology of fantasy holds great promise for contemporary theology *Finding List of the Enoch Pratt Free Library of Baltimore City, Central Library* Enoch Pratt Free Library, 1890 *The Conflict of the Ages Student Edition I: the Scientific History of Origins* Michael J. Findley, Mary C. Findley, *The Conflict of the Ages* is a Multi Part exploration of History Science and ancient Literature This first installment covers the concepts of God time Creation physics cosmology and specifics about each day of Creation We make comparisons with ancient sources to see where they agree with the Scriptural account We reference classic and modern scientific views exposing errors preconceptions presuppositions and falsehoods taught as fact by the mainstream scientific community God is the first witness and the Bible the first eyewitness account of beginnings and origins Other ancient documents contain at least some truths and parallel accounts *The History of the Book in South Asia* Francesca Orsini, 2016-12-05 *The History of the Book in South Asia* covers not only the various modern states that make up South Asia today but also a multitude of languages and scripts For centuries it was manuscripts that dominated book production and circulation and printing technology only began to make an impact in the late eighteenth century Print flourished in the colonial period and in particular lithographic printing proved particularly popular in South Asia both because it was economical and because it enabled multi script printing There are now vibrant publishing cultures in the nation states of South Asia and the essays in this volume cover the whole range from palm leaf manuscripts to contemporary print culture **Catalogue of the Keiogijuku Library**, 1912 **Cultures of the Jews, Volume 1** David Biale, 2006-01-10 Scattered over much of the world throughout most of their history are the Jews one people or many How do they resemble and how do they differ from Jews in other places and times What have their relationships been to the cultures of their neighbors To address these and similar questions some of the finest scholars of our day have contributed their insights to *Cultures of the Jews* a winner of the National Jewish Book Award upon its hardcover publication in 2002 Constructing their essays around specific cultural artifacts that were created in the period and locale under study the contributors describe the cultural interactions among different Jews from rabbis and scholars to non elite groups including women as well as between Jews and the surrounding non Jewish world What they conclude is that although Jews have always had their own autonomous

traditions Jewish identity cannot be considered the fixed product of either ancient ethnic or religious origins Rather it has shifted and assumed new forms in response to the cultural environment in which the Jews have lived Mediterranean Origins the first volume in Cultures of the Jews describes the concept of the People or Nation of Israel that emerges in the Hebrew Bible and the culture of the Israelites in relation to that of neighboring Canaanite groups It also discusses Jewish cultures in Babylonia in Palestine during the Greco Roman and Byzantine periods and in Arabia during the formative years of Islam

Messianic Beliefs and Imperial Politics in Medieval Islam Hayrettin Yücesoy, 2009 An analysis of the dynamic relationship between apocalyptic prophecies and medieval Muslim politics Messianic Beliefs and Imperial Politics in Medieval Islam analyzes the role of Muslim messianic and apocalyptic beliefs in the development of the Abbasid Caliphate to highlight connections between charismatic authority and institutional developments in the early ninth century Hayrettin Yücesoy studies the relationship between rulers and religion to advance understanding of the era's political actions and more specifically to illustrate how messianic beliefs influenced Abbasid imperial politics and contributed to the reshaping of the caliphate under al Ma'mun 809-33 after a decade long civil war Yücesoy challenges traditional sociological views that marginalize messianic beliefs as oppositional ideologies of disfranchised social classes to be used against the political establishment Instead he finds a mode of symbiosis between messianic beliefs political reform and imperial ambitions put in motion by al Ma'mun's acute understanding of the sociopolitical and ideological context of his time Yücesoy demonstrates how the caliphate absorbed influences from the late antique world and Near Eastern cultures to fashion a prophetic vision that served to undergird al Ma'mun's imperial aspirations A comprehensive portrait of the caliph and his reign emerges from this study as a result By drawing on records of Muslim and non Muslim apocalyptic prophecies circulating among the general public and educated elites alike this study demonstrates the pertinence of messianic beliefs to medieval Muslim politics and illustrates the manner in which the caliph responded and shaped societal concerns on three distinct fronts domestic fiscal and administrative reforms an increase in missionary and military activities and religious reform Yücesoy shows that political usefulness contributed to the longevity of charismatic ideologies by addressing how the Abbasid ruling class adopted such beliefs as a medium to initiate governmental reforms and expand their authority This work adds new layers to ongoing interdisciplinary discourse about the importance of religion in Islamic sociopolitical life both historically and in the contemporary Muslim world
