world that we could have if we believe in it First the idea exists only in his mind but when the ge nte believe him becomes reality to putting his ideas into practice That is the key to evolution because all the wonders that we know today were once the dream of a philosopher When a person is only concerned with feeling the pleasures of the bodily senses the pleasure of feeling the essence of the universe that can only be obtained with meditation is lost Someday perhaps there are no more discoveries to find and then stimuli are the only way possible but in a world in evolution only those seeking the truth so n able to understand the universe in its whole Because a materialistic man only knows how to travel through a geographical territory whereas a philosopher when he has enough intuition is able to travel with his mind through time and space and discover a better world that he can then share with the rest of humanity I also try to offer readers what Jesus called the water of life that is the food for the spirit that philosophy provides because just as the body feeds on matter the spirit feeds on emotions which is what philosophy represents I hope this book is like a light that guides people in that ocean of lies that is the contemporary world
