Scientific, Environmental, and Political Issues in the Circum-Caspian Region M.H. Glantz, Igor S. studies on pensions health insurance housing and personal social services They provide an up to date detailed account of how these systems have developed as well as an examination of the question of whether these welfare regimes are the natural outgrowth of cultural traditions or the result of economic and political conditions This broad ranging and detailed study will be welcomed by both students and policy makers as the first proper academic study in English to have such a wide coverage of this topic Its clarity and authority should come as a welcome alternative to the more common misconceptions about Asian society
