Just a Song Stephen Owen, 2020-10-26 Song Lyric ci remains one of the most loved forms of Chinese poetry From the early eleventh century through the first quarter of the twelfth century song lyric evolved from an impromptu contribution in a performance practice to a full literary genre in which the text might be read more often than performed Young women singers either indentured or private entrepreneurs were at the heart of song practice throughout the period the authors of the lyrics were notionally mostly male A strange gender dynamic arose in which men often wrote in the voice of a woman and her imagined feelings then appropriated that sensibility for themselves

As an essential part of becoming literature a history was constructed for the new genre At the same time the genre claimed a new set of aesthetic values to radically distinguish it from older Classical Poetry shi In a world that was either pragmatic or moralizing or both song lyric was a discourse of sensibility which literally gave a beautiful voice to everything that seemed increasingly to be disappearing in the new Song dynasty world of righteousness and public advancement

The love songs of Occitan troubadours inspired a rich body of courtly lyric by poets working in neighboring languages For Sarah Kay these poets were nightingales composing verse that is recognizable yet original But troubadour poetry also circulated across Europe in a form that is less well known but was more transformative Writers outside Occitania quoted troubadour songs word for word in their original language then commented upon these excerpts as linguistic or poetic examples as guides to conduct and even as sources of theological insight If troubadours and their poetic imitators were nightingales these quotation artists were parrots and their practices of excerption and repetition brought about changes in poetic subjectivity that would deeply affect the European canon The first sustained study of the medieval tradition of troubadour quotation Parrots and Nightingales examines texts produced along the arc of the northern Mediterranean from Catalonia through southern France to northern Italy through the thirteenth century and the first half of the fourteenth Featuring extensive appendices of over a thousand troubadour passages that have been quoted or anthologized Parrots and Nightingales traces how quotations influenced the works of grammarians short story writers biographers encyclopedists and not least other poets including Dante and Petrarch Kay explores the instability and fluidity of medieval textuality revealing how the art of quotation affected the transmission of knowledge and transformed perceptions of desire from the courtly love of the Middle Ages to the more learned formulations that emerged in the Renaissance Parrots and Nightingales deftly restores the medieval tradition of lyric quotation to visibility persuasively arguing for its originality and influence as a literary strategy
