Davies, J. Quinn, 2016-02-05 Ethics and Empowerment is a major contribution to the ongoing debate about the role of business in society. People expect more meaning and empowerment at work at a time when competitive pressures are seducing business into taking ethical short cuts. How is this to be reconciled? Through a thorough examination of the issues of power, control and autonomy, addressing such questions as empowerment being a matter of justice through case study based examinations of the organisational experiences of empowerment programmes and through looking at the ethics and empowerment debate from the wider perspective of business and social responsibility, this book seeks to make ethics more relevant and accessible to today's business world.

Consumer Protection and Online Auction Platforms Christine Riefa, 2016-03-03 Online auctions have undergone many transformations and continue to attract millions of customers worldwide. However, these popular platforms remain understudied by legal scholars and misunderstood by legislators. This book explores the legal classification of online auction sites across a range of countries in Europe. Including empirical studies conducted on 28 online auction websites in the UK, the research focusses on the protection of consumers' economic rights and highlights the shortcomings that the law struggles to control. With examinations into important developments including the Consumer Rights Directive and the latest case law from the CJEU on the liability of intermediaries, Riefa anticipates changes in the law and points out further changes that are needed to create a safe legal environment for consumers whilst preserving the varied business model adopted by online auction sites. The study provides insights into how technical measures as well as a tighter legislative framework or enforcement pattern could provide consumers with better protection in turn reinforcing trust and ultimately benefiting the online auction platforms themselves.

The Law Librarian, 1996 [The Law and Consumer Credit Information in the European Community](#) Federico Ferretti, 2008-05-13 Consumer credit information systems are the tools used by the majority of lenders to manage credit risk, with lenders accessing credit reference databases managed by third party providers to evaluate a consumer's credit application. So far, the subject of consumer credit reporting has been left to the predominant attention of the economic and business community.

The Yearbook of Consumer Law 2009 Annette Nordhausen, Geraint Howells, 2016-02-17 The Yearbook of Consumer Law provides a valuable outlet for high quality scholarly work which tracks developments in the consumer law field with a domestic, regional and international dimension. The 2009 volume presents a range of peer reviewed scholarly articles, analytical in approach and focusing on specific areas of consumer law such as credit, consumer redress and the impact of the European Union on consumer law. The book also includes a section dedicated to significant developments during the period covered, such as key legislative developments and important court decisions. It is an essential resource for all academics and practitioners working in the areas of consumer law and policy.
