*Lucien Hervé* Olivier Beer, 2004 Lucien Hervé 1910 one of the great architectural photographers of the twentieth century collaborated with Le Corbusier from 1949 until the renowned architect died in 1965 Hervé approached his subjects seeking not only to document the buildings he was commissioned to photograph but also especially to convey a sense of space texture and structure Through light and shadow Hervé defined the dialogue between substance and form By delineating a strong contrast between light and shadow as well as placing emphasis on building details the photographer was able to communicate the depth of a room the surface of a wall or the strength of a building's framework For too long Hervé the master of architectural photography has eclipsed Hervé the photographer whose career began as early as 1938 and whose subject matter varied widely Featuring more than one hundred of his photographs in every genre this book celebrates Hervé's work as an artist creating images that serve not simply as records but stand as works of a singular imagination Lucien
