Ludwig I. von Bayern, Königtum im Vormärz Heinz Gollwitzer, 1986 Om Ludwig I af Bayern 1786 1868 Ludwig I. von Bayern Heinz Gollwitzer, 1997 **The Oxford History of Modern German Theology, Volume 1: 1781-1848** Grant Kaplan, Kevin M. Vander Schel, 2023-05-20 From the closing decades of the eighteenth century German theology has been a major intellectual force within modern western thought closely connected to important developments in idealism romanticism historicism phenomenology and hermeneutics Despite its influential legacy however no recent attempts have sought to offer an overview of its history and development Oxford History of Modern German Theology Vol I 1781 1848 the first of a three volume series provides the most comprehensive multi authored overview of German theology from the period from 1781 1848 Kaplan and Vander Schel cover categories frequently omitted from earlier overviews of the time period such as the place of Judaism in modern German society race and religion and the impact of social history in shaping theological debate Rather than focusing on individual figures alone Oxford History of Modern German Theology Vol I 1781 1848 describes the narrative arc of the period by focusing on broader intellectual and cultural movements ongoing debates and significant events It furthermore provides a historical introduction to each of the chronological subsections that divides the book Moreover unlike previous efforts to introduce this time period and geographical region the volume offers chapters covering such previously neglected topics as religious orders the influence of Romantic art secularism religious freedom and important but overlooked scholarly initiatives such as the Corpus Reformatorum Attention to such matters will make this volume an invaluable repository of scholarship and knowledge and an indispensable reference resource for decades to come

Toward the Century of Words Daniel Moran, 2024-06-28 In the decades between the French Revolution and the first stirrings of liberalism in the 1830s German political culture defined itself apart from that of its neighbors to the west Focusing on the career of Johann Cotta the preeminent publisher of his generation this book offers a lens through which we can more fully view and understand these turbulent years Cotta is a familiar figure in the history of German letters but his public life has never been studied comprehensively He financed and directed the Allgemeine Zeitung of Augsburg which would become one of the great European newspapers of the nineteenth century He was the first German to convert money and cultural prestige into political power by means of the press Cotta and his colleagues emerge not as liberals but as characteristic figures of the Reform era Their aim was to define and institutionalize a realm of thought and action beyond the control of the state but short of opposed to it a public realm in which intellectual independence and political loyalty would be
