

A photograph of a dirt road winding through a forest. The trees on either side have autumn-colored foliage in shades of orange, yellow, and brown. The road is light-colored and leads into the distance. The overall mood is serene and contemplative.

psychological recesses of the black man's inner world, Dr. Elmore provides down-to-earth advice and real-life anecdotes drawn from his seminars and radio call-in shows to show women how to create the fulfilling relationship each partner wants and deserves. *Love as human virtue and human need and its role in the lives of long-term prisoners* Christina Valeska

Straub, 2021-04-06 While the importance of love is rarely questioned, the effects of its presence and absence in certain environments often go unnoticed. This book analyses the role of love in the lives of prisoners in a low-security English prison. It seeks to provide a deeper insight into the meaning and role of love as a dual concept in the social ecology of human existence, human development, and well-being, and sets out to encourage a critical and practical reconsideration of the potential benefits of love's re-inclusion into the prison set-up and purpose. This qualitative multidisciplinary analysis, based on psychological, moral, philosophical, neuroscientific, and sociological literature, will appeal to postgraduates and early-career researchers across the social sciences, as well as practitioners of Criminal Justice and others interested in offender rehabilitation and the effects of prison.

Love in Contemporary British Drama Korbinian Stöckl, 2021-01-18 Despite the recent turn to affects and emotions in the humanities and despite the unceasing popularity of romantic and erotic love as a motif in fictional works of all genres, the subject has received surprisingly little attention in academic studies of contemporary drama. *Love in Contemporary British Drama* reflects the appeal of love as a topic and driving force in dramatic works with in-depth analyses of eight pivotal plays from the past three decades. Following an interdisciplinary and historical approach, the study collects and condenses theories of love from philosophy and sociology to derive persisting discourses and to examine their reoccurrence and transformation in contemporary plays. Special emphasis is put on narratives of love's compensatory function and precariousness and on how modifications of these narratives epitomise the peculiarities of emotional life in the social and cultural context of the present. Based on the assumption that drama is especially inclined to draw on shared narratives for representations of love, the book demonstrates that love is both a window to remnants of the past in the present and a proper subject matter for drama in times in which the suitability of the dramatic form has been questioned.
