Frost, 2007 *Maritime Societies of the Viking and Medieval World* James H. Barrett, Sarah Jane Gibbon, 2016-11-25 This book is a study of communities that drew their identity and livelihood from their relationships with water during a pivotal time in the creation of the social economic and political landscapes of northern Europe It focuses on the Baltic North and Irish Seas in the Viking Age ad 1050-1200 with a few later examples such as the Scottish Lordship of the Isles included to help illuminate less well documented earlier centuries Individual chapters introduce maritime worlds ranging from the Isle of Man to Gotland while also touching on the relationships between estate centres towns landing places and the sea in the more terrestrially oriented societies that surrounded northern Europe's main spheres of maritime interaction It is predominately an archaeological project but draws no arbitrary lines between the fields of historical archaeology history and literature The volume explores the complex relationships between long range interconnections and distinctive regional identities that are characteristic of maritime societies seeking to understand communities that were brought into being by their relationships with the sea and who set waves in motion that altered distant shores **Feudal Assessments and the Political Community under Henry II and His Sons** Thomas K. Keefe, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again

using print on demand technology This title was originally published in 1983 *Lordship and Locality in the Long Twelfth Century* Hannah Boston, 2024 A new perspective on lordship in England between the Norman Conquest and Magna Carta Multiple lordship that is holding land or owing allegiance to more than one lord simultaneously was long regarded under the western European feudal model as a potentially dangerous aberration and a sign of decline in the structure of lordship Through an analysis of the minor lords of Leicestershire Derbyshire and Staffordshire during the long twelfth century this study demonstrates conversely that multiple lordship was at least as common as single lordship in this period and regarded as a normal practice and explores how these minor lords used the flexibility of lordship structures to construct localised centres of authority in the landscape and become important actors in their own right Lordship was moreover only one of several forces which minor lords had to navigate Regional society in this period was profoundly shaped by overlapping ties of lordship kinship and locality each of which could have a fundamental impact on relationships and behaviour These issues are studied within and across lords honours around religious houses and urban areas and in a close case study of the abbey of Burton upon Trent This book thus contextualises lordship within a wider landscape of power and influence COLONY & FRONTIER IN MEDIEVAL IRELAND T. B. Barry, Frame, Katharine Simms, 1995-01-01 These essays explore aspects of the English colony in medieval Ireland and its relations with the Gaelic host society They deal both with the foundation and expansion of the English lordship in the twelfth and early thirteenth centuries and with the problems and adjustments that accompanied its contraction in the later middle ages Attention is paid both to the government and society of the colony itself and to the interactions between settler and native The Household Knights of King John S. D. Church, 1999-07-22 If the medieval king was the helmsman of the ship of state the royal household was the ship's engine It comprised men from most ranks of society from the great magnates of the realm to simple servants who looked after the day to day needs of the king and his court English government in both peace and war was conducted through the royal household amongst whom the most important men were the king's knights socially elite militarily pre eminent and indispensable for the workings of English medieval government It is with these men during the reign of King John that this work is concerned **Politics and Society in Mid Thirteenth-Century England** Peter Coss, 2024-09-03 Despite the multidirectional nature of modern research the interpretation of the political history of thirteenth century England has remained locked into a traditional framework bequeathed by the mid twentieth century historian R F Treharne and embellished by the emphases and accentuations of his present day successors Characterised by its conception of community its constitutionalism its ready identification of a national enterprise and its predilection for idealism and progressive thinking this framework remains close to the Whig interpretation of English history It is reinforced by the continuation of reverence for the baronial leader Simon de Montfort In contrast Peter Coss offers here an alternative approach to the period which is anchored in social mores and cultural values More emphasis is placed upon the interests ambitions and needs of contemporaries upon social networks of

various kinds and upon how interests both clashed and cohered as people strove to improve or preserve their situations This was a crisis born of political instability but in the context of institutional administrative and legal growth that is to say at a particular point in the evolution of the state Drawing on a wide range of sources the book reconsiders the generation of the crisis the factors which influenced its course and its partial resolution In short it explores the anatomy and physiology of a troubled realm

Flanders and the Anglo-Norman World, 1066-1216 Eljas Oksanen,2012-09-13 This book explores the relations and exchanges between Flanders and the Anglo Norman realm following the union of England and Normandy in 1066

The Northern Danelaw D.M. Hadley,2001-01-01 Investigating the changing nature of lordship and peasant statuses the transformation of estate structures the emergence of villages and the development of the parish system D M Hadley also explains the peculiarities of the northern Danelaw and reassesses the impact of the Scandinavian settlements on its society and culture A detailed local study is combined with a consideration of wider issues concerning Anglo Saxon England and long and short term changes unrelated to successive conquests

The Great Famine William Chester Jordan,1997-12-15 The horrors of the Great Famine 1315 1322 one of the severest catastrophes ever to strike northern Europe lived on for centuries in the minds of Europeans who recalled tales of widespread hunger class warfare epidemic disease frighteningly high mortality and unspeakable crimes Until now no one has offered a perspective of what daily life was actually like throughout the entire region devastated by this crisis nor has anyone probed far into its causes Here the distinguished historian William Jordan provides the first comprehensive inquiry into the Famine from Ireland to western Poland from Scandinavia to central France and western Germany He produces a rich cultural history of medieval community life drawing his evidence from such sources as meteorological and agricultural records accounts kept by monasteries providing for the needy and documentation of military campaigns Whereas there has been a tendency to describe the food shortages as a result of simply bad weather or else poor economic planning Jordan sets the stage so that we see the complex interplay of social and environmental factors that caused this particular disaster and allowed it to continue for so long Jordan begins with a description of medieval northern Europe at its demographic peak around 1300 by which time the region had achieved a sophisticated level of economic integration He then looks at problems that when combined with years of inundating rains and brutal winters gnawed away at economic stability From animal diseases and harvest failures to volatile prices class antagonism and distribution breakdowns brought on by constant war northern Europeans felt helplessly besieged by acts of an angry God although a cessation of war and a more equitable distribution of resources might have lessened the severity of the food shortages Throughout Jordan interweaves vivid historical detail with a sharp analysis of why certain responses to the famine

failed He ultimately shows that while the northern European economy did recover quickly the Great Famine ushered in a period of social instability that had serious repercussions for generations to come **The Fourteenth-century Sheriff** Richard Gorski,2003 A study of the careers of over 1200 sheriffs appointed in England during the fourteenth century

Rulership and Rebellion in the Anglo-Norman World, c.1066-c.1216 Paul Dalton,David Luscombe,2016-03-09 The importance of the themes of rulership and rebellion in the history of the Anglo Norman world between 1066 and the early thirteenth century is incontrovertible The power government and influence of kings queens and other lords pervaded and dominated society and was frequently challenged and resisted But while biographies of rulers studies of the institutions and operation of central local and seigniorial government and works on particular political struggles abound many major aspects of rulership and rebellion remain to be explored or further elucidated This volume written by leading scholars in the field and dedicated to the pioneering work of Professor Edmund King will make an original important and timely contribution to our knowledge and understanding of Anglo Norman history Power and Border Lordship in Medieval France Kathleen Thompson,2002 The emergence of the northern French county of the Perche and the rise of the Rotrou family from obscure origins to princely power 11 13c **Lordship, Knighthood and Locality** Peter R.
