Women of the Mexican Countryside, 1850-1990 Heather Fowler-Salamini, Mary Kay Vaughan, 2022-03-08 Too often in the history of Mexico women have been portrayed as marginal figures rather than legitimate participants in social processes As the twentieth century draws to a close Mexican women of the countryside can be seen as true historical actors mothers and heads of households factory and field workers community activists artisans and merchants In this new book thirteen contributions by historians anthropologists and sociologists from Mexico as well as the United States elucidate the roles of women and changing gender relations in Mexico as rural families negotiated the transition from an agrarian to an industrial society Drawing on Mexican community studies gender studies and rural studies these essays overturn the stereotypes of Mexican peasant women by exploring the complexity of their lives and roles and examining how these have changed over time The book emphasizes the active roles of women in the periods of civil war 1854-76 and the commercialization of agriculture 1880-1910 It highlights their vigorous responses to the violence of revolution their

increased mobility and their interaction with state reforms in the period from 1910 to 1940 The final essays focus on changing gender relations in the countryside under the impact of rapid urbanization and industrialization since 1940 Because histories of Latin American women have heretofore neglected rural areas this volume will serve as a touchstone for all who would better understand women's lives in a region of increasing international economic importance Women of the Mexican Countryside demonstrates that contrary to the peasant stereotype these women have accepted complex roles to meet constantly changing situations

Defiant Indigeneity Stephanie Nohelani Teves,2018-03-14 Aloha is at once the most significant and the most misunderstood word in the Indigenous Hawaiian lexicon For K naka Maoli people the concept of aloha is a representation and articulation of their identity despite its misappropriation and commandeering by non Native audiences in the form of things like the hula girl of popular culture Considering the way aloha is embodied performed and interpreted in Native Hawaiian literature music plays dance drag performance and even ghost tours from the twentieth century to the present Stephanie Nohelani Teves shows that misunderstanding of the concept by non Native audiences has not prevented the K naka Maoli from using it to create and empower community and articulate its distinct Indigenous meaning While Native Hawaiian artists activists scholars and other performers have labored to educate diverse publics about the complexity of Indigenous Hawaiian identity ongoing acts of violence against Indigenous communities have undermined these efforts In this multidisciplinary work Teves argues that Indigenous peoples must continue to embrace the performance of their identities in the face of this violence in order to challenge settler colonialism and its efforts to contain and commodify Hawaiian Indigeneity
