Lucien Levy Bruhl Explorations In Interpretative Sociology:

Lucien Levy-Bruhl Jean Cazeneuve,1973 Ecologies of Participation Zayin Cabot,2018-04-30 In this daring debut Zayin Cabot challenges the wise homebodies of academia A profoundly interdisciplinary approach to comparative scholarship Ecologies of Participation offers a methodology whereby we can face our shared planetary predicament It is grounded in process philosophy and asserts the importance of a new ontology of agency It traces the importance of L vy Bruhl and L vi Strauss s early work while offering new insight into the ontological turn in anthropology This book sets out to destabilize modern reductionist trends toward scientific materialism without falling into postmodern cultural constructivism It does not assume the givenness of nature or culture By advancing a multi ontology approach this work offers robust interventions into decolonial and critical studies Cabot takes contemporary scholarship in new and exciting directions offering an unstable ground from which to examine our shared worlds both human and other Throughout the last chapters of the book these threads are illuminated through a detailed ethics of comparison and participation **Irony of Theology and the Nature of Religious Thought**

Donald Wiebe,1991 Donald Wiebe critically examines the pervasive assumption that theology is a form of religious thought that is both compatible with and supportive of religious faith The irony he argues is that theology is in fact detrimental to religion and the religious way of life Lucien Lévy-Bruhl ... Translated by Peter Rivière Jean

Cazeneuve,1972 **Collective and Individual Responsibility** Jurrien Mol,2009 A long discussed theme concerning Ezekiel 18 and 20 is the relationship between collective and individual responsibility In the first half of the twentieth century the discussion appeared to end as a result of the introduction of the corporate personality by Henry Wheeler Robinson 1872 1945 This concept became heavily discussed and was dismissed on the grounds of its superseded theoretical basis The continuing use of the concept requires a redefinition and a new theoretical basis which is provided by the multimodal framework by Geoffrey Samuel from the field of cultural anthropology Before applying the concept Ezekiel 18 and 20 are studied extensively relative to textual criticism philology grammar and structural analysis *The Human context* ,1973

Domaine humain ,1973 *Religion, Philosophy and Knowledge* Gregory W. Dawes,2016-11-07 This book offers a philosophical approach to religion that acknowledges both the diversity of religions and the many and varied dimensions of the religious life Rather than restricting itself to Christian theism it covers a wide range of religious traditions examining their beliefs in the context of the actual practice of the religious life After outlining the aims of religion the book focuses on claims to knowledge What kinds of knowledge do religions purport to offer In what idiom is it couched From what sources do devotees draw their claims to knowledge Are these sources reliable Rather than trying to settle age old questions about religious belief the book offers its readers a set of criteria with which they can make informed decisions in matters of faith
