Lost for Words J. W. Patrick Creber, 1976 **Lost for words** Patrick J.W. Creber, 1976 **Lost for Words** National Association for the Teaching of English, Resources in education ,1983-05 **Research in Education** ,1972

Classroom Language Jill Richards, 2012 The acquisition and use of language are just as vital to children's learning when the newer classroom methods are being employed as ever they were when the more traditional approaches were being used. Child-centred learning has increasingly influenced language use and language work in the classroom mainly in the primary sector but also in the teaching of English and indirectly in the teaching of other subject areas including the sciences. In this volume the author focuses mainly on the language of subject learning in the secondary schools. She looks critically at some current notions concerned with language and learning and examines their translation into classroom practice. She then develops a picture of the language demands made by other subject areas using collected language material and finally in the light of this evidence she attempts to identify the range of language in everyday use in schools. She goes on to draw conclusions and then makes recommendations. Routledge Library Editions: Education Mini-Set O Teaching and Learning 14 vols Various, 2021-12-02 Originally published between 1973 and 1993 the 14 books in this set discuss a number of themes such as policy practice and evaluation in schools dealing with disruptive behaviour issues regarding the teaching of arts and sciences ethnographic studies of life in primary and secondary schools and critical events in teaching and learning *Verbal/Visual Crossings 1880-1890* Theo D'haen, 2023-12-18 **Methodologies for Effective Writing Instruction in EFL and ESL Classrooms** Al-Mahrooqi, Rahma, 2014-10-31 Educators continue to strive for advanced teaching methods to bridge the gap between native and non-native English speaking students. Lessons on written forms of communication continue to be a challenge recognized by educators who wish to improve student comprehension and overall ability to write clearly and expressively. *Methodologies for Effective Writing Instruction in EFL and ESL Classrooms* brings together research and practices for successful written communication teaching among students of diverse linguistic backgrounds. With technological advancements and resources educators are able to implement new tools into their lesson plans for the benefit of their students. This publication is an essential reference source for professionals, educators and researchers interested in techniques and practices for written communication in English language teaching geared towards non-native English speaking students. **English Teachers at Work** International Federation for the Teaching of English, 1986 Verbal Deficit J. C. B. Gordon, 2018-09-14 Originally published in 1981 Verbal deficit theories try to account for differential educational attainments in linguistic terms suggesting that children reach varying levels of success in school as a result of their ability or inability to express themselves and relate this to social class. This critique considers such theories especially in the form propounded by Bernstein primarily from a sociolinguistic viewpoint but with special attention to the historical and educational context behind the theories. It claims that verbal deficit theories are not only unscientific and non-linguistic but

are educationally damaging as well and proposes instead a linguistic difference theory *Teaching and Learning of English in Secondary Schools* Casmir Chanda, 2008 By exploring the ways that teachers and pupils can help to improve classroom practices this book shows how education planners and practitioners can effect improvements in schools even in situations of very scarce resources It is suitable for those who are working to improve English language teaching and learning **The Art of Teaching Secondary English** Nicholas McGuinn, David Stevens, 2004-05-27 The Art of Teaching Secondary English is a practical and accessible resource for everyone involved in English teaching including teachers and student teachers of English Jacket *Educational Priority: E.P.A. problems and policies*, edited by A.H. Halsey A. H. Halsey, 1972 *Psychology for the Classroom* Johanna Turner, 2017-09-14 Originally published in 1977 Psychology for the Classroom is offered as an aid to people who are learning themselves and helping other people to learn that is to parents students and particularly to teachers The activity of teaching to be successful requires the teacher to understand the behaviour of the learner as fully as possible Some of the insights into human behaviour gained by psychologists may prove helpful to the teacher in complementing his or her experience and intuitive understanding and it is with this in mind that the topics covered in this book have been selected Section one deals with cognitive aspects an understanding of which is essential since cognitive processes are the means by which individuals are able to make sense of their environment Section two considers the social situation in which knowledge and understanding develop i.e. the way in which social interaction affects learning Section three focuses on the individual stressing that academic achievement depends not only on hard work but is intimately related to an individual's personal development and personality The book will be valuable to psychology students student teachers and teachers on in-service courses for its coverage of relevant psychological research and the description of pertinent experiments and studies of the time Its originality lies in the way in which it communicates the importance of teachers using psychology as a basis for forming hypotheses which they can test for themselves not necessarily as researchers but in a mood of personal exploration *E.P.A. Problems and Policies* A. H. Halsey, 1972 **Schooling in Hong Kong** Gerard A. Postiglione, Wing On Lee, 1997-09-01 This volume presents readers with background material for understanding more about the characteristics of Hong Kong education as well as social and organizational perspectives that will contribute to informed discussion about key educational issues facing Hong Kong educators The book is organized into three parts The first part introduces the Hong Kong education system and its relationship to the labour market manpower planning and the policymaking process The second part introduces the organizational and managerial aspects of schools The third part examines social factors as they affect educational attainment Here attention is focused upon social stratification language of instruction and special education A comprehensive and timely publication this volume should be of interest to practising teachers and participants in teacher education programmes in Hong Kong [A Guided Reader for Secondary English](#) David Stevens, 2012 The Guided Reader for Secondary English draws on extracts from the published work of some of the most

influential education writers to provide insight guidance and clarity about key issues affecting Secondary English teachers The book brings together key extracts from classic and contemporary writing and contextualises these in both theoretical and practical terms The extracts are accompanied by a summary of the key ideas and issues raised questions to promote discussion and reflective practice and annotated further reading lists to extend thinking Taking a thematic approach and including a short introduction to each theme the chapters cover Theoretical models of curricular English The nature and structure of the Secondary School English curriculum Historical perspectives Texts and intertextuality The arts context for secondary English Assessment and evaluation Linguistic and cultural contexts Future possibilities and tensions Aimed at trainee and newly qualified teachers including those working towards Masters level qualifications as well as existing teachers this accessible but critically provocative text will be an essential resource for those that wish to deepen their understanding of Secondary English Education **English Teaching in the Secondary School** Mike Fleming, David Stevens, 2015-05-15

English Teaching in the Secondary School is a comprehensive guide to the theory and practice of teaching English This updated 4th edition has been revised to take into consideration changes in national policy drawing on the most recent research and theory to produce engaging practical ideas for use in the classroom It challenges mechanistic and formulaic approaches to teaching instead placing an emphasis on reflection understanding and informed practice Guiding students and new teachers through the whole process of English teaching in the secondary school this edition has been fully updated to include a report of the most recent developments in national policy discussion of multiple literacies and critical literacy a new chapter on English as an additional language a new chapter on cross curricular themes new sections on approaches to the teaching of grammar reflections on international developments in language teaching and their relevance a guide to further reading on resources and research Written in an accessible style with a wealth of advice and ideas English Teaching in the Secondary School forms essential reading for all those training to become secondary English teachers **Educational Problems** Granville Stanley Hall, 1911
