*Medicine and Literature, Volume Two* John Salinsky, 2018-04-19 When I want to know the real rock bottom truth about what happens all the time in this doctoring life what happens to us and to the folks who bring us their hearts and worries to be heard that is when I turn every time to the novelists the playwrights the poets the essayists who have given us the sights and sounds the feel of all that goes on minute by minute What Tolstoy and Chekhov knew we need to know for ourselves for our own sakes as we live out our medical lives William Carlos Williams The most fundamental of all consulting skills is genuine curiosity about other people the constant urge to wonder Why are they as they are We should open our minds to the life of the imagination not just for its entertainment value but for the mindset of curiosity it engenders in us Such books as John Salinsky describes in this and his previous volume combine powerful opportunities for our own professional growth with pleasure and recreation too Roger Neighbour in his Foreword This carefully assembled wonderfully telling book is a companion for sure a lasting and

most helpful one for the medical travelling that awaits us Robert Coles in his Foreword Deeper Splendor Robert P. Vande Kappelle,2022-03-03 Life's ultimate adventure its grandest game and greatest challenge is the spiritual transformation of the self According to Swiss psychiatrist Carl Jung personality and spirituality are interrelated spirituality flowing out of individuality Noting that people differ in fundamental ways even though they possess the same instincts to drive them from within Jung discovered that preference rather than instinct upbringing environment or genetic conditioning is central to personality The task of spirituality then is not to help us achieve correct doctrine or attain saintly status but rather to help us best understand our humanity This endeavor drives Deeper Splendor a study of spirituality and personality in modern literature We focus on modern literature rather than on theology philosophy psychology or sociology because as this volume makes clear one of the best resources for studying transformative spirituality is great literature The great power of literature is that it speaks of human action and thought not in the dry matter of fact terms of history ethics psychology or some other science but in ways that are lively uplifting and productive Engaging with great literature is like beginning a love affair Such encounters may appear daunting at first but when you fall in love you want to know everything about the object of your love and every encounter leaves you wanting more When literature enhances spirituality as is true in the dozen or more selections examined in Deeper Splendor each literary moment renders us more fully alive Like its companion texts Wading in Water and Deep Splendor this volume is useful for individual or group study Each chapter concludes with questions suitable for discussion or reflection

**A Topography Plagued by Marginality in Victorian Novels** Catalina Balinisteanu-Furdu,2022-04-12 The purpose of this book is to analyse how marginality is experienced by the Other women orphans children labourers in Victorian literature and how these individuals succeed in transgressing borders or attempt at doing this The Other uses many strategies to climb the social ladder and to preserve a certain social position marrying into a superior social class subverting the master's position and usurping him acquiring education and knowledge to become superior tempting the master into

passionate love affairs approaching interpersonal communication or staying true to one's own self-defending one's moral values accepting lessons of domesticity becoming an angel in the house travelling to unknown territories exchanging reality for fictional worlds and so on On their way of achieving their goals the Others are shown in different spaces which contribute to the construction of their identity Our survey unfolds the complexity of the marginalization experience of the Victorian Others their individual or collective mentality and their agency Drawing on Otherness from six Victorian novels our book takes an interpretative approach The analysis of spaces revealed how the positionality of women or orphans or labourers in social hierarchies of gender race and legal status influences and even affects their legitimacy or access to a superior position Their agency has not always overcome their marginalization embedded within the structure of society but at least temporarily and gradually it has improved the women's living conditions by being rewarded with a beautiful family or by earning a living thus eluding the dependency on a man By contextualizing the six novels into the Victorian Age our survey will hopefully contribute to the understanding of women and of their attempts at emancipation by demonstrating how their positionality impacts their agency and their personality
