biographies of these star crossed players who became Lost in the Labyrinth of Life Kurt Richter Alan McGowan,2018-10-05 German master Kurt Richter 1900 1969 made significant contributions to the chess world as a player and as an editor and author Unassuming in real life Richter was a fearsome opponent who expressed himself mainly through his over the board results as well as through his chess journalism and literary output He was responsible for several innovative openings some of which gained renewed status in later years This overview of his life and games sheds light on a player who should be better known with much never before seen material Examples of his entertaining writings on chess are included some featuring his fictitious student opponent Dr Zabel A wide selection of games illustrates the surprising combinations and brilliant style of play that earned him the title The Executioner of Berlin 300 Most Important Tactical Chess Positions Thomas Engqvist,2021-03-04 An International Master s instructive guide to essential tactical strategies and positions in chess A comprehensive book from the Swedish International Master Thomas Engqvist for understanding the most important tactical chess positions in the opening of a game the middle game and the endgame It cuts to the chase on the most useful tactical positions at each stage of the game Knowing the positions is one thing but this experienced coach shows you how to create them even out of nothing in the spirit of Tal and Alekhine It covers other important facets of tactical play including calculation how to calculate with the help of stepping stones attacking play such as defence and counter attack and even psychological tactics Each numbered position can be seen as a test yourself quiz with answers given below the diagrams to help cement tactical understanding Since it s advisable to revise the positions from time to time this book can be your life long companion enabling you to dramatically increase your tactical chess understanding The perfect guide for players who want to reach a higher level but don t have time to spend hours every week on less productive study
