Loving Ways A About Love For Children:

The 5 Love Languages of Children/The 5 Love Languages of Teenagers Set Gary Chapman, Ross Campbell, 2010-04-21
This set includes *The 5 Love Languages of Children* and *The 5 Love Languages of Teenagers*. In *The 5 Love Languages of Children*, the author examines the different languages your children speak. Sometimes they waver for your attention and other times they ignore you completely. Sometimes they are filled with gratitude and affection and other times they seem totally indifferent. Attitude, Behavior, Development. Everything depends on the love relationship between you and your child. When children feel loved, they do their best. But how can you make sure your child feels loved? Since 1992, Dr. Gary Chapman's best-selling book *The Five Love Languages* has helped more than 300,000 couples develop stronger, more fulfilling relationships by teaching them to speak each other's love language. Each child too expresses and receives love through one of five different communication styles. And your love language may be totally different from that of your child. While you are doing all you can to show your child love, he may be hearing it as something completely opposite. Discover your child's primary language and learn what you can do to effectively convey unconditional feelings of respect, affection, and commitment that will resonate in your child's emotions and behavior. In *The 5 Love Languages of Teenagers*, Dr. Gary Chapman explores the world in which teenagers live, explains the developmental changes, and gives tools to help you identify and appropriately communicate in your teen's love language. Socially, mentally, and spiritually, teenagers face a variety of pressures and stresses each day. Despite these peer pressures, it is still parents who can influence teens the most. Are you equipped to love your teenager effectively? Get practical tips on loving your teen effectively and explore key issues in your teen's life, including anger and independence. Finally, learn how to set boundaries that are enforced with discipline and consequences and discover useful ways for the difficult task of loving when your teen fails. Get ready to discover how the principles of the five love languages can really work in the lives of your teens and family. Over 400,000 copies sold. [Every Child Has a Guardian Angel](#) Thérèse Mary Smith, 2015-01-30. One of the most important roles of any parent is to help his or her child become aware of who that child really is, as a spiritual being living on Earth. *Every Child Has a Guardian Angel* supports parents who wish their child to sense the loving energy of their guardian angel. Through these exercises and meditations, parents can successfully show and teach their children to feel the beauty of their true essence and communicate with their guardian angel. Regularly practicing the exercises and meditations can make living with angels an everyday reality for children, improving the quality of their lives and the lives of those around them. Children coexisting with the angels in the same world is completely possible and can happen through parents being guided with the information and strategies in *Every Child Has a Guardian Angel*. **Understanding Marriage, Family, and Intimate Relationships** Jerry D. Lehman, 2005. This introductory textbook is for students who are interested in learning about and establishing healthy marriage, family, and intimate relationships. With divorce rates high and relationships fragile, books and courses are needed that help students address important issues regarding relationships. The

readers of this text examine many important and relevant issues through the lens of theory and research and do so using a written format that is readable understandable and easy to apply to one's life. It was written so that each chapter has information that readers will find helpful as they attempt to establish and maintain meaningful healthy relationships. There are questions throughout each chapter that help readers focus not only on the material but also on how the material relates to their present and past relationship and family situations. The text provides material on the research of John Gottman, the object relations theory of Harville Hendrix, the solution focused approach of Michele Weiner Davis, and the PREP approach to conflict management of Markman, Stanley, and Blumberg. These and other topics discussed are very relevant to students' concerns and are addressed in greater depth than found in most other texts. The emphasis is not just on couple relationships but also on family relationships. Therefore, in this book, there is extensive coverage of family systems theory and the influence of family rules and family structure on the development of families. There is also material on how change produces transitions in family life that must be assimilated into the family structure, for example, when a couple has their first child. Thus, both couple and family issues are addressed throughout the book. For instructors who want to focus their courses on marriage, family, and intimate relationships, this book would be an ideal choice. A study guide for students and instructional material for instructors can be obtained by visiting www.understandingrelationships.net.

Circles Katrina Wood, 2006-09. In this work, readers can awaken to a powerhouse that stands waiting and experience the blessing of a deeper connection with God. This text can help readers connect with God's amazing circle of life.

It shows where a loving pedagogy can fit within professional practice and how this can enrich experiences for children and educators. The book explores how educators can support their children by holding them in mind, valuing them, and promoting their best interests. Focusing on how relationships, attachment, and connections underpin our settings and practice, the chapters cover the fundamentals of professional love, appropriate touch, and
