Lost Cities:

Lost Cities Nicola Barber, 2013 Looks at several re discovered lost cities presenting information about their discoverers how the discoveries were made and what was found at each of them **Lost Cities and Forgotten Civilizations** Michael Pye, Kirsten Dalley, 2013 Cosmology the mysteries of the pyramids ancient nuclear weapons Atlantis and the role of our government through history all come together in this book **Lost Cities** Maria Teresa Guaitoli, 2002 The cities of antiquity where civilization took root and developed to create great empires and cultures are considered by experts to be the sacred places of historical science these sites and the unstinting work of archaeologists have made it possible to piece together the history of famous civilizations and examine their ancient art thereby restoring to humanity fragments of our lost treasures and the memory of the remote past Cover page 4 **Jesus Christ, the Number of His Name** Bonnie Gaunt, 1998 Sir Issac Newton searched more than half a lifetime for the secret code that he suspected was in the original texts the Old and New Testaments He died without ever finding it That sacred code now reveals the story of Jesus Christ His part in the work of creation His coming as the babe of Bethlehem and His glorious second coming as the promised King on David s Throne The exciting message that was encoded into the original text tells the time of His coming and the Earth s Great Millennium Today we are living in the time that was prophesied This book takes us on an exciting journey into the secrets of that code and its astounding message Lost Cities Natalie Lunis, 2012-08-01 Some cities that once thrived have now disappeared the sites sometimes turning into empty ominous ruins What dark secrets are hidden in these vanished cities In this book readers will explore the mysteries of the world s most famous lost cities and learn how these intriguing places were rediscovered Among the 11 spooky places highlighted are the abandoned remains of a futuristic vacation town that was said to be cursed and the crumbling ruins of an industrial town on an eerily deserted island Fascinating histories and haunting photographs will keep kids turning the pages for more *Ley Lines and Earth Energies* David Cowan, 2003 This exploration shows how natural forces affect our behavior how they can be used to enhance our health and well being and ultimately how they bring us closer to penetrating one of the deepest mysteries being explored **Invisible Residents** Ivan T. Sanderson, 2005 This book is a groundbreaking contribution to the study of the UFO enigma originally published over 30 years ago In this book Sanderson a renowned zoologist with a keen interest in the paranormal puts forward the curious theory that a oeOINTS Other Intelligences live under the Eartha TM s oceans This underwater parallel civilization may be twice as old as Homo sapiens he proposes and may have a oedeveloped what we call space flight Sanderson postulates that the OINTS are behind many UFO sightings as well as the mysterious disappearances of aircraft and ships in the Bermuda Triangle What better place to have an impenetrable base than deep within the oceans of the planet Yet if UFOs or at least some of them are coming from beneath our oceans or lakes does it necessarily mean that there is another civilization besides our own that is responsible In fact could it be that since WWII a number of underwater UFO bases have been constructed by the very human governments

of our planet Whatever their source Sanderson offers here an exhaustive study of USOs Unidentified Submarine Objects observed in nearly every part of the world He presents many well documented and exciting case studies of these unusual sightings more
