Hammes,2020-09-01 When the Korean War broke out in 1950 the Marine Corps was ordered to deploy an air ground brigade in less than ten days even though no such brigade existed at the time Assembled from the woefully understrength 1st Marine Division and 1st Marine Air Wing units the Brigade shipped out only six days after activation sailed directly to Korea was in combat within ninety six hours of landing and despite these enormous handicaps and numerically superior enemy forces won every one of its engagements and helped secure the Pusan Perimeter Despite its remarkable achievements the Brigade s history has largely been lost amid

accounts of the sweeping operations that followed Its real history has been replaced by myths that attribute its success to tough training great conditioning unit cohesion and combat experienced officers None of which were true T X Hammes now reveals the real story of the Brigade s success prominently citing the Corps crucial ability to maintain its ethos culture and combat effectiveness during the period between World War II and Korea when its very existence was being challenged By studying the Corps from 1945 to 1950 Hammes shows that it was indeed the culture of the Corps a culture based on remembering its storied history and learning to face modern challenges that was responsible for the Brigade s success The Corps remembered the human factors that made it so successful in past wars notably the ethos of never leaving another marine behind At the same time the Corps demonstrated commendable flexibility in adapting its doctrine and operations to evolutions in modern warfare In particular the Corps overcame the air ground schism that marked the end of World War II to excel at close air support Despite massive budget and manpower cuts the Corps continued to experiment and learn even at it clung to its historical lodestones This approach was validated during the Brigade s trial by fire More than a mere battle history Forgotten Warriors gets to the heart of marine culture to show fighting forces have to both remember and learn As today s armed forces face similar challenges this book confirms that culture as much as technology prepares America s fighting men and women to answer their country s call **Journalist 3 & 2** United States.
