Lordship Knighthood And Locality:

Lordship, Knighthood and Locality Peter R. Coss, 1991-09-19 A study of the evolution of the knightly class in Coventry and Warwickshire **Edward I and the Governance of England, 1272-1307** Caroline Burt, 2013 This study of Edward I's governance radically re-evaluates his motivations and achievements presenting an entirely new interpretation of his reign

The Aristocracy in England and Tuscany, 1000-1250 Peter R. Coss, 2020 This volume examines the aristocracy in Tuscany and in England in the years 1000-1250 offering a new way of studying English aristocracy in this period by tracing Italian aristocratic history and then employing the same historiographic tools within English history **Political culture in later medieval England** Michael J. Braddick, 2020-01-03 This is an important collection of pioneering essays penned by the late Simon Walker a highly respected historian of late medieval England One of the finest scholars of his generation Walker's writing is lucid inspirational and has permanently enriched our understanding of the period The eleven essays featured here examine themes such as kingship lordship warfare and sanctity There are specific studies on subjects such as the changing fortunes of the family of Sir Richard Abberbury Yorkshire's Justices of the Peace the service of medieval man at arms Janico Dartasso Richard II's views on kingship political saints and an investigation of rumour sedition and popular protest in the reign of Henry IV An introduction by G L Harriss looks back across Walker's career and discusses the historiographical context of his work Both the new and previously published pieces here will be essential reading for those working on the late medieval period *Vassals, Heiresses, Crusaders, and Thugs* Hugh M. Thomas, 2016-11-11 In recent decades works of the gentry have revolutionized our understanding of late medieval and early modern England In *Vassals Heiresses Crusaders and Thugs* Hugh M Thomas takes the study of the gentry back to the period 1154-1216 His conclusions not only reveal remarkable similarities between the gentry of various periods but also shed light on the massive changes that transformed England in the Angevin Period *The Commercialisation of English Society, 1000-1500* R. H. Britnell, 1996 The commercialisation of English society offers a major new interpretation of social and economic change in England over five centuries By 1500 English livelihoods depended more upon money and commercial transactions than ever before the institutional framework of markets had been transformed and urban development was more pronounced These changes were not however caused by any unilinear development of population output or money supply This pioneering study examines both institutional and economic transformation and the social changes that resulted and stresses the limited importance of formal trading institutions for the development of local trade Commercial transition is throughout analysed from a broader perspective that looks at the changing power relations within medieval society which might loosely be described as feudal and considers how these relations were affected by such commercial development The Image of Aristocracy David Crouch, 2005-11-29 David Crouch provides a broad definition of aristocracy by examining the ways aristocrats behaved and lived between 1000 and 1300 He analyses life style class and luxurious living in those years A distinctive feature of the book

is that it takes a British rather than Anglocentric view looking at the penetration of Welsh and Scottish society by Anglo French ideas of aristocracy *Maintenance in Medieval England* Jonathan Rose,2017-06-22 Identifying for the first time the true nature of maintenance this study uses primary sources to reach new findings on its lawfulness *The Legend of Guy of Warwick* Velma Bourgeois Richmond,2021-11-18 First published in 1996 This lavishly illustrated study is a comprehensive literary and social history which offers a record of changing genres manuscript book production and cultural political and religious emphases by examining one of the most long lived popular legends in England Guy of Warwick became part of history when he was named in chronicles and heraldic rolls The power of the Earls of Warwick especially Richard de Beauchamp inspired the spread of the legend but Guy s highest fame came in the Renaissance as one of the Nine Worthies Widely praised in texts and allusions Guy s feats were sung in ballads and celebrated on the stage in England and France The first Anglo Norman romance of Gui de Warewic a Saxon hero of the tenth century was written in the early 13th century the latest retellings of the legend are contemporary Examples of Guy s legend can be found in two English translations that survived the Middle Ages a new French prose romance a didactic tale in the Gesta Romanorum and late medieval versions in Celtic German and Catalan as well as English Guy remained a favorite Edwardian children s story and was featured in the Warwick Pageant an historical extravaganza of 1906 The patriotism of World War II sparked a resurgence of interest that produced several new versions mostly folkloric **The Fourteenth-century Sheriff** Richard Gorski,2003 A study of the careers of over 1200 sheriffs appointed in England during the fourteenth century Politics and Society in Mid Thirteenth-Century England Peter Coss,2024-09-03 Despite the multidirectional nature of modern research the interpretation of the political history of thirteenth century England has remained locked into a traditional framework bequeathed by the mid twentieth century historian R F Treharne and embellished by the emphases and accentuations of his present day successors Characterised by its conception of community its constitutionalism its ready identification of a national enterprise and its predilection for idealism and progressive thinking this framework remains close to the Whig interpretation of English history It is reinforced by the continuation of reverence for the baronial leader Simon de Montfort In contrast Peter Coss offers here an alternative approach to the period which is anchored in social mores and cultural values More emphasis is placed upon the interests ambitions and needs of contemporaries upon social networks of various kinds and upon how interests both clashed and cohered as people strove to improve or preserve their situations This was a crisis born of political instability but in the context of institutional administrative and legal growth that is to say at a particular point in the evolution of the state Drawing on a wide range of sources the book reconsiders the generation of the crisis the factors which influenced its course and its partial resolution In short it explores the anatomy and physiology of a troubled realm *Henry III* David Carpenter,2023-01-01 The second volume in the definitive history of Henry III s rule covering the revolutionary events between 1258 and the king s death in 1272 After coming to the throne aged just nine Henry III spent much of his reign

peaceably Conciliatory and deeply religious he created a magnificent court rebuilt Westminster Abbey and invested in soft power Then in 1258 the king faced a great revolution Led by Simon de Montfort the uprising stripped him of his authority and brought decades of personal rule to a catastrophic end In the brutal civil war that followed the political community was torn apart in a way unseen again until Cromwell Renowned historian David Carpenter brings to life the dramatic events in the last phase of Henry III s momentous reign Carpenter provides a fresh account of the king s strenuous efforts to recover power and sheds new light on the characters of the rebel de Montfort Queen Eleanor and Lord Edward the future Edward I A groundbreaking biography Henry III illuminates as never before the political twists and turns of the day showing how politics and religion were intimately connected *Magna Carta* David Carpenter, 2015-01-15 David Carpenter deserves to replace Sir James Holt as the standard authority and an unfailingly readable one too Ferdinand Mount TLS An invaluable new commentary Jill Leopore New Yorker With a new commentary by David Carpenter No free man shall be seized or imprisoned or stripped of his rights or possessions or outlawed or exiled or deprived of his standing in any other way nor will we proceed with force against him or send others to do so except by the lawful judgment of his equals or by the law of the land Magna Carta forced on King John in 1215 by rebellion is one of the most famous documents in world history It asserts a fundamental principle that the ruler is subject to the law Alongside a new text and translation of the Charter David Carpenter s commentary draws on new discoveries to give an entirely fresh account of Magna Carta s text origins survival and enforcement showing how it quickly gained a central place in English political life It also uses Magna Carta as a lens through which to view thirteenth century society focusing on women and peasants as well as barons and knights The book is a landmark in Magna Carta studies 2015 is the 800th anniversary of Magna Carta s creation an event which will be marked with exhibitions commemorations and debates in all the countries over whose constitutions and legal assumptions the shadow of Magna Carta hangs *Thirteenth Century England V* Peter R. Coss, Simon D. Lloyd, 1995 Studies in economic political and social history in 13c England Regionalism and Revision Peter Fleming, 1998-07-01 Historians of premodern Europe often think in terms of small worlds a series of regional societies functioning independently of each other This approach works well for isolated areas but is less obviously applicable to England the most centralised country in Europe How far England was centrally controlled and how far power in reality remained in the localities are key considerations in understanding English history both in the middle ages and afterwards The essays in *Regionalism and Revision* all address these questions both by analysing how the problem should be approached and by examining what the exercise of power involved in local terms Did the gentry dominate local office by virtue of their intrinsic importance in their counties or were they dependent for the continuation of their power and wealth on the renewal of their commissions from the central government How did magnates mediate influence at the centre on behalf of the localities and how were they repaid for it How did officials appointed by the crown including sheriffs and JPs react to having to impose unpopular burdens such as

purveyance upon the counties **State and Society in the Early Middle Ages** Matthew Innes, 2000-04-24 This book first published in 2000 is a pioneering study of politics and society in the early Middle Ages Whereas it is widely believed that the source materials for early medieval Europe are too sparse to allow sustained study of the workings of social and political relationships on the ground this book focuses on a uniquely well documented area to investigate the basis of power Topics covered include the foundation of monasteries their relationship with the laity and their role as social centres the significance of urbanism the control of land the development of property rights and the organization of states community kinship and lordship justice and dispute settlement the uses of the written word violence and the feud and the development of political structures from the Roman empire to the high Middle Ages *Colonisation and Conquest in Medieval Ireland* Brendan Smith, 1999-04-22 This book examines the development of English colonial society in the eastern coastal area of Ireland now known as county Louth in the period 1170-1330 At its heart is the story of two relationships that between settler and native in Louth and that between the settlers and England An important part of the story is the comparison with parts of Britain which witnessed similar English colonization Fifty years before the arrival of the English Louth was incorporated into the Irish kingdom of Airgialla experiencing rapid change in the political and ecclesiastical spheres under its dynamic ruler Donnchad Ua Cerbaill The impact of this legacy on English settlement is given due prominence The book also explores the reasons why well to do members of local society in the West Midlands of England in the reigns of Henry II and his sons were prepared to become involved in the Irish adventure *Peasants Making History* Christopher Dyer, 2022 *Peasants Making History* examines a peasant community in the English west midlands in the middle ages to understand how peasants lived interacted and made changes in their society in ways that have long been disregarded in scholarship *The English Aristocracy, 1070-1272* David Crouch, 2011-05-24 William the Conqueror's victory in 1066 was the beginning of a period of major transformation for medieval English aristocrats In this groundbreaking book David Crouch examines for the first time the fate of the English aristocracy between the reigns of the Conqueror and Edward I Offering an original explanation of medieval society one that no longer employs traditional feudal or bastard feudal models Crouch argues that society remade itself around the emerging principle of nobility in the generations on either side of 1200 marking the beginning of the ancien regime The book describes the transformation in aristocrats expectations conduct piety and status in expressions of social domination and in the relationship with the monarchy Synchronizing English social history with non English scholarship Crouch places England's experience of change within a broader European transformation and highlights England's important role in the process With his accustomed skill Crouch redefines a fascinating era and the noble class that emerged from it

Lordship and the Landscape John Hunt, 1997 The author uses his evidence to discuss the nature of an Honour and the degree to which the local aristocracy identified with this regional division He considers how the landscape reflects the existence and nature of an aristocracy asking How real and extensive was seigneurial influence in the honour of Dudley
