The Oxford Handbook of Eighteenth-Century Satire Paddy Bullard, 2019-07-30 Eighteenth century Britain thought of itself as a polite sentimental enlightened place but often its literature belied this self image This was an age of satire and the century's novels poems plays and prints resound with mockery and laughter with cruelty and wit The street level invective of Grub Street pamphleteers is full of satire and the same accents of raillery echo through the high scepticism of the period's philosophers and poets many of whom were part time pamphleteers themselves The novel a genre that emerged during the eighteenth century was from the beginning shot through with satirical colours borrowed from popular romances and scandal sheets This Handbook is a guide to the different kinds of satire written in English during the long eighteenth century It focuses on texts that appeared between the restoration of the Stuart monarchy in 1660 and the outbreak of the French Revolution in 1789 Outlier chapters extend the story back to first decade of the seventeenth century and forward to the second decade of the nineteenth The scope of the volume is not confined by genre however So prevalent was the satirical mode in writing of the age that this book serves as a broad and characteristic survey of its literature The Oxford Handbook of Eighteenth Century Satire reflects developments in historical criticism of eighteenth century writing over the last two decades and provides a forum in which the widening diversity of literary intellectual and socio historical approaches to the period's texts can come together

Nietzsche and the Becoming of Life Vanessa Lemm, 2014-10-15 This exciting collection of essays challenges existing interpretations of several key moments of Nietzsche's philosophy Paul Patton Scientia Professor of Philosophy University of New South Wales Australia Throughout his writing career Nietzsche advocated the affirmation of earthly life as a way to counteract nihilism and asceticism This volume takes stock of the complexities and wide ranging perspectives that Nietzsche brings to bear on the problem of life's becoming on Earth by engaging various interpretative paradigms reaching from existentialist to Darwinist readings of Nietzsche In an age in which the biological sciences claim to have unlocked the deepest secrets and codes of life the essays in this volume propose a more skeptical view Life is both what is closest and what is furthest from us because life experiments through us as much as we experiment with it because life keeps our thinking and our habits always moving in a state of recurring nomadism Nietzsche's philosophy is perhaps the clearest expression of the antinomy contained in the idea of studying life and in the Socratic ideal of an examined life and remains a deep source of wisdom about living

Monteverdi and his Contemporaries Tim Carter, 2024-10-28 This collection of reprinted essays takes the trends of the author's Music Patronage and Printing in Late Renaissance Florence also in the Variorum series in a somewhat different direction If the focus there was primarily on archival documents here it is on the actual music The starting point is similar the rise of the new music for solo voice and basso continuo in late sixteenth and early seventeenth century Florence in particular the songs of Giulio Caccini But it moves on to broader aesthetic issues crystallized in contemporary theoretical debate and musical practice not least the rise of aria based styles and concludes with a series of studies of Claudio Monteverdi's works for the theatre including the operas Il ritorno d Ulisse in patria 1640 and the ever problematic L'incoronazione di Poppea 1643

Walt Whitman and the Class Struggle Andrew Lawson, 2009-11 By reconsidering Whitman not as the proletarian voice of American diversity but as a historically specific poet with roots in the antebellum lower middle class Andrew Lawson in Walt Whitman and the Class Struggle defines the tensions and ambiguities about culture class and politics that underlie his poetry Drawing on a wealth of primary sources from across the range of antebellum print culture Lawson uses close readings of Leaves of Grass to reveal Whitman as an artisan and an autodidact ambivalently balanced between his sense of the injustice of class privilege and his desire for distinction Consciously drawing upon the languages of both the elite culture above him and the vernacular culture below him Whitman constructed a kind of middle linguistic register that attempted to filter these conflicting strata and defuse their tensions You shall not look through my eyes either nor take things from me You shall listen to all sides and filter them from yourself By exploring Whitman's internal struggle with the contradictions and tensions of his class identity Lawson locates the source of his poetic innovation By revealing a class conscious and conflicted Whitman he realigns our understanding of the poet's political identity and distinctive use of language and thus valuably alters our perspective on his poetry

More than 150 medieval texts are translated from nine medieval languages into English with commentaries from over seventy leading scholars. These include theories of art, discussions of patronage and understandings of iconography, practical recipes for artistic supplies, expressions of devotion and descriptions of cities. The volume reveals the cultural plurality and the interconnectivity of medieval Europe and the Mediterranean from the late eleventh to the early fourteenth centuries. The first part uncovers salient aspects of Byzantine artistic production and its aesthetic reception, while the second puts a spotlight on particular ways of expressing admiration and of interpreting of the visual.

Studies of Skin Color in the Early Royal Society Cristina Malcolmson, 2016-04-01 Arguing that the early Royal Society moved science toward racialization by giving skin color a new prominence as an object of experiment and observation, Cristina Malcolmson provides the first book-length examination of studies of skin color in the Society. She also brings new light to the relationship between early modern literature, science, and the establishment of scientific racism in the nineteenth century. Malcolmson demonstrates how unstable the idea of race remained in England at the end of the seventeenth century and yet how extensively the intertwined institutions of government, colonialism, the slave trade, and science were collaborating to usher it into public view. Malcolmson places the genre of the voyage to the moon in the context of early modern discourses about human difference and argues that Cavendish's *Blazing World* and Swift's *Gulliver's Travels* satirize the Society's emphasis on skin color.

Sculpture and Enlightenment Erika Naginski, 2009 This volume explores the ways in which the aesthetics of public art were affected by the social, political, and cultural changes of the Enlightenment.
