Lost Shores Forgotten Peoples:

Lost Shores, Forgotten Peoples Lawrence H. Feldman, 2000 Long after the Aztecs and the Incas had become a fading memory a Maya civilization still thrived in the interior of Central America Lost Shores Forgotten Peoples is the first collection and translation of important seventeenth century narratives about Europeans travelling across the great Ocean Sea and encountering a people who had maintained an independent existence in the lowlands of Guatemala and Belize In these narratives primary documents written by missionaries and conquistadors vivid details of these little known Mayan cultures are revealed answering how and why lowlanders were able to evade Spanish conquest while similar civilizations could not Fascinating tales of the journey from Europe are included involving unknown islands lost pilots life aboard a galleon fleet political intrigue cannibals and breathtaking natural beauty In short these forgotten manuscripts translations of the papers of the past provide an unforgettable look at an understudied chapter in the age of exploration Lost Shores Forgotten Peoples will appeal to archaeologists anthropologists and historians interested in Central America the Maya and the Spanish Conquest

A Search for Sovereignty Lauren Benton, 2009-11-30 A Search for Sovereignty approaches world history by examining the relation of law and geography in European empires between 1400 and 1900 Lauren Benton argues that Europeans imagined imperial space as networks of corridors and enclaves and that they constructed sovereignty in ways that merged ideas about geography and law Conflicts over treason piracy convict transportation martial law and crime created irregular spaces of law while also attaching legal meanings to familiar geographic categories such as rivers oceans islands and mountains The resulting legal and spatial anomalies influenced debates about imperial constitutions and international law both in the colonies and at home This study changes our understanding of empire and its legacies and opens new perspectives on the global history of law

Unmaking Waste Sarah Newman, 2023-05-26 In Unmaking Waste Sarah Newman asks what happens when there are disagreements about what constitutes waste and what one should do with it both at singular moments in time for example when ideas about waste collide in emerging colonial contexts and across time such as between those who left things behind in the past and the archaeologists who recover them Newman examines ancient Mesoamerican understandings of waste Euro American perceptions of waste in New Spain and early modern European ideals of civility and Christian understandings of good and bad expressed metaphorically through cleanliness and filth These differing perceptions Newman argues demands that we rethink centuries of assumptions imposed on other places times and peoples so long as waste remains a category misunderstood to be common sensical and stable archaeological methods will prove unequal to their task Newman instead proposes anamorphic archaeology an approach that emphasizes the possibility that archaeological objects have multiple physical and conceptual lives

War in the Land of True Peace Brent K. S. Woodfill, 2019-05-23 For the ancient and modern Maya the landscape is ruled by powerful entities in the form of geographic features like caves mountains springs and abandoned cities spirits who must be entreated through visits and rituals for

permission to plant harvest build or travel their territories Consequently such places have served as points of domination and resistance over the millennia and nowhere is this truer than in Guatemala's Northern Transversal Strip the subject of Brent K S Woodfill's *War in the Land of True Peace* This strategic region with its wealth of resources fertile soil petroleum and the only noncoastal salt in the Maya lowlands is the site of some of the most sacred Maya places and thus also the focus of some of the signal struggles for power in Maya history In *War in the Land of True Peace* Woodfill delves into archaeology epigraphy ethnohistory and ethnography to write the biographies of several of these places covering their histories from the rise of the Preclassic Maya through the spread of transnational corporations in our time Again and again the region known since Spanish conquest as Vera Paz or True Peace has seen incursion by a foreign group including the great Maya cities of Tikal and Calakmul the Hapsburg Empire Guatemalan military dictatorships and contemporary corporations seeking to expand its power Each outsider intentionally or not used the Maya need for access to these places to ensure loyalty And each time local Maya pushed back to reclaim the sacred places for their own From early struggles to remove foreign influence to present day battles over land tenure and indigenous run ecotourism parks this book documents a continuity in Maya culture over several thousand years and illuminates the world view with its sense of personhood and religion so different from the West's that informs this enduring culture

MacLeod, 2010-07-05 The seventeenth century has been characterized as Latin America's forgotten century This landmark work originally published in 1973 attempted to fill the vacuum in knowledge by providing an account of the first great colonial cycle in Spanish Central America The colonial Spanish society of the sixteenth century was very different from that described in the eighteenth century What happened in the Latin American colonies between the first conquests the seizure of long accumulated Indian wealth the first silver booms and the period of modern raw material supply How did Latin America move from one stage to the other What were these intermediate economic stages and what effect did

they have on the peoples living in Latin America These questions continue to resonate in Latin American studies today making this updated edition of Murdo J MacLeod s original work more relevant than ever Colonial Central America was a large populous and always strategically significant stretch of land With the Yucat n it was home of the Maya one of the great pre Columbian cultures MacLeod examines the long term process it underwent of relative prosperity depression and then recovery citing comparative sources on Europe to describe Central America s great economic demographic and social cycles With an updated historiographical and bibliographical introduction this fascinating study should appeal to historians anthropologists and all who are interested in the colonial experience of Latin America **Xurt'an** Suzanne Cook,2019-08

Xurt'an the end of the world showcases the rich storytelling traditions of the northern Lacandonese of Naha through a collection of traditional narratives songs and ritual speech Formerly isolated in the dense tropical rainforest of Chiapas Mexico the Lacandon Maya constitute one of the smallest language groups in the world Although their language remains active and alive their traditional culture was abandoned after the death of their religious and civic leader in 1996 Lacking the traditional contexts in which the culture was transmitted the oral traditions are quickly being forgotten This collection includes creation myths that describe the cycle of destruction and renewal of the world the structure of the universe the realms of the gods and their intercessions in the affairs of their mortals and the journey of the souls after death Other traditional stories are non mythic and fictive accounts involving talking animals supernatural beings and malevolent beings that stalk and devour hapless victims In addition to traditional narratives **Xurt'an** presents many songs that are claimed to have been received from the Lord of Maize magical charms that invoke the forces of the natural world invocations to the gods to heal and protect and work songs of Lacandon women whose contribution to Lacandon culture has been hitherto overlooked by scholars Women s songs offer a rare glimpse into the other half of Lacandon society and the arduous distaff work that sustained the religion The compilation concludes with descriptions of rainbows the Milky Way as the white road of Our Lord and an account of the solstices Transcribed and translated by a foremost linguist of the northern Lacandon language the literary traditions of the Lacandonese are finally accessible to English readers The result is a masterful and authoritative collection of oral literature that will both entertain and provoke while vividly testifying to the power of Lacandon Maya aesthetic expression
